Plain Pathway To Plantations 1624:

Plain Pathway to Plantations Richard Eburne, 1978-07 *A Plain Pathway to Plantations. 1624 ... Edited by Louis B. Wright* Richard Eburne, Louis Booker Wright, 1962 **Explorers and Colonies** David B. Quinn, 1990-01-01 This book brings together a collection of the work of David Quinn the preeminent authority on the early history of the discovery and colonization of America **Powhatan's World and Colonial Virginia** Frederic W. Gleach, 2000-04-01 Frederic W Gleach offers the most balanced and complete accounting of the early years of the Jamestown colony to date When English colonists established their first permanent settlement at Jamestown in 1607 they confronted a powerful and growing Native chiefdom consisting of over thirty tribes under one paramount chief Powhatan For the next half century a portion of the Middle Atlantic coastal plain became a charged and often violent meeting ground between two very different worlds *Between Two Worlds* Malcolm Gaskill, 2014 In the 1600s over 350 000 intrepid English men women and children migrated to America leaving behind their homeland for an uncertain future Whether they settled in Jamestown Salem or Barbados these migrants entrepreneurs soldiers and pilgrims alike faced one incontrovertible truth England was a very very long way away In *Between Two Worlds* celebrated historian Malcolm Gaskill tells the sweeping story of the English experience in America during the first century of colonization Following a large and varied cast of visionaries and heretics merchants and warriors and slaves and re **History and Ethnography of the Beothuk** Ingeborg Marshall, 1996 Relations with Inuit Montagnais and Micmac are also discussed *The Industrial Revolutions, Volume 1* J. Chartres, 1994-03-23 Britain in the sixteenth century appeared little different from its European neighbours and shared their renewed Malthusian pressures as population growth threatened the resource base of the economy Yet by the later seventeenth century Britain had broken the limits imposed by food production With the development of its trade transport and industry and the effective integration of its economy as a whole the country was becoming by the later eighteenth century more urban and industrial than its neighbours and was rapidly overtaking the Netherlands as the least rural country in Europe This volume of key readings sets British development in its broad context and in presenting the strong evidence of the extent and nature of its economic advance in the seventeenth and early eighteenth centuries provides the critical background for the understanding of the late process of British industrialization **Indigenous Rights and the Legacies of the Bible** Mark G. Brett, 2024-07-12 A Christian imagination of colonial discovery permeated the early modern world but legal histories developed in very different ways depending on imperial jurisdictions *Indigenous Rights and the Legacies of the Bible From Moses to Mabo* explores the contradictions and ironies that emerged in the interactions between biblical warrants and colonial theories of Indigenous natural rights The early debates in the Americas mutated in the British colonies with a range of different outcomes after the American Revolution and tracking the history of biblical interpretation provides an illuminating pathway through these historical complexities A ground breaking legal judgement in the High Court of Australia *Mabo v Queensland* 1992

demonstrates the enduring legacies of debates over the previous five centuries The case reveals that the Australian colonies are the only jurisdiction of the English common law tradition within which no treaties were made with the First Nations Instead there is a peculiar development of terra nullius ideology which can be traced back to the historic influences of the book of Genesis in Puritan thought in the seventeenth century Having identified both similarities and differences between various colonial arguments and their overt dependence on early modern theological reasoning Mark G Brett examines the paradoxical permutations of imperial and anti imperial motifs in the biblical texts themselves Concepts of rights shifted over the centuries from theological to secular frameworks and more recently from anthropocentric assumptions to ecologically embedded concepts of Indigenous rights and responsibilities Bearing in mind the differences between ancient and modern notions of indigeneity a fresh understanding of this history proves timely as settler colonial states reflect on the implications of the United Nations Declaration on the Rights of Indigenous Peoples 2007 Brett s illuminating insights in this detailed study are particularly relevant for the four states that initially voted against the Declaration the USA Canada New Zealand and Australia

From British Peasants to Colonial American Farmers Allan Kulikoff, 2014-02-01 With this book Allan Kulikoff offers a sweeping new interpretation of the origins and development of the small farm economy in Britain s mainland American colonies Examining the lives of farmers and their families he tells the story of immigration to the colonies traces patterns of settlement analyzes the growth of markets and assesses the impact of the Revolution on small farm society Beginning with the dispossession of the peasantry in early modern England Kulikoff follows the immigrants across the Atlantic to explore how they reacted to a hostile new environment and its Indian inhabitants He discusses how colonists secured land built farms and bequeathed those farms to their children Emphasizing commodity markets in early America Kulikoff shows that without British demand for the colonists crops settlement could not have begun at all Most important he explores the destruction caused during the American Revolution showing how the war thrust farmers into subsistence production and how they only gradually regained their prewar prosperity **The Publishers Weekly** ,1921

Discoverers, Explorers, Settlers Wayne Franklin, 1979 Send those on land that will show themselves diligent writers So urged the sailing instructions prepared for explorer Henry Hudson With distinctive command of the primary texts created by such diligent writers as Columbus William Bradford and Thomas Jefferson Wayne Franklin describes how the New World was created from their new words The long verbal discovery of America he asserts entailed both advance and retreat sudden insights and blind insistence on old ways of seeing The discoverers explorers and settlers depicted America in words or via maps tables and landscape views as a complex spatial and political entity a place where ancient formula and current fact were inevitably at odds

