**The Piri Reis Map of 1513** Gregory C. McIntosh, 2000 One of the most beautiful maps to survive the Great Age of Discoveries the 1513 world map drawn by Ottoman admiral Piri Reis is also one of the most mysterious Gregory McIntosh has uncovered new evidence in the map that shows it to be among the most important ever made This detailed study offers new commentary and explication of a major milestone in cartography Correcting earlier work of Paul Kahle and pointing out the traps that have caught subsequent scholars McIntosh disproves the dubious conclusion that the Reis map embodied Columbus's Third Voyage map of 1498 showing that it draws instead on the Second Voyage of 1493 1496 He also refutes the popular misinterpretation that Reis's depictions of Antarctica are evidence of either ancient civilizations or extraterrestrial visitation McIntosh brings together all that has been previously known about the map and also assembles for the first time the translations of all inscriptions on the map and analyzes all place names given for New World and Atlantic islands His work clarifies long standing mysteries and opens up new ways of looking at the history of exploration **The Piri Reis Map**

**of 1513**, 1962 **The Piri Reis Map of 1513** Charles H. Hapgood, 1962 **The Piri Reis Map of 1513** Charles H. Hapgood, Keene State College, 1962 **The Piri Reis Map of 1513** Charles H. Hapgood, 1962 The Genesis Column W. Joseph Stallings, 2018-08-08 It is the assertion of Old Earth Creationism that God created the Earth and then made it into an inhabitable environment over the course of a week of epoch long creation days It is the assertion of modern science that the Earth is 4.6 billion years old and has reached such an age by passing through a number of geologic periods that are differentiated by stratigraphic paleontological and other empirical markers Therefore it seems very logical that if one holds to the veracity of these two basic assertions then the long creation days of Genesis and the geologic ages of modern science can and should be effectively correlated with one another in some cohesive and systematic manner Here we offer our origins correlation model The Genesis Column which does just that **The History and Future of Narragansett Bay** Capers Jones, 2006 The book covers 10 000 years of the history of Narragansett Bay Topics include the geology of the Bay paleo Indians pre Colombian exploration Indian Tribes living near the Bay and the economic history and future of the Bay region

Gregory McIntosh, 1992 **Alpha to Omega** Matthew Petti, 2012 Petti's unprecedented perspective will forever challenge the way people think about God human origins ancient mysteries and Revelation's foretold perils and deceptive abuse of mistaken beliefs The Encyclopedia of Out of Place Artifacts Martin K. Ettington, 2022-07-21 Out of Place Artifacts is a fascinating subject There are too many of these unusual objects for them to be fakes I've already written several books on this subject including *Strange Objects Which Should Not Exist* *More Out of Place Objects* and *A 300 Million Year Old Civilization Existed on Earth* In this book I've compiled everything I could find out about these unusual finds from my prior three books and additional research 54 artifacts are covered in detail I've included all of this information except that specifically related to Aliens and UFOs since that information is in my books on those topics The information here is presented in five parts Part A Artifacts Found in Historical Times Part B Very Ancient Objects to Millions of Years Old Part C A Civilization 300 Million Years Ago Part D Human Footprints in Rock Part E Artifacts of Undetermined Ages I hope you find all of this information as interesting as I do since it changes our understanding of the history of our planet in incredible ways

reason David Hatcher Childress author of Technology of the Gods The Ancient Alien Question reveals an array of astonishing truths including A radically different understanding of the pyramids and how they were constructed The extraordinary stories behind monuments such as the Nazca lines and Puma Punku How extraterrestrials came to our planet and the evidence that supports this Analyzing the historical and archaeological evidence Philip Coppens demonstrates that there is substantial proof that our ancestors were far more technologically advanced than currently accepted and that certain cultures interacted with nonhuman intelligences Our ancestors were clearly not alone Fifty years after Erich von D niken posed these questions in Chariots of the Gods Coppens provides clear concise answers to the great historical enigmas in an accessible readable format Your view of human history will never be the same again **The Gilligan Principle (The Problem with**

