Manual (Classic Reprint) John Charles Blake,2017-11-18 Excerpt from General Chemistry Laboratory Manual The exercises in this manual are complementary to the author s General Chemistry Theoretical and Applied The numbering of the chapters and sections follows that of the textbook exactly as it is expected that students will study both simultaneously In fact the exercises can often advantageously precede the corresponding lectures although in such cases the instructor will find it necessary to give more extended oral instructions at the beginning of the laboratory period than would otherwise be required Such preliminary instructions must be given in any event during the early part of the course in order to familiarize the student with the ordinary pieces of apparatus and their manipulation the regulations and routine of the laboratories and storerooms and the prescribed system of recording results and submitting them to the instructor for inspection and approval Oral and written quizzes based on the laboratory work but involving knowledge of both the laboratory work and the lectures will be found helpful About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Acp Chem 1171 General Chemistry Lab Manual** Brooks/Cole,2014-04-25
