Progressive Punishment Judah Schept, 2015-12-04 The growth of mass incarceration in the United States eludes neat categorization as a product of the political Right Liberals played important roles in both laying the foundation for and then participating in the conservative tough on crime movement that is largely credited with the rise of the prison state But can progressive politics with their benevolent intentions nevertheless contribute to the expansion of mass incarceration In *Progressive Punishment* Judah Schept offers an ethnographic examination into that liberal discourses about therapeutic justice and rehabilitation can uphold the logic practices and institutions that comprise the carceral state Schept examines how political leaders on the Left despite being critical of mass incarceration advocated for a justice campus that would have dramatically expanded the local criminal justice system At the root of this proposal Schept argues is a confluence of neoliberal style changes in the community that naturalized prison expansion as political common sense for a community negotiating deindustrialization urban decline and the devolution of social welfare While the proposal gained momentum local activists worked to disrupt the logic of expansion and instead offer alternatives to reduce community reliance on incarceration A well researched and well narrated study *Progressive Punishment* provides an important and novel perspective on the relationship between liberal politics neoliberalism and mass incarceration from back cover

The New True Crime Diana Rickard, 2023-09-05 How serialized crime shows

became an American obsession TV shows and podcasts like Making a Murderer Serial and Atlanta Monster have taken the cultural zeitgeist by storm and contributed to the release of wrongly imprisoned people such as Adnan Syed The popularity of these long form true crime docuseries has sparked greater attention to issues of inequality power social class and structural racism More and more the American public is asking Who is and is not deserving of punishment and who is and is not protected by the law In The New True Crime Diana Rickard argues that these new true crime series deserve our attention for what they reveal about our societal understanding of crime and punishment and for the new light they shine on the inequalities of the criminal justice system Questioning the finality of verdicts framing facts as in the eye of the beholder these new series unmoor our faith in what is knowable even as Rickard critically notes they often blur the lines between fact and fiction With a focus on some of the most popular true crime podcasts and streaming series of the last decade Rickard provides an in depth analysis of the ways in which this new media which allows for binge listening or watching makes crime into a public spectacle and conveys ideological messages about punishment to its audience Entertainment values have always been entwined with crime news reporting Newsworthy stories Rickard reminds us need to involve sex violence or a famous person and contain events that can be framed in terms of individualism and conservative ideologies about crime Even as these old tropes of innocent victims and deviant bad guys still dominate these docuseries Rickard also unpacks how the new true crime has been influenced by the innocence movement a diverse group of organizers and activists be they journalists lawyers formerly incarcerated people or family members who now have a place in mainstream consciousness as DNA evidence exonerates the wrongly convicted The New True Crime questions the knowability of truth and probes our anxieties about the real nature of true crime media For fans of true crime shows and anyone concerned about justice in America this book will prove to be essential reading

Ghost Criminology Michael Fiddler, Theo Kindynis, Travis

Linnemann,2022-01-18 The haunting effects of crime violence and death in our history memory and media spaces From Abu Ghraib and Holocaust death camps to Marjory Stoneman Douglas High School and slave plantations spaces where violent crimes have occurred can often become forever changed or haunted in the public imagination In this volume Michael Fiddler Travis Linnemann and Theo Kindynis bring together an interdisciplinary group of distinguished scholars to study this phenomenon exploring the origins theory and methodology of ghost criminology Featuring Jeff Ferrell Michelle Brown Eamon Carrabine and other prominent scholars Ghost Criminology takes us inside spaces where the worst crimes have imprinted themselves on our history memory and media spaces Contributors explore a wide range of these hauntological topics from a criminological perspective including the excavation of graffiti in the London underground the phantom of Robert E Lee in Charlottesville VA during the 2017 riots and the ghostly evidentiary traces of crime in motel rooms Ultimately Fiddler Kindynis and Linnemann offer ghost criminology as another way of seeing and better understanding the lingering impact of violence oppression and history in today s world Ghost Criminology curates cutting edge research to break exciting new terrain America's Jails Derek Jeffreys,2018-06-05 A look at the contemporary crisis in U S jails with recommendations for improving and protecting the dignity of inmates Twelve million Americans go through the U S jail system on an annual basis Jails which differ significantly from prisons are designed to house inmates for short amounts of time and are often occupied by large populations of legally innocent people waiting for a trial Jails often have deplorable sanitary conditions and there are countless records of inmates being brutalized by staff and other inmates while in custody Local municipalities use jails to institutionalize those whom they perceive to be a threat so hundreds of thousands of inmates suffer from mental illness People abandoned by families or lacking health insurance or those who cannot afford bail often cycle in and out of jails In America s Jails Derek Jeffreys draws on sociology philosophy history and his personal experience volunteering in jails and prisons to provide an understanding of the jail experience from the inmates perspective focusing on the stigma that surrounds incarceration Using his research at Cook County Jail the nation s largest single site jail Jeffreys attests that jail inmates possess an inherent dignity that should govern how we treat them Ultimately fundamental changes in the U S jail system are necessary and America s Jails provides specific policy recommendations for changing its poor conditions Highlighting the experiences of inmates themselves America s Jails aims to shift public perception and understanding of jail inmates to center their inherent dignity and help eliminate the stigma attached to their incarceration

