Robert The Monks History Of The First Crusade Historia Iherosolimitana Crusade Texts In Translati:

Robert the Monk's History of the First Crusade Robert (of Reims),2005 Robert the Monk s chronicle of the First Crusade was one of the most popular such accounts in the Middle Ages As such it gives an invaluable window onto contemporary perceptions of the crusade as well as providing new and unique information and all this in a racy style which on occasion would not disgrace a modern journalist This is the first translation of the Latin text into English **Robert the Monk's History of the First Crusade** Carol Sweetenham,2017-09-19 This is the first English translation of Robert the Monk s Historia Iherosolimitana a Latin prose chronicle describing the First Crusade In addition to providing new and unique information on the Crusade Robert claims to have been an eyewitness of the Council of Clermont in 1095 its particular interest lies in the great popularity it enjoyed in the Middle Ages The text has close links with the vernacular literary tradition and is written in a racy style which would not disgrace a modern tabloid journalist Its reflection of contemporary legends and anecdotes gives us insights into perceptions of the Crusade at that time and opens up interesting perspectives onto the relationship of history and fiction in the twelfth century The introduction discusses what we know about Robert his importance as a historical source and his place in the literary tradition of the First Crusade **Robert the Monk's History of the First Crusade** Carol Sweetenham,2017 This is the first English translation of Robert the Monk s Historia Iherosolimitana a Latin prose chronicle describing the First Crusade In addition to providing new and unique information on the Crusade Robert claims to have been an eyewitness of the Council of Clermont in 1095 its particular interest lies in the great popularity it enjoyed in the Middle Ages The text has close links with the vernacular literary tradition and is written in a racy style which would not disgrace a modern tabloid journalist Its reflection of contemporary legends and anecdotes gives us insights into perceptions of the Crusade at that time and opens up interesting perspectives onto the relationship of history and fiction in the twelfth century The introduction discusses what we know about Robert his importance as a historical source and his place in the literary tradition of the First Crusade Provided by publisher **Crusaders** Dan Jones,2019-10-01 A major new history of the Crusades with an unprecedented wide scope told in a tableau of portraits of people on all sides of the wars from the author of Powers and Thrones For more than one thousand years Christians and Muslims lived side by side sometimes at peace and sometimes at war When Christian armies seized Jerusalem in 1099 they began the most notorious period of conflict between the two religions Depending on who you ask the fall of the holy city was either an inspiring legend or the greatest of horrors In Crusaders Dan Jones interrogates the many sides of the larger story charting a deeply human and avowedly pluralist path through the crusading era Expanding the usual timeframe Jones looks to the roots of Christian Muslim relations in the eighth century and tracks the influence of crusading to present day He widens the geographical focus to far flung regions home to so called enemies of the Church including Spain North Africa southern France and the Baltic states By telling intimate stories of individual journeys Jones illuminates these centuries of war not only from the perspective

of popes and kings but from Arab Sicilian poets Byzantine princesses Sunni scholars Shi'ite viziers Mamluk slave soldiers Mongol chieftains and barefoot friars Crusading remains a rallying call to this day but its role in the popular imagination ignores the cooperation and complicated coexistence that were just as much a feature of the period as warfare The age old relationships between faith conquest wealth power and trade meant that crusading was not only about fighting for the glory of God but also among other earthly reasons about gold In this richly dramatic narrative that gives voice to sources usually pushed to the margins Dan Jones has written an authoritative survey of the holy wars with global scope and human focus

War and Violence in the Western Sources for the First Crusade Sini Kangas, 2024-05-27 Medieval Westerners accepted killing for religion and praised the outcome of the First Crusade 1096-1099 At the same time their attitude to violence was ambivalent Theologians shunned the practical use of force while the warrior aristocracy valued the capacity for physical destruction In the absence of theological doctrine on the practicalities of holy warfare the first crusaders draw their ideas about killing from diverse and sometimes conflicting traditions This book answers questions about how religious violence was described justified and remembered in the sources of the First Crusade What was the relation between faith convention and action

Encountering Islam on the First Crusade Nicholas Morton, 2016-07-14 The First Crusade 1095-9 has often been characterised as a head to head confrontation between the forces of Christianity and Islam For many it is the campaign that created a lasting rupture between these two faiths Nevertheless is such a characterisation borne out by the sources Engagingly written and supported by a wealth of evidence Encountering Islam on the First Crusade offers a major reinterpretation of the crusaders attitudes towards the Arabic and Turkic peoples they encountered on their journey to Jerusalem Nicholas Morton considers how they interpreted the new peoples civilizations and landscapes they encountered sights for which their former lives in Western Christendom had provided little preparation Morton offers a varied picture of cross cultural relations depicting the Near East as an arena in which multiple protagonists were pitted against each other Some were fighting for supremacy others for their religion and many simply for survival

Crusade, Settlement and Historical Writing in the Latin East and Latin West, c. 1100-c. 1300 Andrew D. Buck, James H. Kane, Stephen J. Spencer, 2024 This collection offers a holistic understanding of the impact of both crusading and settlement on the literary cultures of Latin Christendom The period between the First Crusade and the collapse of the crusader states in the eastern Mediterranean was a crucial one for medieval historical writing From the departure of the earliest crusading armies in 1096 to the Mamluk conquest of the Latin states in the late thirteenth century crusading activity and the settlements it established and aimed to protect generated a vast textual output offering rich insights into the historiographical cultures of the Latin West and Latin East However modern scholarship on the crusades and the crusader states has tended to draw an artificial boundary between the two even though medieval writers treated their histories as virtually indistinguishable This volume places these spheres into dialogue with each other looking at how individual crusading campaigns and the Frankish

