## **Pioneers In Bibliography:**

Pioneers in Bibliography Robin Myers, Michael Ronald Anthony Harris, 1988      **Pioneers in Bibliography** Robin Myers, Michael Harris, 1988      **The Interplanetary Pioneers** William R. Corliss, 1972      *Aspects of Book Culture in Early Modern England* T.A. Birrell, edited by Jos Blom, 2024-08-01 Thomas Anthony Birrell 1924-2011 was a man of many parts. For most of his working life he was Professor of English Literature in the University of Nijmegen, The Netherlands, where he was famous for his lively, humorous and thought-provoking lectures. He was the author of some very popular literary surveys in Dutch, one of which, a history of English literature, has had seven editions so far. However, first and foremost, he was a bibliographer and a book historian. The present collection contains fifteen of his book historical articles, two reviews, and one published version of a lecture for the illustrious Association Internationale de Bibliophilie. The lecture, with a wealth of illustrations about the British Library as the Custodian of the Unique, gives one a sense of Birrell's ability to present an audience with a complicated topic in comprehensible but not simplified terms. The reviews serve as a statement of principle of how to tackle the subject of English readers and books and the standards that ought to apply. The articles demonstrate Tom Birrell's in-depth knowledge, dedication, and scholarship. He once said that he felt that he could have talked to the 17th-century London booksellers on an equal footing, and his work convinces one that they would have enjoyed these conversations. *Aspects of Book Culture* was edited by Birrell's former pupil, colleague, friend, and fellow bibliographer Jos Blom.

**Pioneers of Early Childhood Education** Barbara Peltzman, 1998-01-26 Early childhood education is fundamental to a child's later educational achievements and future success. The principles and practices of modern early childhood education have their origins in the past. While the educators who built the field have been the subject of many detailed studies, previous works do not provide adequate coverage of primary and secondary sources. Multicultural educators or more recent leaders in the discipline. This reference book provides biographies and annotated bibliographies of more than 30 pioneers in early childhood education from Johann Amos Comenius (1592-1670) and John Locke (1632-1704) to Maria Montessori (1870-1952), Leland B. Jacobs (1907-1992), and Lillian Weber (1917-1994). Special attention is given to multicultural educators including Mary Church Terrell (1863-1954) and her work with The National Association of Colored Women. Biographies are arranged alphabetically, and each is followed by annotated bibliographies of primary and secondary sources. An introductory essay briefly discusses the history of early childhood education from the 17th century to the present. The following biographies are arranged alphabetically, and each includes a brief summary of the subject's contributions to the field of early childhood education. Each biographical sketch is followed by an annotated bibliography of primary and secondary sources, including obituaries, articles, dissertations, and books. Works were selected because they represent the most interesting and informative sources by and about the educators. The volume closes with a chronological listing of the pioneers and a selected bibliography of general works on early childhood education.
