Ronald Millen, Robert Erich Wolf

Rubens Life Of Marie De Medici:

Life of Marie De' Medici Peter Paul Rubens, 1970* *Rubens' Life of Marie de Medici* Jacques Thuillier, 1970 **Heroic Deeds and Mystic Figures** Ronald Millen, Robert Erich Wolf, 1989 No previous study of Rubens pictorial biography of Maria de Medici Dowager Queen of France has analyzed in such detail each of the twenty four paintings with regard to iconography the painter's source material and his pictorial treatment Not only is each episode seen here within its historical context using documents from both Italian and French sources of the time many never before adduced in connection with the paintings but for the first time an iconographical element is studied which heretofore has been glimpsed only in passing the symbolical and allegorical emblems connected with coins medals broadsheets public ceremonies and political propaganda Rubens this book argues incorporated those cryptic images into his compositions with full awareness of their political and personal implications and did so it seems at the insistence of the patroness and her advisers These and other mystic figures offer a hitherto unsuspected key to the cycle's secret meanings The theme now appears to be not reconciliation as usually stated but a vindication of the former Florentine princess's policies as queen regent and dowager With this goes an accusation of filial ingratitude and political ineptness directed against King Louis XIII and there is an implicit painted threat to reopen armed hostilities should the uneasy truce between mother and son ever be broken Reason enough then to dissemble conceal or explain away the true meaning of the cycle when the paintings were new *A Legacy of Women* Kirsten Girio Winner, 2019 Lived experience is a critical ingredient in the creation of artistic production Without it art would indeed be dull and would lack the ability to connect with the viewer due to the unrealistic presentation of the scene This paper looks at the acclaimed Life Cycle of Marie de Medici by Peter Paul Rubens and applies an autobiographical approach in reading the paintings Rubens life experiences including an undeniably substantial influence from his mother and her life are predominantly present in this series In making this twenty four image cycle Rubens was intuitively aware that the reaction provoked by these paintings would influence the view of the French people about the Queen Mother Marie de Medici Based upon an in depth analysis between the paintings and biography it is astonishing how closely linked the Life Cycle of Marie de Medici is with the life of Rubens and his mother Maria This thesis concentrates on the close connection between the artist and his own mother which is translated into the inspiration behind this series of paintings While there does appear to be some correlations between certain specific events in the life of Marie de Medici and Rubens mother the focus for this thesis has been looking at Rubens mother as the inspirational spirit behind the depictions in this cycle and how this influence contributes to the overall theme of triumph over adversity **Rubens' Life of Marie De' Medici in the Luxembourg Palace**, 1972 **Women and Art in Early Modern Europe: Patrons, Collectors, and Connoisseurs**, 1999 This anthology reflects a larger impulse to recover women's involvement in the creation of an aesthetic culture from the late medieval through the early modern periods By asking how the perspectives and experiences of female patrons contributed to

the invention of particular styles or iconographies or how they shaped taste or how they influenced demand these twelve original essays introduce significant new information about specific women patrons while raising theoretical issues for patronage studies more generally While most of the projects discussed are consistent with the period's male sanctioned concept of female patronage as an expression of conjugal devotion or dynastic promotion at the same time the women involved devised strategies that circumvented these rules allowing them to explore the potential of art as a means of proclaiming their own identity and taste

Dynastic Marriages 1612/1615 Margaret M. McGowan, 2016-04-29 The union of the two royal houses the Habsburgs and the Bourbons in the early seventeenth century illustrates the extent to which marriage was a tool of government in Renaissance Europe and festivals a manifestation of power and cultural superiority With contributions from scholars representing a range of disciplines this volume provides an all round view of the sequence of festivals and events surrounding the dynastic marriages which were agreed upon in 1612 but not celebrated until 1615 owing to the constant interruption of festivities by protestant uprisings The occasion inspired an extraordinary range of records from exchanges of political pamphlets descriptions of festivities visual materials the music of songs and ballets and the impressions of witnesses and participants The study of these remarkable sources shows how a team of scholars from diverse disciplines can bring into focus again the creative genius of artists painters architects and costume designers musicians and poets experts in equestrianism in pyrotechnics and in the use of symbolic languages Their artistic efforts were staged against a background of intense political diplomacy and continuing civil strife and yet the determination of Marie de M dicis and her advisers and of the Duke of Lerma brought to a triumphant conclusion negotiations and spectacular commemorations whose legacy was to inform festival art throughout European courts for decades In addition to printed and manuscript sources the volume identifies ways of giving future researchers access to festival texts and studies through digitization making the book both an in depth analysis of a particular occasion and a blueprint for future engagement with digital festival resources

Antiquarianism and the Visual Histories of Louis XIV Robert Wellington, 2017-07-05 Antiquarianism and the Visual Histories of Louis XIV Artifacts for a Future Past provides a new

interpretation of objects and images commissioned by Louis XIV 1638-1715 to document his reign for posterity The Sun King's image makers based their prediction of how future historians would interpret the material remains of their culture on contemporary antiquarian methods creating new works of art as artifacts for a future time The need for such items to function as historical evidence led to many pictorial developments and medals played a central role in this Coin like in form but not currency the medal was the consummate antiquarian object made in imitation of ancient coins used to study the past Yet medals are often elided from the narrative of the arts of ancient France their neglect wholly disproportionate to the cultural status that they once held This revisionary study uncovers a numismatic sensibility throughout the iconography of Louis XIV and in the defining monuments of his age It looks beyond the standard political reading of the works of art made to document Louis XIV's history to argue that they are the results of a creative process wedded to antiquarianism an intellectual culture that provided a model for the production of history in the grand siècle

God and Nature in the Thought of Margaret Cavendish

Brandie R. Siegfried, Lisa T. Sarasohn, 2016-04-22 Only recently have scholars begun to note Margaret Cavendish's references to God spirits and the rational soul and little has been published in this regard This volume addresses that scarcity by taking up the theological threads woven into Cavendish's ideas about nature matter magic governance and social relations with special attention given to Cavendish's literary and philosophical works Reflecting the lively state of Cavendish studies God and Nature in the Thought of Margaret Cavendish allows for disagreements among the contributing authors whose readings of Cavendish sometimes vary in significant ways and it encourages further exploration of the theological elements evident in her literary and philosophical works Despite the diversity of thought developed here several significant points of convergence establish a foundation for future work on Cavendish's vision of nature philosophy and God The chapters collected here enhance our understanding of the intriguing and sometimes brilliant contributions Cavendish made to debates about God's place in the scientific cosmos