Mapping Medieval Identities in Occitanian Crusade Song Rachel May Golden, 2020 Mapping Medieval Identities in Occitanian Crusade Song focuses on two twelfth century musical poetic practices of southern France the sacred Aquitanian versus and the vernacular troubadour lyric and newly interprets them within their shared context of the early Crusades

The Historia Iherosolimitana of Robert the Monk Robert (of Reims), 2013 First modern critical edition of one of the most important and popular texts on the Crusades to survive

Moving Women Moving Objects (400-1500) Tracy Chapman Hamilton, Mariah Proctor-Tiffany, 2019-08-12 This collection forges new ground in the discussion of aristocratic and royal women their relationships with their objects and medieval geography It explores how women s geographic and familial networks spread well beyond the borders that defined men s sense of region and how the movement of their belongings can reveal essential information about how women navigated these often disparate spaces Beginning in early medieval Scandinavia ranging from Byzantium to Rus and multiple

lands in Western Europe up to 1500 the essays span a great spatio temporal range Moreover the types of objects extend from traditionally studied works like manuscripts and sculpture to liturgical and secular ceremonial instruments icons and articles of personal adornment such as textiles and jewelry even including shoes

How to Plan a Crusade Christopher Tyerman, 2017-10-03 The story of the wars and conquests initiated by the First Crusade and its successors is itself so compelling that most accounts move quickly from describing the Pope's calls to arms to the battlefield In this highly original and enjoyable new book Christopher Tyerman focuses on something obvious but overlooked the massive all encompassing and hugely costly business of actually preparing a crusade The efforts of many thousands of men and women who left their lands and families in Western Europe and marched off to a highly uncertain future in the Holy Land and elsewhere have never been sufficiently understood Their actions raise a host of compelling questions about the nature of medieval society How to Plan a Crusade is remarkably illuminating on the diplomacy communications propaganda use of mass media medical care equipment voyages money weapons wills ransoms animals and the power of prayer during this dynamic era It brings to life an extraordinary period of history in a new and surprising way

Writing the Early Crusades Marcus Graham Bull, Damien Kempf, 2014 The First Crusade 1095-1101 was the stimulus for a substantial boom in Western historical writing in the first decades of the twelfth century beginning with the so called eyewitness accounts of the crusade and extending to numerous second hand treatments in prose and verse From the time when many of these accounts were first assembled in printed form by Jacques Bongars in the early seventeenth century and even more so since their collective appearance in the great nineteenth century compendium of crusade texts the *Recueil des historiens des croisades* narrative histories have come to be regarded as the single most important resource for the academic study of the early crusade movement But our understanding of these texts is still far from satisfactory This ground breaking volume draws together the work of an international team of scholars It tackles the disjuncture between the study of the crusades and the study of medieval history writing setting the agenda for future research into historical narratives about or inspired by crusading The basic premise that informs all the papers is that narrative accounts of crusades and analogous texts should not be primarily understood as repositories of data that contribute to a reconstruction of events but as cultural artefacts that can be interrogated from a wide range of theoretical methodological and thematic perspectives

The First Crusade Jonathan P. Phillips, 1997 The First Crusade 1095-9 a mass of armed pilgrims aiming to march 4000 kilometers to the Holy Land to conquer Jerusalem was one of the most remarkable episodes in medieval history Essays from nine leading academics offer new perspectives on two main themes reconsideration of the evidence available to

historians and appreciation of the Crusade's impact on the people of the eastern Mediterranean **The First Crusade and Idea of Crusading** Jonathan Riley-Smith, 2003-04-01 Despite various studies on the development of crusading thought the First Crusade itself has not been properly examined from this perspective Drawing on a range of European chronicles and charter collections this book discusses the launching of the First Crusade the practical experience of the crusaders and the interpretations placed upon this experience by contemporary commentators **The First Crusade** Edward Peters, 1998-06-18 To its contemporaries the first Crusade was a journey and its participants were pilgrims The identifying terminology of Crusade came about nearly a century later In a greatly expanded second edition Edward Peters brings together primary texts that document 11th century events leading to what we now call the First Crusade The First Crusade Thomas S. Asbridge, 2005 The chilling reverberations of the brutal First Crusade still echo in the world today as revealed in this gripping account of the titanic three year adventure Maps **The First Crusade** Peter Frankopan, 2012-04-15 According to tradition the First Crusade began at Pope Urban II's instigation and culminated in July 1099 when western European knights liberated Jerusalem But what if the First Crusade's real catalyst lay far to the east of Rome Countering nearly a millennium of scholarship Peter Frankopan reveals the First Crusade's untold history *A History of the Crusades* Steven Runciman, 1987-12-03 Sir Steven Runciman explores the First Crusade and the foundation of the kingdom of Jerusalem *Chronicles of the First Crusade* Christopher Tyerman, 2011-11-03 The story of the First Crusade as witnessed by contemporary writers O day so ardently desired O time of times the most memorable O deed before all other deeds The fall of Jerusalem in the summer of 1099 to an exhausted and starving army of western European soldiers was one of the most extraordinary events of the Middle Ages It was both the climax of a great wave of visionary Christian fervour and the beginning of what proved to be a futile and abortive attempt to implant a new European kingdom of heaven in an overwhelmingly Muslim world This remarkable collection brings together a wide variety of contemporary accounts of the First Crusade including Pope Urban II's initial call to arms of 1095 as well as the first hand writings of priests knights a Jewish pilgrim a destitute noblewoman an Iraqi poet and the historian Anna Comnena Together they provide a vivid and nuanced picture of the First Crusade and the people who were swept up in it Edited with an introduction and notes by Christopher Tyerman *The History and Literature of the Crusades* Heinrich von Sybel, 1861
