Shanghai On Strike The Politics Of Chinese Labor

Elizabeth J. Perry

Shanghai On Strike The Politics Of Chinese Labor:

Shanghai on Strike Elizabeth J. Perry, 2022 This work is an important addition to the rather limited literature on the social history of China during the first half of the twentieth century It draws on abundant sources and studies which have appeared in the People's Republic of China since the early 1980s and which have not been systematically used in Western historiography China has undergone a series of fundamental political transformations from the 1911 Revolution that toppled the imperial system to the victory of the communists all of which were greatly affected by labor unrest This work places the politics of Chinese workers in comparative perspective and a remarkably comprehensive and nuanced picture of Chinese labor emerges from it based on a wealth of primary materials It joins the concerns of new labor history for workers culture and shopfloor conditions with a more conventional focus on strikes unions and political parties As a result the author is able to explore the linkage between social protest and state formation

Shanghai on Strike Elizabeth J. Perry, 1993 This work is an important addition to the rather limited literature on the social history of China during the first half of the twentieth century It draws on abundant sources and studies which have appeared in the People's Republic of China since the early 1980s and which have not been systematically used in Western historiography China has undergone a series of fundamental political transformations from the 1911 Revolution that toppled the imperial system to the victory of the communists all of which were greatly affected by labor unrest This work places the politics of Chinese workers in comparative perspective and a remarkably comprehensive and nuanced picture of Chinese labor emerges from it based on a wealth of primary materials It joins the concerns of new labor history for workers culture and shopfloor conditions with a more conventional focus on strikes unions and political parties As a result the author is able to explore the linkage between social protest and state formation

Chinese Politics and Labor Movements Jake Lin, 2019-07-03 This book brings a radically new voice to the debate in the field of Chinese politics and labor movement Using a psychological and cognitive approach the author examines workers and activists everyday interpretation of the source of their problems their prospect of labor movements and their sense of solidarity The project shows how workers themselves have become a part of the apparatus of state repression and argues that Chinese workers have not acquired sufficient cognitive strength to become the much hoped for agent for political change which hinders labor activism from developing into a sustainable social movement Multidisciplinary in its approach the monograph provides analysis of Chinese politics labor studies international political economy social movements and contentious politics

Marxist Intellectuals and the Chinese Labor Movement Daniel Y. K. Kwan, 1997 Deng Zhongxia the organizer and leader of the Guangzhou Hong Kong General Strike of 1925-26 was one of China's foremost labor activists *Marxist Intellectuals and the Chinese Labor Movement* is the first English language examination of Deng's career and thought It extends into a wider assessment of the relationship between the Chinese labor movement and the Chinese Communist revolution considering the conflicting interests of workers and Marxist intellectuals and the differences between

local and national concerns Challenging the Mandate of Heaven Elizabeth J. Perry, 2002 Social science theories of contentious politics have been based almost exclusively on evidence drawn from the European and American experience and classic texts in the field make no mention of either the Chinese Communist revolution or the Cultural Revolution surely two of the most momentous social movements of the twentieth century Moreover China's record of popular upheaval stretches back well beyond this century indeed all the way back to the third century B C This book by bringing together studies of protest that span the imperial Republican and Communist eras introduces Chinese patterns and provides a forum to consider ways in which contentious politics in China might serve to reinforce refine or reshape theories derived from Western cases

China's Provinces in Reform David Goodman, 2002-11-01 China is a far larger and more diverse country than many people in the West realise The provinces that make up the country are considerable social economic and political systems in their own right They are comparable in size and complexity to European states China's Provinces in Reform is concerned with the impact of economic reform and social and political change within the provinces at the immediate sub central level of the People's Republic of China One of the main aims of this book is to question over generalizations about China's development in the reform era However the provincial analysis of social and political change in China also has the potential to reveal even more in a comparative perspective This is the first volume of a series and covers Guangxi Hainan Liaoning Shandong Shanghai Sichuan and Zhejiang It is part of a project conducted by the Institute for International Studies at the University of Technology Sydney that will provide the most thorough and up to date analysis of China's provinces yet published

Handbook on Human Rights in China Sarah Biddulph, Joshua Rosenzweig, 2019 This Handbook gives a wide ranging account of the theory and practice of human rights in China viewed against international standards and China's international engagements around human rights The Handbook is organised into the following sections contested meanings international dimensions economic and social rights civil and political rights rights in action and access to justice political dimensions of human rights in Greater China and new frontiers *Republican Beijing* Madeleine Yue Dong, 2003-08-04 The first

comprehensive history of Republican Beijing with a focus on social and cultural life in the city This book examines how Republican Beijing through the very processes of modernization and the material and cultural practices of recycling acquired its identity as a consummately traditional Chinese city **War and Theatrical Innovation** Victor