**Darwinism)** Steve Lee,2013-08-08 Though Darwinists often portray evolution as a foregone conclusion an honest review of the facts proves this devotion to be based largely on ideology rather than on science Highly critical of both the way in which Darwinism has been promoted over the years as well as the glaring lack of scientific scrutiny applied to this subject The Gilligan Principle highlights a wide range of problems undermining this profoundly inadequate explanation for life Blending scientific analysis with social commentary The Gilligan Principle goes beyond the technical flaws of Darwinism highlighting the devastating effect this survival of the fittest mindset is having on society Drawing upon clinical evidence and a wide range of glaring examples ripped straight from today s headlines that demonstrate the exploding me first dysfunction now destroying our societies The Gilligan Principle warns this trend now threaten to push our world to a very dark end as it has in so many great nations of the past **Ancient Aliens** Philip Coppens,2014-12-15 Ancient civilizations generated many

innovations that are difficult to explain such as the remarkable mathematical accuracy of the pyramids of Giza the man made fertile soil of the Amazon known as terra preta and massive stone monuments too heavy to move in Peru and Lebanon among other places Given that modern science cannot explain these mysterious phenomena one theory holds that ancient aliens were responsible for them This volume examines the credibility of various paranormal hypotheses giving readers the opportunity to explore the greatest puzzles of antiquity **God's Shadow: Sultan Selim, His Ottoman Empire, and the**

**Making of the Modern World** Alan Mikhail,2020-08-18 An arresting New York Times Book Review revisionist history demonstrating how Islam and the Ottoman Empire made our modern world The history of the Ottoman Empire once the most powerful state on earth ruling over more territory and people than any other world power has for centuries been distorted misrepresented and suppressed in the West With this original and wide ranging Wall Street Journal global history Alan Mikhail vitally recasts the Ottoman conquest of the world through the dramatic biography of Sultan Selim I 1470 1520 Drawing on previously unexamined sources and upending prevailing shibboleths about Islamic history and jingoistic rise of the West theories Mikhail s game changing account radically transforms our understanding of the importance of Selim s Ottoman Empire in the annals of the modern world **The code of hathor deciphered** Kris Van den Driessche,2020-12-31

How can we understand our past But more than that how is our past useful for understanding our present You can find geological information archaeological finds or fossils but the further back in time the more difficult it is to find them and this is where ancient legends and traditions come into play but the more ancient they are the less understandable Kris Van den Driessche takes us on a voyage of analysis and discovery exploring myths and religious beliefs in conjunction with archaeological finds He helps us rediscover the most ancient legends starting with those in which the planets stars constellations the Sun and the Moon were worshipped and then analysing the mechanism of the one almighty god and the precession movement considered the most sacred and holy knowledge worshipped all over the world In this book the author leads us to the discovery of our deepest and most hidden past providing explanations for some of the most striking events and giving an answer to how the Earth turned upside down but leaving us with a big dilemma regarding our future Kris Van den Driessche was born in Aalst Belgium in 1968 He studied economics at the University of Brussels In 1998 he moved to Italy where he is now the CEO of his own company Since he was 15 together with his brother he has been deeply interested in everything that is science or is beyond science in other words anomalies that cannot be explained by science So since then he has studied and investigated in order to find explanations on topics such as our distant and dark history strange natural phenomena extraterrestrial connections biological evolution the basic axioms of physics mathematics and astronomy and everything that cannot be explained This led him to realise that some of the explanations given by official political and scientific representatives in our society are far from correct and sometimes even ridiculous often based on obsolete ideas narrow thinking the fear of stepping outside our institutional beliefs or the abuse of religious economic political or academic power In this way because of the orbit of our solar system and based on thousands of different pieces of evidence he discovered the shocking truth about a physical reversal of the Earth every 12 888 years which caused the biblical flood and which will soon strike again

**The Secret World** Christopher M. Andrew, 2018-01-01 The first ever detailed comprehensive history of intelligence from Moses and Sun Tzu to the present day The history of espionage is far older than any of today's intelligence agencies yet the long history of intelligence operations has been largely forgotten The codebreakers at Bletchley Park the most successful World War II intelligence agency were completely unaware that their predecessors in earlier moments of national crisis had broken the codes of Napoleon during the Napoleonic wars and those of Spain before the Spanish Armada Those who do not understand past mistakes are likely to repeat them Intelligence is a prime example At the outbreak of World War I the grasp of intelligence shown by U S President Woodrow Wilson and British Prime Minister Herbert Asquith was not in the same class as that of George Washington during the Revolutionary War and leading eighteenth century British statesmen In this book the first global history of espionage ever written distinguished historian Christopher Andrew recovers much of the lost intelligence history of the past three millennia and shows us its relevance
