constellated practices This book proposes their oeuvre as heterogeneous critical models to unpack categories of thought used to analyse the postwar decades Tabula Rasa Anti Art Open Work and self Marginalisation and Freedom These in turn are charged with specific histories and offer new paradigms for the formal and social inventions perpetuated by the art of Manzoni Oiticica and fellow artists in the context of the d tournaments that crossed the 1960s on a global scale This book will be of interest to scholars working in art history modernism and post modernism Italian studies and Brazilian studies