Emeljanow, 2017-10-14 This book examines the relationship between wartime conflict and theatre practices Bringing together a diverse collection of essays in one volume it offers both a geographically and historically wide view of the subject taking examples from Britain Australia and America to the Middle East Korea and China and spanning the fifth century BCE to the present day It explores the ways in which theatre practices have been manipulated for use in political and military propaganda such as the employment of scenographers to work on camouflage and the application of acting methods in espionage training It also maps the change in relationships between performers and audiences as a result of conflict and the

emergence of new forms of patronage during wartime theatre going boosting morale at periods when social structures and identity were being destabilized

A New Deal for China's Workers? Cynthia Estlund, 2017-01-02 China's leaders aspire to the prosperity political legitimacy and stability that flowed from America's New Deal but they are irrevocably opposed to the independent trade unions and mass mobilization that brought it about Cynthia Estlund's crisp comparative analysis makes China's labor unrest and reform legible to Western readers

Proletarian China Ivan Franceschini, Christian Sorace, 2022-06-07 In 2021 the Chinese Communist Party celebrated a century of existence Since the Party's humble beginnings in the Marxist groups of the Republican era to its current global ambitions one thing has not changed for China's leaders their claim to represent the vanguard of the Chinese working class Spanning from the night classes for workers organised by student activists in Beijing in the 1910s to the labour struggles during the 1920s and 1930s from the turmoil of the Cultural Revolution to the social convulsions of the reform era to China's global push today this book reconstructs the contentious history of labour in China from the early twentieth century to this day and beyond This will be achieved through a series of essays penned by scholars in the field of Chinese society politics and culture each one of which will revolve around a specific historical event in a mosaic of different voices perspectives and interpretations of what constituted the experience of being a worker in China in the past century Contributors Corey Byrnes Craig A Smith Xu Guoqi Zhou Ruixue Lin Chun Elizabeth J Perry Tony Saich Wang Kan Gail Hersatter Apo Leong S A Smith Alexander F Day Yige Dong Seung Joon Lee Lu Yan Joshua Howard Bo renlund Srensen Brian DeMare Emily Honig Po chien Chen Yi hung Liu Jake Werner Malcolm Thompson Robert Cliver Mark W Frazier John Williams Christian Sorace Zhu Ruiyi Ivan Franceschini Chen Feng Ben Kindler Jane Hayward Tim Wright Koji Hirata Jacob Eyferth Aminda Smith Fabio Lanza Ralph Litzinger Jonathan Unger Covell F Meyskens Maggie Clinton Patricia M Thornton Ray Yep Andrea Piazzaroli Longobardi Joel Andreas Matt Galway Michel Bonnin A C Baecker Mary Ann O Donnell Tiantian Zheng Jeanne L Wilson Ming sho Ho Yueran Zhang Anita Chan Sarah Biddulph Jude Howell William Hurst Dorothy J Solinger Ching Kwan Lee Chlo Froissart Mary Gallagher Eric Florence Junxi Qian Chris King chi Chan Elaine Sio Ieng Hui Jenny Chan Eli Friedman Aaron Halegua Wanning Sun Marc Blecher Huang Yu Manfred Elfstrom Darren Byler Carlos Rojas Chen Qiufan

Class and the Communist Party of China, 1921-1978 Marc Blecher, David S G Goodman, Yingjie Guo, Jean-Louis Rocca, Tony Saich, 2022-02-24 Examining the interaction between the Communist Party of China CCP and specific social categories including peasants workers the middle classes and the dominant class with a focus on class and class discourse this volume analyses the CCP's impact on social change in China between 1921 and 1978 By exploring the CCP's evolving discourse of class this book demonstrates that while class has retained its centrality its meaning has been re-articulated from an ideological political tool to a less meaningful signifier though always used instrumentally By examining the impact of the CCP's policies and discourse surrounding class it also reveals how its own policies since 1921 have shaped the CCP's current 2021 perspectives on class and stratification This

volume through an analysis of economic political and cultural inequalities in Chinese society even after 1949 also reveals the emergence of a diverse and often overlooked middle class in Chinese society during the 1950s Delivering a detailed analysis of how the CCP has developed its practical approaches to class and mobilization this study will be of interest to students and scholars of Chinese politics Chinese history Asian politics and Asian studies **Anyuan** Elizabeth Perry,2012-10-01 How do we explain the surprising trajectory of the Chinese Communist revolution Why has it taken such a different route from its Russian prototype An answer Elizabeth Perry suggests lies in the Chinese Communists creative development and deployment of cultural resources during their revolutionary rise to power and afterwards Skillful cultural positioning and cultural patronage on the part of Mao Zedong his comrades and successors helped to construct a polity in which a once alien Communist system came to be accepted as familiarly Chinese Perry traces this process through a case study of the Anyuan coal mine a place where Mao and other early leaders of the Chinese Communist Party mobilized an influential labor movement at the beginning of their revolution and whose history later became a touchstone of political correctness in the People s Republic of China Once known as China s Little Moscow Anyuan came over time to symbolize a distinctively Chinese revolutionary tradition Yet the meanings of that tradition remain highly contested as contemporary Chinese debate their revolutionary past in search of a new political future

