**A Democratic Theory of Truth** Linda M. G. Zerilli,2025-04-25 A critique of the concept of truth presupposed by the

post truth debate and a bold new vision for a more pluralistic citizenry We say that we live in a post truth era because disinformation threatens our confidence in the existence of a shared public world Affirming objective truth may therefore seem necessary to save democracy According to political theorist Linda M G Zerilli such affirmation can stifle political debate and silence dissent In fact Zerilli argues that the unqualified insistence on objective truth is as dangerous for democracy as denying it Drawing on Arendt Foucault and Wittgenstein *A Democratic Theory of Truth* challenges the concept of truth presupposed by the post truth debate It argues that we the people have an essential role in discovering and evaluating any truth relevant to the political realm The result is a striking defense of plurality dissent and opinion in contemporary democratic societies
