*Assessment in Education* Shelleyann Scott, Donald E. Scott, Charles F. Webber, 2015-10-20 This book provides key insights into how educational leaders can successfully navigate the turbulence of political debate surrounding leading student assessment and professionalised practice Given the highly politicised nature of assessment it addresses leaders and aspiring leaders who are open to being challenged willing to explore controversy and capable of engaging in informed critical discourse The book presents the macro concepts that these audiences must have to guide optimal assessment policy and practice Collectively the chapters highlight important assessment purposes and models including intended and unintended effects of assessment in a globalised context The book provides opportunities to explore cultural similarities and

particularities It invites readers to challenge taken for granted assumptions about ourselves and colleagues in other settings The chapters highlight the cultural clashes that may occur when cross cultural borrowing of assessment strategies policies and tools takes place However authors also encourage sophisticated critical analyses of potential lessons that may be drawn from other contexts and systems Readers will encounter challenges from authors to deconstruct their assessment values beliefs and preconceptions Indeed one purpose of the book is to destabilise certainties about assessment that prevail and to embrace the assessment possibilities that can emerge from cognitive dissonance Leading Student Assessment Charles F. Webber, Judy L. Lupart, 2011-09-18 This book presents a new and refreshing look at student assessment from the perspective of leading educational theorists researchers and practitioners The authors call for boundary breaking assessment that reflects clear understandings of the purposes of assessment a balance of assessment creativity and realism the ability to detect solutions for assessment challenges and the capacity to question and imagine assessment alternatives The 14 chapters offer school and district educators policy makers researchers and university teacher preparation faculty with a comprehensive current overview of the state and art of student assessment Key questions are posed about assessment and critical challenges are presented along with sound evidence based solutions Student assessment is analyzed in terms of its relationship with classroom instructional practices and large scale testing programs Formative and summative assessments are compared and contrasted The role of psychological assessment in informing classroom practices is profiled along with the need for student voice in fair assessment practices Readers will be challenged to consider the ecology of student assessment that is the impact of assessment in classrooms and schools through to the macro level of globalized societies The underpinning values and assumptions of student assessment are highlighted Finally a rationale is offered for reconceptualizing and redefining assessment
