Piston Powered Propeliners:

Piston-powered Propeliners Martin W. Bowman, 2000 In the years immediately following World War II the tremendous wartime advances that had taken aviation technology to its zenith were utilized in several superb commercial airliners This book captures many of the beautiful aircraft that graced the worlds airline routes between 1946 and the mid 1950s

Propeliners Clinton Groves, 1994 **Douglas DC** Geoff Jones, 2017-05-17 Like the P 51 Mustang and Supermarine Spitfire the Douglas DC 3 is an iconic aircraft design It has endured more than any other with several hundred still in use worldwide in locations as far apart as Africa Antarctica and the US Many of the current operators use turbine conversions of the DC 3 mainly using Basler SAAF and Dodson International the main proponents Just about every major post war airline began their schedules with the DC 3 Many took advantage of post war military surplus C 47s that had already written huge volumes of history with their roles with the US Army Air Corps in the Second World War such as the D Day landings Many enthusiast organisations still keep DC 3s airworthy and fly them for members However the days of DC 3 operations are now nearing an end thanks to spares unavailability cost and the shortages of Avgas fuel in remote parts of the world The Douglas DC 3 is to aviation what the Volkswagen and Ford were to motoring and what the DC 3 operators started the 21st century Airbus Boeing operators continued thanks to the astonishing legacy of this remarkable aircraft 198 black and white and 71 colour photographs

VC10: Icon of the Skies Lance Cole, 2017-03-30 An excellent account of the political battles and the commercial skulduggery and its outstanding service as a transport and tanker with the RAF Firetrench The VC10 was the nation s biggest jet airliner of its age and regarded as the world s best looking airliner It was safe fast and designed to take off from short runways in Africa and Asia at the request of its main operator BOAC the airline that would later go on to become today s British Airways The VC10 and the larger Super VC10 were beloved by pilots and passengers alike and became icons of the 1960s They were hugely popular all over the world Yet the VC10 was eclipsed by Boeing s 707 which sold by the hundreds despite the fact that the 707 was less capable and could not initially operate from the runways of the Commonwealth and old British Empire routes as the VC10 undoubtedly could This book blends the story of VC10

development with a well researched tale of corporate and political power play It asks just what lay behind the sales failure of the VC10 Politics played an important part of course as did BOACs tactics and a whodunnit cast of politico corporate events and machinations at the highest level of society during the dying days of Empire in 1960s Britain Key players in the story from Tony Benn to famous test pilot Brian Trubshaw Concorde are cited and quoted By exploring this historical period in depth and highlighting all the various impediments that stood in the way of success for the VC10 Lance Cole adds an important layer to our understanding of twentieth century history

