criticism and a range of Vidyasagar's original writings in Bengali the book interrogates the role of history memory and controversy and emphasises the key challenge of pinning down the identity of an enigmatic and multi faceted figure By examining lesser known works of Vidyasagar including several pseudonymous and posthumous works alongside the evidence of his public career the author calls attention to the colonial transformation of intellectual and social life the nature of life writing the limits of standard biographies and the problem of modern Indian identity as such Based on decades of research and an original perspective this book will be especially useful to scholars of modern Indian history biographical studies comparative literature and those interested in Bengal

Ambiguous Pleasures Rachel Spronk,2012 Among both male and female young urban professionals in Nairobi sexuality is a key to achieving a modern identity These young men and women see themselves as the avant garde of a new Africa while they also express the recurring worry of how to combine an African identity with the new lifestyles with which they are experimenting By focusing on public debates and their preoccupations with issues of African heritage gerontocratic power relations and conventional morality on the one hand and personal sexual relationships intimacy and self perceptions on the other this study works out the complexities of sexuality and culture in the context of modernity in an African society It moves beyond an investigation of a health or development perspective of sexuality and instead examines desire pleasure and eroticism revealing new insights into the methodology and theory of the study of sexuality within the social sciences Sexuality serves as a prism for analysing how social developments generate new notions of self in postcolonial Kenya and is a crucial component towards understanding the way people recognize and deal with modern changes in their personal lives

Teaching in a Globally-Connected World Ervin F. Sparapani,Pamela L. Ross McClain,2016-07-29 This book examines the current social political economic and religious climate of the world makes projections for the future and then makes suggestions for what the contributors believe educators need to think about in order to adequately prepare young people to successfully navigate that future We live in a globally connected world and young people as they move into the future need to be prepared to live in that future Schools and teachers tend to focus on the present which is okay however schools and teachers must decide what is important to know in the present in order for young people to be successful in the future The responsibility of education today must be to prepare learners to live in an unknown future that is global and not be so focused on an uncertain present
