Canis, 1985. The Alabama-Mississippi shoreline along the Gulf of Mexico boasts some of the world's most beautiful beaches and balmy climates. Ever-increasing numbers of retirees, recreation lovers, and industries with work forces are being attracted to the Sun Belt. On a soft April day, the Gulf's waters look as peaceful as a pond. Yet this same serene shoreline has been ravaged by seven major hurricanes during this century. Several years more than one fearful storm has come hurtling in during a single season. Loss of life and property damage have been devastating. And newcomers seem almost unaware of the potential dangers. The authors of this book offer a vivid historical overview for understanding the environment of the Alabama-Mississippi shore. They describe the risks faced by new residents and they point the way toward safe and sane coastal development. **Flood Proofing Regulations** United States Army Corps of Engineers, 1992 *Coastal Environments* R.