Animality and Humanity in French Late Modern Representations of Black Femininity

Elodie Silberstein,2022-08-25 This volume examines the evolution of the depictions of black femininity in French visual culture as a prism through which to understand the Global North's destructive relationship with the natural world Drawing on a broad spectrum of archives extending back to the late 18th century paintings fashion plates prints photographs and films this study traces the intricate ways a patriarchal imperialism and a global capitalism have paired black women with the realm of nature to justify the exploitation both of people and of ecosystems These dehumanizing and speciesist strategies of subjugation have perpetuated interlocking patterns of social injustice and environmental depletion that constitute the most salient challenges facing humankind today Through a novel approach that merges visual studies critical race theory and animal studies this interdisciplinary investigation historicizes the evolution of the boundaries between human and non human animals during the modern period The book will be of interest to scholars working in art history visual studies critical race theory colonial and post colonial studies animal studies and French studies Airways ,2010 **The Legendary Douglas DC-3** Michael S. Prophet,2022-12-01 Following on from the epoch making DC 2 technology the DC 3 is generally considered the greatest single commercial transport plane in history and certainly the most famous Indeed the DC 3 revolutionized air travel to an extent not equaled until the arrival of the jet age Many of these revolutions related to safety thanks to the DC 3's reputation for reliability in 1937 air travel insurance finally became available to the general public This is the airliner that not only made flying respectable but enabled the emerging aviation industry to end its reliance on mail subsidies and profit from passenger journeys DC 3 are still flying eight decades after their first debut a tribute to their brilliant design and are likely to continue flying well into the 21st century een zeer kleurrijk boek Het boek is een prachtig eerbetoon en een mooie momentopname van wat er op dit moment op de wereld nog te zien is van dit ontwerp van voor de Tweede Wereldoorlog De Vliegende Hollander The Last Atlantic Liners William H. Miller,2011-03-15 The golden age of liners in photographs and artwork **The Flying Springbok** Lionel Friedberg,2021-07-31 An artistic rendering of the African antelope the Springbok was depicted with stylized wings to serve as the logo of South African Airways SAA for well over 60 years It was replaced by a new corporate identity when the airline was rebranded after the demise of apartheid the release of Nelson Mandela from political incarceration and the introduction of a non racist democratic society in South Africa in the mid nineties As a state owned entity many people once saw SAA as the apartheid airline For a time travel on board its aircraft was restricted to whites only but this was later changed to include members of all the country's diverse racial groups SAA pioneered flight throughout Africa during the colonial era long before airports supply services radio and weather forecasting capabilities even existed Its staff and equipment served with the Allies in Europe and North Africa during WWII and it met the enormous challenge of having to circumvent African airspace when flying to destinations abroad after most African nations closed their skies to it in protest against the country's racist policies in the early sixties Over the years the airline grew into one of the world's major domestic regional and international carriers Its long history was eventually terminated and replaced by a new

entity in 2020 with the outbreak of the coronavirus pandemic In its original incarnation it could proudly boast of being one of the world's oldest and longest surviving international carriers It is still seen by many around the world as the airline with that much revered and fondly remembered emblem the Flying Springbok Art of the Airways Geza Szurovy, Capture the glory of flight in this nostalgic look back at the colorful posters that lured yesterday's passengers to take to the air Constellations tri motors and DC 3s are featured decked out in the liveries of their owners and presented in stunning color artworks created by such famed artists as Norman Rockwell Calder and other popular painters Nostalgic poster art contained within tells the history of yesteryear's airways through its free spirited and colorful advertising Flight R. G. Grant, 2002 A journey through a century of flight from the Wright brothers first airborne attempts to the story behind the space race **Spyhunter** Michael Shrimpton LLB, 2025-08-29 Spyhunter is the only published history of the Deutschverteidigungsdienst DVD the covert agency set up by Admiral Wilhelm Canaris in 1943 after German defeats in the Battles of the Atlantic and the Kursk Salient Canaris and the Gestapo chief Muller faked their deaths in 1945 The world's most powerful intelligence agency the DVD went on to control the UN assassinate President Kennedy and install its man Saddam Hussein in Iraq Part 1 explains how Michael came to be involved at a high level in the secretive world of intelligence Part 2 is a history of German intelligence prior to 1945 including the shootdown and murder of Amelia Earhart and Part 3 covers the DVD itself The book probably features in the libraries of most intelligence agencies The postwar world cannot be explained without understanding the DVD **Aviation News**, 2008 Daily Graphic M. Therson Cofie, 1952-08-14

Classic Propliners Colin Addison, 1992 A pictorial tribute to transport aircraft which are fast disappearing around the world Outmoded by a new generation of jet aircraft the dwindling numbers of piston engine aircraft have been seconded to less glamorous roles often operating with independent companies from remote locations Lockheed's Constellation Steve Pace, As a dedicated passenger airliner the Lockheed Constellation was referred to as Queen of the Skies As a devoted warbird she was called upon to serve the armed forces Elegant graceful and extremely photogenic the legendary Connie remains one of the most sought after aircraft for airshow appearances Witness these beautiful aircraft in this fine collection of color photographs depicting the planes in both civilian and military dress as well as in U S and foreign markings Piston powered and propeller driven triple tailed and shaped like a dolphin the Constellation Super Constellation and Starliner series are bona fide classics **Flypast**, 2008 *New Scientist*, 1956 German Foreign Policy, 1963
