Final Report on Foreign Aid, Pursuant to H. Res. 206, May 1, 1948 United States. Congress. House. Select Committee on Foreign Aid, 1948 **The Dutch Slave Trade, 1500-1850**, 2006 Dutch historiography has traditionally concentrated on colonial successes in Asia However the Dutch were also active in West Africa Brazil New Netherland the present state of New York and in the Caribbean In Africa they took part in the gold and ivory trade and finally also in the slave trade something not widely known outside academic circles P C Emmer one of the most prominent experts in this field tells the story of Dutch involvement in the trade from the beginning of the 17th century much later than the Spaniards and the Portuguese and goes on to show how the trade shifted from Brazil to the Caribbean He explains how the purchase of slaves was organized in Africa records their dramatic transport across the Atlantic and examines how the sales machinery worked Drawing on his prolonged study of the Dutch Atlantic slave trade he presents his subject clearly and soberly although never forgetting the tragedy hidden behind the numbers the dark side of the Dutch Golden Age which makes this study not only informative but also very readable Investigation and Study of the Administration, Operation, and Enforcement of the Export Control Act of 1949, and Related Acts United States. Congress. Senate. Committee on Public Works, 1970 Report United States. Congress. House, **Nature Conservation** Klaus-Dieter Hupke, 2023-01-01 Many things happen in nature reserves that are contradictory at first glance For example flower meadows are mown down during maintenance work even though all the plants growing there are protected Elsewhere protected reed beds are burnt down in a fen or the top layer of soil is removed with bulldozers in a dune conservation area Still other areas are to remain completely untouched by human intervention The author Klaus Dieter Hupke shows the different strategies of nature conservation He also shows that nature conservation is mostly not exactly what the term says in essence protection of nature On the contrary in Central Europe nature conservation areas are predominantly the relics of old agricultural and thus cultural landscapes Often aesthetic aspects of a landscape section are also in the foreground when designating it as a natural monument or

nature reserve Moreover nature conservation runs the risk of becoming a substitute action and an alibi for a still growing destruction of traditional and near natural landscape systems in Central Europe as well as globally The updated second edition now explicitly includes the consequences of climate change for nature conservation and has also incorporated a stronger reference to Austria as well as to the central Alpine region in some places for the relevant readers *Littell's Living Age* ,1919 *The Living Age* ,1919 **CALFED Bay-Delta Program Programmatic EIS, Long-Term Comprehensive Plan to Restore Ecosystem Health and Improve Water Management, San Francisco Bay - Sacramento/San Joaquin River Bay-Delta D,Dsum; Program Goals and Objectives, Dapp1; No Action Alternative,** ,2000 **Railway and Engineering Review** ,1926 Russian Co-operator ,1916 *The Export World and Commercial Intelligence* ,1916 **Official Reports of the Debates of the House of Commons of the Dominion of Canada** Canada.
