

Mastering Essential MATH SKILLS

20 minutes a day to success

Richard W. Fisher

Award-winning sixth-grade math teacher and author Richard W. Fisher shares his proven system of teaching that motivates students to learn and produces dramatic results. Using Mr. Fisher's method, students rapidly gain confidence and excitement that lead quickly to success.

Mastering Essential Math Skills offers:

- Proven system of teaching math for classroom teachers and for parents who are homeschooling.
- Easy-to-follow math program requiring only 20 minutes per day.
- Short, concise, and self-contained lessons.
- Daily exercises help students to master, maintain, and reinforce math skills through consistent review.
- Dramatic results. Each year about one-third of Mr. Fisher's sixth-grade students bypass the seventh-grade math program and move directly into eighth-grade algebra.
- Easy-to-use correction key and teacher's manual.

Educators say:

"For the past seven years I have watched Mr. Fisher's students excel in math due to his innovative program, teaching style, and high expectations for all students. His program has had a dramatic impact on our high API (Academic Performance Index) and the recognition of Blossom Valley Elementary School through the Glenn Hoffman and INTEL Awards programs. With a minority rate of 65 percent, including second-language learners, Mr. Fisher's program leaves no child behind by taking students 'at risk' and creating students 'at promise'."

—Risa Quon, principal

"Rick Fisher's success with elementary school students and mathematics is legendary in the Oak Grove School District. His techniques and strategies have resulted in outstanding student performance in mathematics. This book shares the system he uses to achieve those results. His belief in all students succeeding is reflected in the contents of this book."

—Manny Barbara, superintendent

"The Fisher system provides an organized, systematic approach to building fundamental skills. It has enabled my students to build the strong foundation that is essential for future mathematical success. I have watched them grow in confidence as they have mastered new concepts and skills. Best of all, my students love math!"

—Kelly Clayton, teacher

"My fourth-grade son has always struggled with math until we started using this program. I give it an A++."

—Eric W., homeschool parent

"If your fourth- or fifth-grader is struggling in math, they need this program. My son finally understands concepts he struggled with so much with his regular school text."

—Mary Edwards, homeschool parent