Halfway House Liam Martin,2021-10-19 An inside look at the struggles former prisoners face in reentering society Every year roughly 650 000 people prepare to reenter society after being released from state and federal prisons In Halfway House Liam Martin shines a light on their difficult journeys taking us behind the scenes at Bridge House a residential reentry program near Boston Massachusetts Drawing on three years of research Martin explores the obstacles these former prisoners face in the real world From drug addiction to poverty he captures the ups and downs of life after incarceration in

vivid engaging detail He shows us what exactly it is like to live in a halfway house giving us a rare up close view of its role in a dense and often confusing web of organizations governing prisoner reentry Martin asks us to rethink the possibilities and pitfalls of using halfway houses to manage the worst excesses of mass incarceration A portrait of life in the long shadow of the carceral state Halfway House lets us see the struggles of reentry through the eyes of former prisoners **Policing Pain**

Kevin Revier,2025-11-11 How the medicalization of addiction during the U S opioid crisis has driven mass incarceration and mass policing in rural and deindustrialized communities The nationwide opioid public health emergency has led many advocates and public officials to call for drug policy reforms that reject traditional law and order approaches In Policing Pain Kevin Revier approaches the opioid epidemic from an abolitionist framework that seeks to treat people who use opioids not as so called criminals but as people in need of health care Based on two years of ethnographic research in Upstate New York a region highly impacted by overdoses job loss and deindustrialization Revier shows that incorporation of treatment within the criminal justice system has ultimately expanded the scope of the drug war turning individuals into treatable carceral subjects who are both medicalized and criminalized He argues that the incorporation of medical rhetoric and treatment within the criminal legal system maintains a carceral approach in rural and low income areas facing high rates of opioid overdose and economic disinvestment further entrenching the carceral state in the lives of people who use drugs Ultimately Policing Pain explores alternative strategies to promote harm reduction from an abolitionist ethic of care that advocates for people who use drugs while seeking to minimize criminal justice involvement in drug related issues **Skateboarding LA**

Gregory J. Snyder,2017-12-05 Inside the complex and misunderstood world of professional street skateboarding On a sunny Sunday in Los Angeles a crew of skaters and videographers watch as one of them attempts to land a heel flip over a fire hydrant on a sidewalk in front of the Biltmore Hotel A staff member of the hotel demands they leave and picks up his phone to call the police Not only does the skater land the trick but he does so quickly and spares everyone the unwanted stress of having to deal with the cops This is not an uncommon occurrence in skateboarding which is illegal in most American cities and this interaction is just part of the process of being a professional street skater This is just one of Gregory Snyder s experiences from eight years inside the world of professional street skateboarding a highly refined athletic and aesthetic pursuit from which a large number of people profit Skateboarding LA details the history of skateboarding describes basic and complex tricks tours some of LA s most famous spots and provides an enthusiastic appreciation of this dangerous and creative practice Particularly concerned with public spaces Snyder shows that skateboarding offers cities much more than petty vandalism and exaggerated claims of destruction Rather skateboarding draws highly talented young people from around the globe to skateboarding cities building a diverse and wide reaching community of skateboarders filmmakers photographers writers and entrepreneurs Snyder also argues that as stewards of public plazas and parks skateboarders deter homeless encampments and drug dealers In one stunning case skateboarders transformed the West LA Courthouse with Nike

