Dewey's Columbia University classes in 1913-1916 through his final years in the 1950s in India when he rewrote the story of Buddhism. Stroud examines pragmatism's influence not only on the philosophical ideas underpinning Ambedkar's fight against caste oppression but also how his persuasive techniques drew on pragmatism's commitment to reconstruction and meliorism. At the same time, Stroud is careful to point out the ways that Ambedkar pushed back against Dewey's paradigm and developed his own approach to challenges in India. The result is a nuanced study of one of the most important figures in Indian history.

Religious Freedom and Mass Conversion in India Laura Dudley Jenkins, 2019-04-11. Hinduism is the largest religion in India, encompassing roughly 80 percent of the population, while 14 percent of the population practices Islam, and the remaining 6 percent adheres to other religions. The right to freely profess, practice, and propagate religion in India's constitution is one of the most comprehensive articulations of the right to religious freedom. Yet from the late colonial era to the present, mass conversions to minority religions have inflamed majority-minority relations in India and complicated the exercise of this right. In *Religious Freedom and Mass Conversion in India*, Laura Dudley Jenkins examines three mass conversion movements in India: among Christians in the 1930s, Dalit Buddhists in the 1950s, and Mizo Jews in the 2000s. Critics of these movements claimed mass converts were victims of overzealous proselytizers promising material benefits, but defenders insisted the converts were individuals choosing to convert for spiritual reasons. Jenkins traces the origins of these opposing arguments to the 1930s and 1940s, when emerging human rights frameworks and early social scientific studies of religion posited an ideal convert: an individual making a purely spiritual choice. However, she observes that India's mass conversions did not adhere to this model and therefore sparked scrutiny of mass converts' individual agency and spiritual sincerity. Jenkins demonstrates that the preoccupation with converts' agency and sincerity has resulted in significant challenges to religious freedom. One is the proliferation of legislation limiting induced conversions. Another is the restriction of affirmative action rights of low-caste people who choose to practice Islam or Christianity. Last, incendiary rumors are intentionally spread of women being converted to Islam via seduction. *Religious Freedom and Mass Conversion in India* illuminates the ways in which these tactics immobilize potential converts, reinforce damaging assumptions about women, lower castes, and religious minorities, and continue to restrict religious freedom in India today.

Religious Conversion Christopher Lamb, M. Darroll

Bryant,1999-10-01 Conversion has been an important issue for most of the universal religions those usually associated with a founder such as Christianity Buddhism Islam and Judaism which have a mission to spread their message Other religions have been less concerned with conversion except in so far as it has been a negative force for them to confront This study explores how conversion has been understood by different religions during different eras and includes a survey of the textual legal ritual historic and experiential dimensions of the phenomenon of conversion *Conversion in Late Antiquity: Christianity, Islam, and Beyond* Arietta Papaconstantinou,Daniel L. Schwartz,2016-03-03 The papers in this volume were presented at a Mellon Sawyer Seminar held at the University of Oxford in 2009 2010 which sought to investigate side by side the two important movements of conversion that frame late antiquity to Christianity at its start and to Islam at the other end Challenging the opposition between the two stereotypes of Islamic conversion as an intrinsically violent process and Christian conversion as a fundamentally spiritual one the papers seek to isolate the behaviours and circumstances that made conversion both such a common and such a contested phenomenon The spread of Buddhism in Asia in broadly the same period serves as an external comparator that was not caught in the net of the Abrahamic religions The volume is organised around several themes reflecting the concerns of the initial project with the articulation between norm and practice the role of authorities and institutions and the social and individual fluidity on the ground Debates discussions and the expression of norms and principles about conversion conversion are not rare in societies experiencing religious change and the first section of the book examines some of the main issues brought up by surviving sources This is followed by three sections examining different aspects of how those principles were or were not put into practice how conversion was handled by the state how it was continuously redefined by individual ambivalence and cultural fluidity and how it was enshrined through different forms of institutionalization Finally a topographical coda examines the effects of religious change on the iconic holy city of Jerusalem Basic Buddhist Meditation Practice Piyasilo,Piya Tan,1984 **Legally Combating Atrocities on Scheduled Castes and Scheduled Tribes** T.
