New Kind Of History From The Writings Of Lucien Fe:

A New Kind of History and Other Essays Lucien Febvre, 1973 Emotions in International Politics Yohan Ariffin, Jean-Marc Coicaud, Vesselin Popovski, 2016-01-11 In recent years social scientists have increasingly recognized the interconnectedness of thought on emotions. Nowhere is the role of passions more evident than in international politics where pride, anger, guilt, fear, empathy, and other feelings are routinely on display. But in the absence of an overarching theory of emotions, how can we understand their role at the international level? *Emotions in International Politics* fills the need for theoretical tools in the new and rapidly growing subfield of international relations. Eminent scholars from a range of disciplines consider how emotions can be investigated from an international perspective involving collective players drawing evidence from such emotionally fraught events as the Rwandan genocide, World War II, the 9/11 attacks, and the Iranian nuclear standoff. The path-breaking research collected in *Emotions in International Politics* will be a valuable theoretical guide to understanding conflict and cooperation in international relations.

Adrift on an Inland Sea Hal Langfur, 2023-01-03 From 1750 until Brazil won its independence in 1822, the Portuguese crown sought to extend imperial control over the colony's immense sea-like interior and exploit its gold and diamond deposits using enslaved labor. Carrying orders from Lisbon into the Brazilian backlands, elite vassals, soldiers, and scientific experts charged with exploring multiple frontier zones and establishing royal authority conducted themselves in ways that proved difficult for the crown to regulate. The overland expeditions they mounted in turn encountered actors operating beyond the state's purview: seminomadic Native peoples, runaway slaves, itinerant poor, and those deemed criminals who eluded, defied, and reshaped imperial ambitions. This book measures Portugal's transatlantic projection of power against a particular obstacle: imperial information gathering, which produced a confusion of rumors, distortions, claims, conflicting reports, and disputed facts. Drawing on interdisciplinary scholarship in the fields of ethnohistory, slavery, and diaspora studies, and legal and literary history, Hal Langfur considers how misinformation destabilized European sovereignty in the Americas, making a major contribution to histories of empire, frontiers, and borderlands knowledge production and scientific exploration in the eighteenth and nineteenth centuries.

Emotions and Mass Atrocity Thomas Brudholm, Johannes Lang, 2018-03-22 A nuanced range of interdisciplinary perspectives on the role of emotions in moral and political reactions to mass violence.

The Penitente Brotherhood Michael P. Carroll, 2002-11-15 As a result, Carroll concludes, Penitente membership facilitated the rise of the modern in New Mexico and, however unintentionally, made it that much easier after the territory's annexation by the United States for the Anglo legal system to dispossess Hispanos of their land.
