Booth, 2009-02-09 In this manifesto distinguished critic Wayne Booth claims that communication in every corner of life can be improved if we study rhetoric closely Written by Wayne Booth author of the seminal book *The Rhetoric of Fiction* 1961 Explores the consequences of bad rhetoric in education in politics and in the media Investigates the possibility of reducing harmful conflict by practising a rhetoric that depends on deep listening by both sides *God Ever Greater* Brian O'Leary, 2021-04-01 Among the many strands in Christian spirituality one of the most esteemed bears the name of St Ignatius Loyola In recent years Ignatian spirituality has experienced a resurgence and is attracting interest from across the range of Christian denominations and from every walk of life There has been a widespread desire to learn more about Ignatius and his legacy and many people have made the Spiritual Exercises in one of its many forms and have grown through the experience *God Ever Greater* is written to appeal not only to those who are looking for an introduction to Ignatian spirituality but also to those who have some acquaintance with the Ignatian tradition It will draw its readers into an exploration of a rich Christian heritage that continues to live and breathe today Instruments of the Divinity Christopher van Ginhoven Rey, 2013-10-24 In *Instruments of the Divinity* Christopher van Ginhoven Rey shows that an important reflection on God's providential praxis animates the foundational documents of the Society of Jesus Focusing on Saint Ignatius of Loyola's conception of Jesuits as the instruments of a laboring God the book explores the philosophical and theological roots of the metaphor of the instrument and its place in the social imaginary of the Jesuit order Close readings of the Spiritual Exercises the Jesuit Constitutions and a selection of letters by Ignatius call attention to the existence of a rhetoric of instrumentality that provides the basis for the Society's project of instruction its loving affirmation of the world and its attempts to differentiate itself from its monastic predecessors A Companion to Jesuit Mysticism Robert Aleksander Maryks, 2017-03-06 In *A Companion to Jesuit Mysticism* Robert A Maryks provides thirteen unique essays discussing the Jesuit mystical tradition a somewhat neglected aspect of Jesuit historiography that stretches as far back as the order's co-founder Ignatius of Loyola his spiritual visions at Manresa and ultimately the mystical perspective contained in his Spiritual Exercises The volume's contributions on the most

significant representatives of the Jesuit mystical tradition from Baltasar lvarez to Louis Lallemant to Hugo Makibi Enomiya Lassalle aim to fill this lacuna in Jesuit historiography Although intended primarily as a handbook for scholars seeking to further their own research in this area the volume will undoubtedly be of interest to scholars and students of Jesuit studies more broadly

**Friendship and Hospitality** Dongfeng Xu, 2021-08-01 The Jesuit mission to China more than four hundred years ago has been the subject of sustained scholarly investigation for centuries Focusing on the concepts of friendship and hospitality as they were both theorized and practiced by the Jesuit missionaries and their Confucian hosts this book offers a new comparative and deconstructive reading of the interaction between these two vastly different cultures Dongfeng Xu analyzes how the Jesuits presented their concept of friendship to achieve their evangelical goals and how the Confucians reacted in turn by either displaying or denying hospitality Challenging the hierarchical view in traditional discourse on friendship and hospitality by revealing the irreducible otherness as the condition of possibility of the two concepts Xu argues that one legacy of the Jesuit Confucian

encounter has been the shared recognition that cultural differences are what both motivated and conditioned cross cultural exchanges and understandings

**Renewing Theology** J. Matthew Ashley, 2022-07-15 This comprehensive study investigates the role that Ignatian spirituality has played in the renewal of academic theology using three prominent Jesuits as case studies Over several centuries spirituality has come to define a field of concerns and themes increasingly treated separately from those of academic theology as if the latter had little relation to the former This raises the question for us today How is spirituality related to the practice of theology In *Renewing Theology* J Matthew Ashley provides an answer by turning to Ignatian spirituality and three prominent twentieth century theologians who embraced its spiritual resources Karl Rahner Ignacio Ellacur a and Jorge Mario Bergoglio that is Pope Francis Ashley begins his investigation by considering the historical origins of the widening separation between spirituality and academic theology in the Christian West He provides an initial overview of Ignatian spirituality focusing on the openness and multidimensionality of Ignatius of Loyola s Spiritual Exercises presented here as a text in which the conditions of modernity that defined its author s world are present at least incipiently Ashley then offers three case studies in order to show how each Jesuit Rahner Ellacur a and Pope Francis responded to the challenges of modernity in a way that is uniquely nourished and illuminated by themes constitutive of Ignatian spirituality Their theologies Ashley suggests evince a particular clarity and force when the Ignatian spirituality that animates them is foregrounded Providing new and productive avenues into understanding the theologies of these three individuals this sophisticated and enlightening book will interest scholars and students of systematic theology as well as readers who are interested in the future of theology and spirituality in a fragmented age

