Ritual Passages And Narrative Structures:

Ritual Passages and Narrative Structures Langdon Elsbree, 1991 This book explores the homology between ritual passages and narrative structures The ways that rites of passage particularly their liminal stage correspond with narrative structures and the advantages of these correspondences for literary criticism and analysis are the central arguments of this study Drawing on a wide range of examples mainly from 19th and 20th Century English and American literature it concentrates on the middle stage of liminality where the identity themes the implications of choice and the values in conflict emerge most clearly Drawing on recent work in anthropology and the other social sciences it suggests new perspectives for understanding the relationships between rite and story and between art and life

Ritual and Narrative Vera Nünning, Jan Rupp, Gregor Ahn, 2014-03-15 Ritual and narrative are pivotal means of human meaning making and of ordering experience but the close interrelationship between them has not as yet been given the attention it deserves How can models and categories from narrative theory benefit the study of ritual and what can we gain from concepts of ritual studies in analysing narrative This book brings together a wide range of disciplinary perspectives including literary studies archaeology biblical and religious studies and political science It presents theoretical explorations as well as in depth case studies of ritual and narrative in different media and historical contexts

Ritual Words and Narrative Worlds in the Book of Leviticus

Bryan D. Bibb, 2009-01-01 This book argues that literary features and ritual dynamics within the book of Leviticus enlighten each other The first two chapters establish that one may read Leviticus as a coherent literary work and define the genre of Leviticus as narrativized ritual a complex blending of descriptive narrative and prescriptive ritual In conversation with Catherine Bell they present several aspects of the text that are ritualized and show how this ritualization implies a negotiation of power relations among participants The third and fourth chapters examine the first half of Leviticus both the legal sections in Lev 1 7 and 11 15 and the narratives in Lev 8 10 and 16 These sections alternate between establishing the ritual system and exposing gaps and ambiguities in that system Chapter 5 turns to the second half of Leviticus traditionally called the Holiness Code The ritual language found in this section is less formal and precise mirroring the way in which the concept of holiness is expanded and extended to the whole people As this material concludes the book it relativizes and democratizes the strict ritual system contained in the first half

Ritual, Family and Therapy in Anglophone

Literatures Lars Heiler, 2025-03-10 This book investigates the triadic constellations between ritual family and therapy in literature in English Many rituals so called rites of passage in particular are strongly associated with the changing status of individuals as members of a family unit Traditional healing rituals were often designed to have a therapeutic effect sometimes mentally but also physically whereas modern psychotherapies often include ritual elements in order to enhance the efficacy of their treatment Families on the other hand can be the site of therapeutic activity by providing protection stability and emotional comfort yet difficult family constellations may also be the origin of emotional distress and the reason

why a person needs counselling and therapeutic support in the first place Modern therapies such as family systems therapy have expanded their range of interest and influence in order to look at the whole family unit not just the symptomatic individual as client This study discusses nine literary texts six novels one literary memoir and two plays in which the three dimensions intersect and mutually influence each other **Handbook of Narratology** Peter Hühn, Jan Christoph Meister, John Pier, Wolf Schmid, 2014-10-10 This handbook provides a systematic overview of the present state of international research in narratology and is now available in a second completely revised and expanded edition Detailed individual studies by internationally renowned narratologists elucidate central terms of narratology present a critical account of the major research positions and their historical development and indicate directions for future research *Rites of Passage: Rational/Irrational Natural/Supernatural Local/Global* Associazione italiana di anglistica. Initiation in Ancient Greek Rituals and Narratives David Dodd, Christopher A. Faraone, 2013-09-05 Scholars of classical history and literature have for more than a century accepted initiation as a tool for understanding a variety of obscure rituals and myths ranging from the ancient Greek wedding and adolescent haircutting rituals to initiatory motifs or structures in Greek myth comedy and tragedy In this book an international group of experts including Gloria Ferrari Fritz Graf and Bruce Lincoln critique many of these past studies and challenge strongly the tradition of privileging the concept of initiation as a tool for studying social performances and literary texts in which changes in status or group membership occur in unusual ways These new modes of research mark an important turning point in the modern study of the religion and myths of ancient Greece and Rome making this a valuable collection across a number of classical subjects
