Robert Frank Moving Out:

Robert Frank Robert Frank, 1994 **Moving Out: Robert Frank** Philip Brookman, Sarah Greenough, 1994 **Robert Frank : Moving Out** Robert Frank, Whitney Museum of American Art, National Gallery of Art (U.S.), 1994 Awakening the Eye George Kouvaros, 2015-09-01

Until now celebrated photographer Robert Frank's daring and unconventional work as a filmmaker has not been awarded the critical notice it deserves. In this timely volume, George Kouvaros surveys Frank's films and videos and places them in the larger context of experimentation in American art and literature since World War II. Born in 1924, Frank emigrated from Switzerland to the United States in 1947 and quickly made his mark as a photojournalist. A 1955 Guggenheim Foundation fellowship allowed him to travel across the country photographing aspects of American life that had previously received little attention. The resulting book *The Americans*, with an Introduction by Jack Kerouac, is generally considered a landmark in the history of postwar photography. During the same period, Frank befriended other artists and writers among them Allen Ginsberg, Peter Orlovsky, and Gregory Corso, all of whom are featured in his first film *Pull My Daisy*, which is narrated by Kerouac. This film set the terms for a new era of experimental filmmaking. By examining Frank's films and videos, including *Pull My Daisy*, *Me and My Brother*, and *Cocksucker Blues*, in the framework of his more widely recognized photographic achievements, Kouvaros develops a model of cross-media history in which photography, film, and video are complicit in the search for fresh forms of visual expression. *Awakening the Eye* is an insightful, compelling, and at times moving account of Frank's determination to forge a personal connection between the circumstances of his life and the media in which he works.

American Witness RJ Smith, 2017-11-07

From the author of the acclaimed *James Brown* biography *The One*, comes the first in-depth biography of renowned photographer and filmmaker Robert Frank, best known for his landmark book *The Americans*. As well known as Robert Frank the photographer, few can say they really know Robert Frank the man. Born and raised in wartime Switzerland, Frank discovered the power and allure of photography at an early age and quickly learned that the art meant significantly more to him than the money, success, or fame. The art was all, and he intended to spend a lifetime pursuing it. *American Witness* is the first comprehensive look at the life of a man who's as mysterious and evasive as he is prolific and gifted. Leaving his rigid Switzerland for the more fluid United States in 1947, Frank found himself at the red-hot social center of bohemian New York in the 50s and 60s, becoming friends with everyone from Jack Kerouac, Allen Ginsberg, and Peter Orlovsky to photographer Walker Evans, actor Zero Mostel, painter Willem de Kooning, filmmaker Jonas Mekas, Bob Dylan, writer Rudy Wurlitzer, jazz musicians Ornette Coleman and Charles Mingus, and more. Frank roamed the country with his young family, taking roughly 27,000 photographs and collecting 83 of them into what is still his most famous work, *The Americans*. His was an America nobody had seen before, and if it was harshly criticized upon publication for its portrait of a divided country, the collection gradually grew to be recognized as a transformative American vision. And then he turned his back on certain success, giving up photography to reinvent himself as a film and video maker.

Frank helped found the American independent cinema of the 1960s and made a legendary film with the Rolling Stones Today the nonagenarian is an embodiment of restless creativity and a symbol of what it costs to remain original in America his life defined by never repeating himself never being satisfied American Witness is a portrait of a singular artist and the country that he saw

Suspended Conversations Martha Langford, 2021-10-13 In *Suspended Conversations* Martha Langford shows how photographic albums tell intimate and revealing stories about individuals and families Rather than isolate the individual photograph treat albums as texts or argue that photography has supplanted memory she demonstrates that the photographic album must be taken as a whole and interpreted as a visual and verbal performance that extends oral consciousness Exhibiting a collection of photographic travelogues memoirs thematic collections and family sagas compiled between 1860 and 1960 and held by the McCord Museum of Canadian History this second edition includes a revised and expanded preface along with new photographs of the Notman albums Printed in colour throughout the enhanced material draws out the distinct nuances and details of each album giving them new life to tell their stories Albums are treasured by families collected as illustrations of the past by museums of social history and examined by scholars for what they can reveal about attitudes and sensibilities but when no one is left to tell the tale the intrigue of the album becomes a puzzle a suspended conversation Langford argues that oral consciousness provides the missing key Correlating photography and orality she explains how albums were designed to work as performances and how we can unlock their mysteries A fascinating glimpse of the preoccupations of previous centuries *Suspended Conversations* brings photography into the great conversation of how we remember and how we send our stories into the future

The Rhizomatic West Neil Campbell, 2008-12-01 Is the American West in Sergio Leone's spaghetti westerns the same American West we find in Douglas Coupland's *Generation X* In Jim Jarmusch's movies In

Calexico's music Or is the American West as this book tells us a constantly moving mutating idea within a complex global culture And what precisely or better yet imprecisely does it mean Using Gilles Deleuze and Félix Guattari's concept of the rhizome Neil Campbell shows how the West or westness continually breaks away from a mainstream notion of American rootedness and renews and transforms itself in various cultural forms A region long traversed by various transient peoples from tribes and conquerors to immigrants traders and trappers the West reflects a mythic quest for settlement permanence and synthesis even notions of a national or global identity at odds with its rootless history culture and nature Crossing the concept of roots with routes this book shows how notions of the West in representations ranging from literature and film to photography music and architectural theory give expression to ideas about identity nationhood and belonging in a world increasingly defined by movement across time and borders The Rhizomatic West offers a new vision of the American West as a hybrid performative space a staging place for myriad intersecting and constantly changing identities