**Cognitive Psychology in Early Jesuit**

**Scholasticism** Daniel Heider (Ed.), 2022-09-06 Jesuit scholastic philosophy exemplified by the figure of Francisco Suarez 1548 1617 is at present a topic intensively studied worldwide However especially in the English speaking academic world the immediate historical milieu of Suarez s philosophy and theology constituted especially by the philosophical and theological production of his Jesuit contemporaries is much less taken into account In the field of philosophical cognitive psychology extant especially in the commentaries on Aristotle s *On the Soul* the present publication aims to partially ameliorate this status quo All the chapters in this book to some extent give evidence of the theological motivation and theological horizon of the Jesuit cognitive psychology of the last decades of the 16th century and the first decades of the 17th century

**Mission from the Perspective of the Other** Tim Noble, 2018-08-30 Christian mission involves God the missionary and the other the recipient of mission This book argues for the centrality of this other in the practice of mission The other as child of God is presented not as an empty vessel waiting to be filled but as the one who draws near to the missionary Both are sent by God and together they enter into the journey towards God Drawing on Scripture contemporary missiology and phenomenology the book argues for the importance of this often neglected other and demonstrates through historical case studies involving Saint Ignatius of Loyola William Carey and Saint Innocent of Alaska that the recognition of the gift of the other has always

been present in Christian mission and can continue to inspire      *The Renaissance Bible* Debora K. Shuger, 1998 The book explores among other topics the links between late medieval Christology and early modern subjectivity religious eroticism and the origins of the sexualized body the interweavings of jurisprudence colonial discourse and the theology of the Atonement the transformation of humanist philology into comparative religion and the representation of daughter sacrifice and female erotic desire      The Mirror of Herodotus François Hartog, 2009-07 The best book to come out on Herodotus in years G E R Lloyd King s College Cambridge      Nicholas of Cusa and Islam Ian Christopher Levy, Rita George-Tvrtković, Donald Duclow, 2014-06-26 To explore Christian Muslim relations at the dawn of the modern age this book examines Nicholas of Cusa s seminal works on the Qur an and world religions It also considers Muslim responses to Christianity and other Christian writings on Islam      **Rhetoric and Human Consciousness** Craig R. Smith, 2017-04-12 For two decades students and instructors have relied on award winning author Craig Smith s detailed description and analysis of rhetorical theories and the historical contexts for major thinkers who advanced them He employs key themes from important philosophical schools in this well researched chronicle of rhetoric and human consciousness One is that rhetoric is a response to uncertainty The modern philosophers like the naturalists of ancient Greece and the Scholastics who preceded them tried to end uncertainty by combining the discoveries of science and psychology with rationalism Their aim was progress and a consensus among experts as to what truth is However where modernism proved ineffective rhetoric was revived to fill the breach Another significant theme is that different conceptions of human consciousness lead to different theories of rhetoric and for every major school of thought another school of thought forms in reaction Classic and contemporary examples demonstrate the usefulness of rhetorical theory especially its ability to inform and guide By providing probes for rhetorical criticism discussions also demonstrate that rhetorical criticism illustrates verifies and refines rhetorical theory Thus the synergistic relationship between theory and criticism in rhetoric is no different than in other arts Theory informs practice analysis of successful practice refines theory Smith s absorbing study has been expanded to include thorough treatments of rhetoric in the Romantic Era feminist and queer theory and historical context for the creation of rhetorical theory and its use in public address      **A New Companion to Hispanic Mysticism** , 2010-06-15 Winner of the 2011 SCSC Bainton Prize for Reference Works The canon of Hispanic mysticism is expanding No longer is our picture of this special brand of early modern devotional practice limited to a handful of venerable saints Instead we recognize a wide range of marginal figures as practitioners of mysticism broadly defined Neither do we limit the study of mysticism necessarily to the Christian religion nor even to the realm of literature Representations of mysticism are also found in the visual plastic and musical arts The terminology and theoretical framework of mysticism permeate early modern Hispanic cultures Paradoxically by taking a more inclusive approach to studying mysticism in its marginal manifestations we draw mysticism in all its complex iterations back toward its rightful place at the center of early modern spiritual experience Contributors Colin

important characteristic of religious renewal and of the dialogue between churches and religious believers In the Roman  
Catholic Church conversion has played a significant role in ecumenical dialogue recently It has become a challenge for the  
Church as a whole instead of a call to individual believers alone The contributors of this volume explore the different aspects  
of conversion in the history of theology in the developments during and after the Second Vatican Council in the Ignatian  
tradition and in several ecclesial groups that have explored the opportunities of the ongoing renewal of the churches

for the Sacred Philip Sheldrake brilliantly reveals the connection between our rootedness in the places we inhabit and the  
construction of our personal and religious identities Based on the prestigious Hulsean Lectures he delivered at the University  
of Cambridge Sheldrake s book examines the sacred narratives which derive from both overtly religious sites such as  
cathedrals and secular ones like the Millennium Dome and it suggests how Christian theological and spiritual traditions may  
contribute creatively to current debates about place
