Me In The Universe:

One Nurse Universe Susan Turnage, 2019-08-16 My occupational memoir reveals one nurse's bedside observations on where nurses come from how we are educated treated in the workplace and how we learn to do what can never be taught in a curriculum When a patient vomits explosively onto your chest how you may unexpectedly vomit right back How to explain to a deaf patient where a suppository goes while an audience of staff and visitors listen in from the hallway How to collect your thoughts and make a plan when you arrive for a home care visit to find your elderly confused patient has ingested a full bottle of liquid laxative and left evidence of those results all over the walls floor and Barco lounge in the home It is where medical science meets nursing artistry Where technology meets humanity Where hearts open and wounds heal Through selected vignettes I recognize modern nurses' courage to lean into discomfort and hard emotions I acknowledge the power they hold in their healing hands and throw forward a lifeline of hope to renew their faith and joy in their vocation And to my many non nurse readers come experience a nurse's day what we see feel hear and touch Have a peek behind the bedside curtain
