Studwell, 2020-11-25 First Published in 1990 Information about individual operas and other types of musical theater is scattered throughout the enormous literature of music This book is an effort to bring that data together by comprehensively indexing plots and descriptions of individual operatic background criticism and analysis musical themes and bibliographical references The principal audience for this general reference guide will be for the non specialist but its hoped that persons specialising in opera would also find it useful

Opera for Libraries Clyde T. McCants, 2003-03-14 Opera is a unique expression of the human mind and spirit a play that communicates plot characterization and story almost

entirely through music Unfortunately because of restraints of time location and income few people have the opportunity to see operas performed on a regular basis Public libraries are an easily accessible alternative for gaining operatic knowledge and exposure offering the public a chance to hear see and develop an appreciation of opera This work is a two part guide for libraries that want to assemble a comprehensive collection of operatic materials Part I is a list of recommended operas ranging over four hundred years of operatic history and including a variety of different styles and languages The goal of Part I is to provide recommendations for a comprehensive library collection of video and sound operatic recordings Part II suggests books periodicals and online resources that could be an integral and important part of a library's opera collection This section also discusses the care and maintenance of sound and video recordings offers suggestions for locating hard to find operatic material and explores the library's role in sparking patron interest in opera

Phantasmagoria David T Evans, 2018-11-09 First published in 1999 this original and entertaining sociological study takes a comprehensive and critical view of opera as unique cultural artefact as loss making industry as institution with a museum culture and as consumed commodity of rare distinction and elaborate ritual Specific chapters deal with opera within the contexts of musicological analysis auratic art and fetishized taste opera as business and as museum singers opera producers opera and audiences opera There is also a chapter on opera popular commercialised fragments of opera outside the opera house consumed by and through all manner of reproduced means CD video Three Tenors concerts film and TV soundtracks advertising jingles etc Despite the supposed popularisation and successful commercial exploitation of opera during the past decade or so this study concludes that opera remains an art form institution and ritual of relative inaccessibility and exclusiveness The commercial interest in and profitability of opera do not translate into new popular audiences in the opera house The increased dependency of opera companies on corporate funding in the face of retreating government subsidies may have brought a new elite audience into the expensive seats pandered to by the introduction of surtitles etc but the traditional elite has succeeded in closing down entry to opera in other select venues where opera continues to confirm and maintain their select identity and prestige of their life style

The Marriage between Perfume and the Lyric Stage Mary May Robertson, 2023-09-22 But what is this scent of balmy air What this ray of light in my tomb I seem to see an angel amid a scent of roses sings Florestan in Fidelio Beethoven's only opera The role of scents smells fragrances and odours in opera has long been neglected just as how much opera and its stars have influenced the world of perfumery from the nineteenth century to the present day In the first book length study on the topic Professor Mary May Robertson explores the relationship between opera perfumes and their respective protagonists in order to map out the previously undiscussed connection between the two Through compelling close readings of librettos and rigorous research through thousands of bottles of perfume the reader will come to appreciate and recognise the influences and exchanges between operas and perfumes and their ultimate marriage in the previously unrecognised genre of Operatic Perfumes which is to say perfumes named after operas composers and their divas
