With an Introd. and Glossary by Janet and Brian Pullan** Alberto Tenenti, 1967      **Piracy and the decline of Venice, 1580-1615. Translated with an introduction and glossary, by Janet and Brian Pullan** Alberto Tenenti, Brian Sebastian PULLAN, Janet PULLAN, 1967      *The Mediterranean in History* David Abulafia, 2003 What is the Mediterranean Physical setting Trading empires Sea routes Mare Nostrum Christian Mediterranean Resurgent Islam Battleground of the European powers Globalized Mediterranean      **Bandits at Sea** C.R. Pennell, 2001 The romantic fiction of pirates as swashbuckling marauders terrorizing the high seas has long eclipsed historical fact Bandits at Sea offers a long overdue corrective to the mythology and the mystique which has plagued the study of pirates and served to deny them their rightful legitimacy as subjects of investigation      *The Making of the Modern Mediterranean*, 2019-07-09 Studies of the pivotal historic place of the Mediterranean have long been dominated by specialists of its northern shores that is by European historians The seven leading authors in this groundbreaking volume challenge views of Mediterranean space as shaped by European trajectories and in doing so they challenge our comfortable notions Drawing perspectives from the Mediterranean's eastern and southern shores they ask anew What is the Mediterranean What are its borders its defining characteristics What forces of nature politics culture or economics have made the Mediterranean and how long have they or will they endure Covering the sixteenth century to the twentieth this timely volume brings the early modern world into conversation with the modern world in new ways demonstrating that only recently can we differentiate the north and south into separate cultural and political zones The Making of the Modern Mediterranean Views from the South offers a blueprint for a new generation of readers to rethink the world we thought we knew      **The Business of War** David Parrott, 2012-03-08 This book offers a substantial reconsideration of early modern warfare and its relationship to the power of the state      *War and Society in Habsburg Spain* I.A.A. Thompson, 2024-10-28 The historical study of war in the Spain of Philip II forms the starting point for the articles in this volume They approach this not so much from a military angle but as a problem of organization procurement and finance In a sense the articles represent an assessment of the effectiveness of the Spanish government and so given the apparent precocity of government growth in 16th century Spain they can also be seen as a critical commentary on the operational capabilities of the early modern absolutist state Six of the essays here focus on the Spanish Armada in terms of its political and military objectives but demonstrating how these were conditioned by basic systems limitations not least in the procurement of suitable cannon In the final articles Dr Thompson turns to the impact of war and its financing on the social structure bearing in particular on the definition of nobility and its sale and on local democracy and making full use here as elsewhere of the relatively unexplored local sources Two of the papers here appear for the first time in English whilst a third has been newly prepared for this volume L'histoire de la guerre sous Philippe II roi d'Espagne est la base des articles

contenus dans le présent recueil Ceci est abordé non tant sous l'angle militaire mais comme un problème d'organisation d'acquisition de matériel et de financement En un certain sens ces documents représentent une évaluation de l'efficacité du gouvernement espagnol et peuvent par conséquent donner l'apparence paradoxale de la croissance gouvernementale en Espagne au 16<sup>si</sup> siècle tre considérés comme un commentaire critique quant aux capacités opérationnelles de l'Etat absolu proto moderne Une demi douzaine des essais font l'examen de l'Armada espagnole en termes d'objectifs politiques et militaires tout en démontrant comment ces derniers étaient conditionnés par des contraintes structurelles

**Plague and Empire in the Early Modern Mediterranean World** Nükhet Varlik, 2015-07-22 This is the first systematic scholarly study of the Ottoman experience of plague during the Black Death pandemic and the centuries that followed Using a wealth of archival and narrative sources including medical treatises hagiographies and travelers accounts as well as recent scientific research Nükhet Varlik demonstrates how plague interacted with the environmental social and political structures of the Ottoman Empire from the late medieval through the early modern era The book argues that the empire's growth transformed the epidemiological patterns of plague by bringing diverse ecological zones into interaction and by intensifying the mobilities of exchange among both human and non human agents Varlik maintains that persistent plagues elicited new forms of cultural imagination and expression as well as a new body of knowledge about the disease In turn this new consciousness sharpened the Ottoman administrative response to the plague while contributing to the makings of an early modern state
