The papers in this section on the legal aspects of nursing can be divided into two parts a the rights and responsibilities of nurses patients and the medical system and b treatment with its legal ramifications

How does one decide whether patients rights or the health professional s rights are to be considered more seriously

Is there an absolute right or wrong

Since legal rights are sanctioned by constantly changing social and political climates this may in effect diminish the possibility of anything absolute

The question of the equivalency of legal and moral rights is also addressed

Due to the prevalent vagueness with regard to bioethical issues as they affect human and legal rights often we become absorbed in philosophical polemics without being able to arrive at anyone answer

In order to move beyond the ethical theoretical formulations there is daily confrontation in the nursing profession the practical application of theoretics

Essentials of Nursing Law and Ethics Susan J. Westrick, Katherine McCormack Dempsey, 2008-11-20

Professional Ethics in Nursing Joyce Beebe Thompson, 1990
