The People's Doctor Edgar A. Porter, 1997-01-01

The young George Hatem journeyed to Shanghai in 1933 to practice medicine and see the sights The deplorable health and social conditions he found there caused his sympathies to veer quickly to the revolutionary efforts of the Chinese Communist party and before long he joined the underground Party members in conspiratorial meetings and activities In 1936 he left Shanghai on a secret Province after completing the Long March For the next 14 years Hatem served the Communist troops as physician and adviser He took the name Ma Haide and became the first foreigner admitted into China's Communist Party After the Communist victory in 1949 he became the first foreigner granted citizenship in the People's Republic Over the next 40 years his reputation grew as one of the leading public health physicians in the world Until his death in 1988 he showed absolute allegiance to the Party Few foreigners have been accepted into Chinese society as readily as he and certainly none have had such intimate access to 20th century China's most powerful figures

China's Open Door Policy Sam P. S. Ho, Ralph William Huenemann, 1984 The Open Door has become an integral part of China's economic development strategy since the late 1970s and not surprisingly it has aroused considerable interest in developed countries This book gives a sympathetic but critical survey of this policy with particular attention to the problems that have prevented the Open Door from being implemented as rapidly as first intended Placing the open door policy within a larger policy context the authors focus on debates within China over such key issues as the choice of a management system the choice between balanced and unbalanced growth and between various patterns of income distribution They deal with institutional mechanisms recently established to attract foreign technology and capital and to encourage a more flexible Chinese response to increased interdependence with capitalist economies Based on a variety of published sources and on extensive interviews conducted in China this book is an important contribution to the growing body of literature on the Chinese economy and will prove a valuable reference for foreign exporters investors policy makers and China specialists

Middle Class Shanghai Cheng Li, 2021-05-11 The United States may be headed toward a disastrous conflict with China unless Washington updates its understanding of contemporary Chinese society After four decades of engagement the United

States and China now appear to be locked on a collision course that has already fomented a trade war seems likely to produce a new cold war and could even result in dangerous military conflict The current deterioration of the bilateral relationship is the culmination of years of disputes disillusionment disappointment and distrust between the two countries Washington has legitimate concerns about Beijing's excessive domestic political control and aggressive foreign policy stances just as Chinese leaders believe the United States still has futile designs on blocking their country's inevitable rise to great power status Cheng Li's Middle Class Shanghai argues that American policymakers must not lose sight of the expansive dynamism and diversity in present day China The caricature of the PRC as a monolithic Communist apparatus set on exporting its ideology and development model is simplistic and misguided Drawing on empirical research in the realms of higher education avant garde art architecture and law this unique study highlights the strong constructive impact of bilateral exchanges Combining eclectic human stories with striking new data analysis this book addresses the possibility that the development of China's class structure and cosmopolitan culture exemplified and led by Shanghai could provide a force for reshaping U S China engagement Both countries should build upon the deep cultural and educational exchanges that have bound them together for decades The author concludes that U S policymakers should neither underestimate the role and strength of the Chinese middle class nor ostracize or alienate this force with policies that push it toward jingoistic nationalism to the detriment of both countries and the global community With its unique focus this book will enlighten policymakers scholars business leaders and anyone interested in China and its increasingly fraught relations with the United States

Edgar Snow John Maxwell Hamilton, 2003-09-25 Edgar Snow 1905-1972 was one of the most notable Western journalists to report on China in both the revolutionary and postrevolutionary periods He first became famous in the mid 1930s when he broke through a Nationalist blockade and reached the Communists in northwest China For nearly a decade no foreign reporter had seen the Communists who were widely regarded as a ragtag bandit army Snow took them seriously as a national movement His reporting in the now famous book Red Star over China was major news even to the Chinese thousands of whom joined the Communists after reading it It has remained a seminal reference on the early Chinese Communist movement In this award winning biography journalist John Maxwell Hamilton follows Snow from his birth in Kansas City to his rise as a celebrated foreign correspondent for the Saturday Evening Post his ostracism during the cold war and his role as a singular journalistic bridge between Communist China and the United States With a new preface by the author this revealing portrait of the widely misunderstood Snow firmly establishes him as a model for the kind of committed reporting that is crucial to understanding our interdependent world
