Cowboy Politics John S. Nelson, 2017-11-01 The politics of popular westerns are surprising in substance and significance, especially of late. *Cowboy Politics* shows how westerns in literature, cinema, and television face the challenges of Western Civilization even more than the perils of American frontiers. Its strategy is to compare key westerns with major theories of modern and postmodern politics. So it analyzes novels from Owen Wister to Zane Grey and Larry McMurtry. It focuses on films from the western revival beginning in the 1990s and featuring Clint Eastwood's *Unforgiven*, while its interest in TV stretches from singing cowboys and *Gunsmoke* to David Milch's *Deadwood*. Critics are apt to find in westerns the modern politics of Thomas Hobbes and John Locke. They tap devices of individuality, rationality, contract, sovereign enforcement, and representation to overcome the chaotic violence of a wild zone. *Cowboy Politics* examines how westerns often find such measures insufficient to tame the West as a culture of honor and anger that deteriorates into feudal vengeance. Instead, westerns see the West as the sunset land that is already growing old and moving on. So westerns seek fresh starts informed by comparing civilizations more than demonizing savages. Westerns worry that modern politics devolve into exploitation, oppression, spectacle, and terror. So they pursue supplements in such postmodern politics as republicanism, perfectionism, populism, feminism, and environmentalism. Especially, westerns explore politics of persuasive speech in action, in public, doing beauty and self-reliance in the modes of Hannah Arendt and Ralph Waldo Emerson. The first two chapters of *Cowboy Politics* explain how westerns do political theory for popular audiences by making many of our myths the symbolic stories of individuals and communities which we live daily. The next three chapters trace the initially modern theories of government in many westerns. Then, western turns to republican honor, rhetoric, response, ability, and character tracking, occupy the following four chapters. And these set the stage for another four chapters on western attention to postmodern terror, mythmaking, celebrity, spectacle, and forgiveness. The final two chapters analyze how late satirical and transformative westerns develop realist defenses for their surprisingly postmodern politics. *Outlook and Independent* ,1928 **The Art of Plain Talk** Rudolf Flesch, 1962 **Publications from the National Institute of Mental Health** National Institute of Mental Health

Troubled Waters Richard A. Bartlett,1995 Since 1908 the corporate giant now known as Champion International has operated a pulp and paper mill along the banks of the Pigeon River in Canton North Carolina As a result during most of those years this once sparkling Appalachian stream has been virtually useless except as an industrial sewer foamy foul smelling molasses colored By polluting the river the mill that brought prosperity to Canton stunted the economic growth of the downstream communities in Cocke County Tennessee Although public pressure to clean up the Pigeon surfaced intermittently it has been only in the years since 1985 that two organizations the Pigeon River Action Group and the Dead Pigeon River Council have mounted a sustained drive against the ongoing pollution Today following a multimillion dollar upgrading of the Champion mill the Pigeon River is cleaner but hardly pristine Moreover there is little evidence that Champion carried out its modernization for any reasons other than economic ones **First to Fight** Steven T.

Tom,2019-09-20 Five days after the outbreak of World War I in the summer of 1914 American Kiffin Rockwell was on a ship headed for France The United States would not join the war for nearly three years but Rockwell believed it was time to fight He joined the elite French Foreign Legion and was soon fighting in the trenches of the Western Front A combat wound in 1915 rendered him unfit to fight on the ground so Rockwell volunteered to fight in the air becoming a charter member of the soon to be legendary Lafayette Escadrille a fighter squadron of volunteer American pilots In May 1916 Rockwell became the first pilot to score a victory for the new unit when he shot down a German plane He was wounded in the skies over Verdun but refused hospitalization insisting on remaining in the air He flew more missions with the Lafayette Escadrille than any other pilot until his death in aerial combat in September 1916 First to Fight is a high octane drama of a remarkable soldier and pilot who fought in the trenches and in the skies during World War I It is the story of one of the first American fighter pilots at the dawn of aerial combat the era of the Red Baron with dogfighting biplanes high above the trench lines But more than a World War I story more than an aviation story this is the story of an idealist who volunteered long before his country drafted its first soldier to fight and ultimately die in defense of civilization East Village, Des Moines Hope

Mitchell,2016-12-05 East Village was not always the fashionable destination it is today When the first settlers arrived in 1843 on the muddy banks of the Des Moines River it was in direct violation of a treaty with the local natives The settlement grew so quickly that by 1855 the fledgling city had been selected to be the state capital and the building was constructed in East Village The next century saw rivalries with the western half of the city the birth and battle of one of the city s largest red light districts and the construction of some of Des Moines most prized historic treasures Historian Hope Mitchell investigates the people and events that shaped the culture and landscape of Des Moines most dynamic neighborhood *Personnel Information Bulletin* United States.