Pocahontas Grace Steele Woodward, 1969 Offers a look at the life of the seventeenth century Indian princess whose friendship toward the English settlers at Jamestown was a key factor in making the colony a success

Migration in Irish History 1607-2007 Patrick Fitzgerald, Brian Lambkin, 2008-10-27 Migration people moving in as

immigrants around as migrants and out as emigrants is a major theme of Irish history This is the first book to offer both a survey of the last four centuries and an integrated analysis of migration reflecting a more inclusive definition of the people of Ireland **The Geography of Empire in English Literature, 1580-1745** Bruce McLeod,1999-09-28 Between 1580 and 1745 a period that saw Edmund Spenser s journey to an unconquered Ireland and the Jacobite Rebellion the first British Empire was established The intervening years saw the cultural and material forces of colonialism pursue a fitful often fanciful endeavour to secure space for this expansion With the defeat of the Highland clans what England in 1580 could only dream about had materialised a coherent socio spatial system known as an empire Taking the Atlantic world as its context this ambitious 1999 book argues that England s culture during the seventeenth and early eighteenth centuries was saturated with a geographic imagination fed by the experiences and experiments of colonialism Using theories of space and its production to ground his readings Bruce McLeod skilfully explores how works by Edmund Spenser John Milton Aphra Behn Mary Rowlandson Daniel Defoe and Jonathan Swift imagine interrogate and narrate the adventure and geography of empire

Spain, Europe and the Wider World, 1500-1800 John Huxtable Elliott,2009-06-29 When J H Elliott published Spain and Its World 1500 1700 some twenty years ago one of many enthusiasts declared For anyone interested in the history of empire of Europe and of Spain here is a book to keep within reach to read to study and to enjoy Times Literary Supplement Since then Elliott has continued to explore the history of Spain and the Hispanic world with originality and insight producing some of the most influential work in the field In this new volume he gathers writings that reflect his recent research and thinking on politics art culture and ideas in Europe and the colonial worlds between 1500 and 1800 The volume includes fourteen essays lectures and articles of remarkable breadth and freshness written with Elliott s characteristic brio It includes an unpublished lecture in honor of the late Hugh Trevor Roper Organized around three themes early modern Europe European overseas expansion and the works and historical context of El Greco Velzquez Rubens and Van Dyck the book offers a rich survey of the themes at the heart of Elliott s interests throughout a career distinguished by excellence and innovation **Civilizing**

the Wilderness A.A. den Otter,2012-04-05 Eleven essays explore the dichotomy of civilizing and wilderness in 1850s Euro British North America **The paradox of body, building and motion in seventeenth-century England** Kimberley Skelton,2015-05-01 This book examines how seventeenth century English architectural theorists and designers rethought the domestic built environment in terms of mobility as motion became a dominant mode of articulating the world across discourses encompassing philosophy political theory poetry and geography From mid century the house and estate that had evoked staccato rhythms became triggers for mental and physical motion evoking travel beyond England s shores displaying vistas and showcasing changeable wall surfaces Simultaneously philosophers and other authors argued for the first time that paradoxically the blur of motion immobilised an inherently restless viewer into social predictability and so stability Alternately feared and praised early in the century for its unsettling unpredictability motion became the most certain way of

comprehending social interactions language time and the buildings that filtered human experience At the heart of this narrative is the malleable sensory viewer tacitly assumed in early modern architectural theory and history yet whose inescapable responsiveness to surrounding stimuli guaranteed a dependable world from the seventeenth century History and Speculative Fiction John L. Hennessey, 2023-12-14 This open access book demonstrates that despite different epistemological starting points history and speculative fiction perform similar work in making the strange familiar and making the familiar strange by taking their readers on journeys through space and time Excellent history like excellent speculative fiction should cause readers to reconsider crucial aspects of their society that they normally overlook or lead them to reflect on radically different forms of social organization Drawing on Gunl g Fur s postcolonial concept of concurrences and with contributions that explore diverse examples of speculative fiction and historical encounters using a variety of disciplinary approaches this volume provides new perspectives on colonialism ecological destruction the nature of humanity and how to envision a better future **Cultivating the Colonies** Christina Folke Ax, Niels Brimnes, Niklas Thode Jensen, Karen Oslund, 2014-06-16 The essays collected in *Cultivating the Colonies* demonstrate how the relationship between colonial power and nature reveals the nature of power Each essay explores how colonial governments translated ideas about the management of exotic nature and foreign people into practice and how they literally got their hands dirty in the business of empire The eleven essays include studies of animal husbandry in the Philippines farming in Indochina and indigenous medicine in India They are global in scope ranging from the Russian North to Mozambique examining the consequences of colonialism on nature including its impact on animals fisheries farmlands medical practices and even the diets of indigenous people *Cultivating the Colonies* establishes beyond all possible doubt the importance of the environment as a locus for studying the power of the colonial state *By Nature and by Custom Cursed* Phillip H. Round, 1999 A major reexamination of New England s cultural society in which Puritans share the stage with many other discourses
