Slone, 2001 A two volume collection of folktales that were published in Papua New Guinea s Wantok newspaper The two volume collection presents the complete set of 1047 folktales that were originally published from 1972 through 1997 in Tok Pisin Inside Stories Kathleen Bennett DeMarrais, 1998 Although articles reporting research studies are helpful in acquainting students with methodological approaches they often make the process look so straightforward clean and effortless It is rare to find an article that tells the real story behind the finished product By having real researchers tell their own stories of mucking around with methodological and ethical issues in qualitative research we get a more realistic human story of the process This is a collection of such stories Authors were asked to describe their own experiences with methodological and ethical struggles as they engaged in their work Each of the essays offers insight into the research approach used as well as particular issues which became apparent during the research process Key issues raised by the authors include early learnings gaining entry overlapping conflicting roles and the boundaries of these roles differential power relationships who tells the story and whose story is told ethical concerns related to confidentiality and the influence of a researcher s particular philosophy or theoretical framework on his or her research Throughout the book we see scholars whose personal stories or autobiographies intersect closely with their research projects deMarrais introduces a unique framework to help students gain an overview of qualitative research methods and the

underpinnings and processes in these approaches This framework is centered on the ways we understand phenomena using qualitative research approaches that engage archival knowledge narrative knowledge or observational knowledge New York Supreme Court Appellate Division-Second Department , **In the Lands of the Christians** Nabil Matar,2013-01-11 In the Lands of the Christians presents original translations from Arabic of four Christian and Muslim writers who visited Western Europe and America in the seventeenth century These essays contain careful descriptions of the regions societies customs and religions these intrepid travelers encountered in their journeys Here you will find the complete travel narrative of the first Arab to visit South and Central America in 1688 the first English translation of the ambassadorial report by Mohammad bin Abd al Wahab al Ghassani who traveled through Spain in 1690 translations of letters by the Moroccan ambassador to France describing his relationship with his hosts and his impressions of the land and Morisco author Ahmad bin Qasim s account of his voyage from Holland to France in 1610 The Pawnee; Mythology (part I) George Amos Dorsey,1906 The American Jewish Chronicle ,1918 English Translations of the Exercises and Documents Printed in the Telugu Reader Charles Philip Brown,1852 **A Recipe for a Feeling** Evan E. Pate,2022-04-22 To Every People From Every People trains people to plant reproducing churches in the mainstream of unreached cultures around the world There are over two billion people living in over seven thousand such cultures who will never have an adequate chance to know Christ as Lord and Savior unless someone plants churches in the mainstream of their culture and language group This book teaches clearly and biblically about why that is important More important it teaches you how to do it It focuses on practical subjects like how to learn another language without studying it in a school and how to make an effective strategy It actually walks you through case studies with illustrations so you can get a mental picture of how to plant reproducing churches in the mainstream of any people group An earlier version of this book was originally written specifically for Latin America It was published by Editora Vida Miami Florida in several editions of Spanish and Portuguese It has long been the best selling book of its kind for many years This English edition has been revised and updated for a global English speaking audience Many thousands of people have used this book to plant new churches in other cultures and even in their own cultures The anthropological communications and sociological principles in this book have also helped people understand the Bible better and how to apply its truths anywhere Most of all this book is designed to implant vision and passion for cross cultural ministry in the mind and heart of the reader It creates a mental image of how to do it It is a powerful tool intended for the Holy Spirit to use to thrust forth dedicated and effective laborers into the unreached harvest fields of the world
