### **A. Background of Study**

The ability of learning a foreign language (i.e. English) means learning the four skills such as listening, speaking, reading and writing. The skills are intimately related to each other, though one is a recognition skill and the others are production skills. Among the four language skills are writing skill included in productive skills. In this skill, the student's writing product becomes a final target of the learning process. Hence, writing has been taught by the learners or students on the High School level. In the context of teaching English at High School level, writing skill is absolutely necessary considering one of the goals in learning English. The goal is to develop the competence of communicating in the form either oral or written and the student's ability in writing.

In this study, the researchers will employ the qualitative method to conduct the research on the High School's students in the tenth grade. In order to gather data related to the research goal, the researchers use questionnaire to analyse the overview of writing