s assistance into a skateable public space Through interviews with current and former professional skateboarders Snyder vividly expresses their passion dedication and creativity Especially in relation to the city s architectural features ledges banks gaps stairs and handrails they are constantly re imagining and repurposing these urban spaces in order to perform their ever increasingly difficult tricks For anyone interested in this dynamic and daunting activity Skateboarding LA is an amazing ride

The Little Old Lady Killer Susana Vargas Cervantes,2017-04-25 The surprising true story of Mexico s hunt arrest and conviction of its first female serial killer For three years amid widespread public outrage police in Mexico City struggled to uncover the identity of the killer responsible for the ghastly deaths of forty elderly women many of whom had been strangled in their homes with a stethoscope by someone posing as a government nurse When Juana Barraza Samperio a female professional wrestler known as la Dama del Silencio the Lady of Silence was arrested and eventually sentenced to 759 years in prison for her crimes as the Mataviejitas the little old lady killer her case disrupted traditional narratives about gender criminality and victimhood in the popular and criminological imagination Marshaling ten years of research and one of the only interviews that Juana Barraza Samperio has given while in prison Susana Vargas Cervantes deconstructs this uniquely provocative story She focuses in particular on the complex gendered aspects of the case asking Who is a killer Barraza with her manly features and strength her career as a masked wrestler in lucha libre and her violent crimes is presented here as a study in gender deviance a disruption of what scholars call mexicanidad or the masculine notion of what it means to be Mexican Cervantes also challenges our conception of victimhood specifically who counts as a victim The Little Old Lady Killer presents a fascinating analysis of what serial killing often considered killing for the pleasure of killing represents to us

Meth Wars Travis Linnemann,2018-08-28 How the War on Drugs is maintained through racism authority and public opinion From the hit television series Breaking Bad to daily news reports anti drug advertising campaigns and highly publicized world wide hunts for narcoterrorists such as Joaquin El Chapo Guzman the drug methamphetamine occupies a unique and important space in the public s imagination In Meth Wars Travis Linnemann situates the meth epidemic within the broader culture and politics of drug control and mass incarceration Linnemann draws together a range of examples and critical interdisciplinary scholarship to show how methamphetamine and the drug war more generally are part of a larger governing strategy that animates the politics of fear and insecurity and links seemingly unrelated concerns such as environmental dangers the politics of immigration and national security policing tactics and terrorism The author s unique analysis presents a compelling case for how the supposed meth epidemic allows politicians small town police and government counter narcotics agents to engage in a singular policing project in service to the broader economic and geostrategic interests of the United States

Judging Addicts Rebecca Tiger, 2013 The number of people incarcerated in the U.S. now

exceeds 2.3 million due in part to the increasing criminalization of drug use over 25% of people incarcerated in jails and prisons are there for drug offenses Judging Addicts examines this increased criminalization of drugs and the medicalization of addiction in the U S by focusing on drug courts where defendants are sent to drug treatment instead of prison Rebecca Tiger explores how advocates of these courts make their case for what they call enlightened coercion detailing how they use medical theories of addiction to justify increased criminal justice oversight of defendants who through this process are defined as both sick and bad Tiger shows how these courts fuse punitive and therapeutic approaches to drug use in the name of a progressive and enlightened approach to addiction She critiques the medicalization of drug users showing how the disease designation can complement rather than contradict punitive approaches demonstrating that these courts are neither unprecedented nor unique and that they contain great potential to expand punitive control over drug users Tiger argues that the medicalization of addiction has done little to stem the punishment of drug users because of a key conceptual overlap in the medical and punitive approaches that habitual drug use is a problem that needs to be fixed through sobriety Judging Addicts presses policymakers to implement humane responses to persistent substance use that remove its control entirely from the criminal justice system and ultimately explores the nature of crime and punishment in the U S today
