The Tragic Middle Richard E. Goodkin, 1991 This is an extraordinary book brilliantly conceived and beautifully written Its approach to the well worn subject of tragic drama is quite fresh While Goodkin draws on the best of traditional scholarship in philosophy classical philology and literary criticism he argues with an intellectual style that is entirely his own Every reader will be stimulated in his own particular way so great is the range and power of this book to extend the book's argument toward or from his own area of interest William Levitan Princeton University

Families Without Fathers David Popenoe, 2011-12-31 The American family is changing Divorce single parents and stepfamilies are redefining the ways we live together and raise our children Many experts feel these seemingly inevitable changes should be celebrated they claim that the new families which often lack a strong father are actually healthier than traditional two parent families or at the very least do children no harm But as David Popenoe shows in *Families Without Fathers* this optimistic view is severely misguided Examining evidence from social and behavioral science history and evolutionary biology Popenoe shows why fathers today are deserting their families in record numbers The disintegration of the child centered two parent family especially in the inner cities where as many as two in three children are growing up without their fathers and the

weakening commitment of fathers to their children that more and more follows divorce are central causes of many of our worst individual and social problems Juvenile delinquency drug and alcohol abuse teenage pregnancy welfare dependency and child poverty can be directly traced to fathers lack of involvement in their children s lives Our situation will only get worse Popenoe warns unless men are willing to renew their commitment to their marriages and to their children Yet he is not just an alarmist He suggests concrete policies and new ways of thinking and acting that will help all fathers improve their marriages and family lives and tells us what we as individuals and as a society can do to support and strengthen the most important thing a man can do