Insurgency Trap Eli Friedman,2014-05-08 During the first decade of the twenty first century worker resistance in China increased rapidly despite the fact that certain segments of the state began moving in a pro labor direction In explaining this Eli Friedman argues that the Chinese state has become hemmed in by an insurgency trap of its own devising and is thus unable to tame expansive worker unrest Labor conflict in the process of capitalist industrialization is certainly not unique to China and indeed has appeared in a wide array of countries around the world What is distinct in China however is the combination of postsocialist politics with rapid capitalist development Other countries undergoing capitalist industrialization have incorporated relatively independent unions to tame labor conflict and channel insurgent workers into legal and rationalized modes of contention In contrast the Chinese state only allows for one union federation the All China Federation of Trade Unions over which it maintains tight control Official unions have been unable to win recognition from workers and wildcat strikes and other forms of disruption continue to be the most effective means for addressing workplace grievances In support of this argument Friedman offers evidence from Guangdong and Zhejiang provinces where unions are experimenting with new initiatives leadership models and organizational forms

Understanding Chinese Society Norman Stockman,2013-07-08 This new book provides an accessible and wide ranging introduction to the main features of Chinese society Drawing on a wealth of material the author offers a fresh understanding of a unique society that has undergone continuous transformation and upheaval throughout the twentieth century Understanding Chinese Society looks in all its richness at the society with the largest population on earth In order to explore long term change and continuity the book examines China from pre revolutionary times to today s rapidly modernising

society although the focus is on recent change Particular attention is paid to China's cultural traditions and hierarchical relationships in familial and wider social settings and their fate in the modern world Successive chapters investigate changes in the relations of rural and urban sectors of society in the structure of families in political and economic power in cultural hegemony education and the media and in patterns of social inequality A final chapter asks whether Chinese society is becoming more complex and differentiated in the course of modernisation and considers recent debates on the growth of civil society and democratisation This book will be indispensable for anyone studying Chinese society Asian societies and comparative sociology

China in War and Revolution, 1895-1949 Peter Zarrow, 2006-06-07 Providing historical insights essential to the understanding of contemporary China this text presents a nation's story of trauma and growth during the early twentieth century It explains how China's defeat by Japan in 1895 prompted an explosion of radical reform proposals and the beginning of elite Chinese disillusionment with the Qing government The book explores how this event also prompted five decades of efforts to strengthen the state and the nation democratize the political system and build a fairer and more unified society Peter Zarrow weaves narrative together with thematic chapters that pause to address in depth themes central to China's transformation While the book proceeds chronologically the chapters in each part examine particular aspects of these decades in a more focused way borrowing from methodologies of the social sciences cultural studies and empirical historicism Essential reading for both students and instructors alike it draws a picture of the personalities ideas and processes by which a modern state was created out of the violence and trauma of these decades

Red Silk Robert Cliver, 2021-02-01 Red Silk is a history of China's Yangzi Delta silk industry during the wars crises and revolutions of the mid twentieth century Based on extensive research in Chinese archives and focused on the 1950s the book compares two very different groups of silk workers and their experiences in the revolution Male silk weavers in Shanghai factories enjoyed close ties to the Communist party state and benefited greatly from socialist policies after 1949 In contrast workers in silk thread mills or filatures were mostly young women who lacked powerful organizations or ties to the revolutionary regime For many filature workers working conditions changed little after 1949 and politicized production campaigns added a new burden within the brutal and oppressive factory regime in place since the nineteenth century Both groups of workers and their employers had to adapt to rapidly changing circumstances Their actions protests petitions bribery tax evasion compelled the party state to adjust its policies producing new challenges The results though initially positive for many were ultimately disastrous By the end of the 1950s there was widespread conflict and deprivation among silk workers and despite its impressive recovery under Communist rule the industry faced a crisis worse than war and revolution

The Chinese Worker After Socialism William Hurst, 2009-03-05 This fascinating study considers the fate of 35 million workers laid off from the state owned sector in China

Global Labour History Jan Lucassen, 2008 Contains 18 essays on worldwide aspects and comparisons in labour history Covers mainly the period from the beginning of 19th century

to 2000 **Live Working Or Die Fighting** Paul Mason, 2010 This is micro historical writing at its best Walden Bello author of *Dilemmas of Domination* Brilliant Ken Loach The stories in this book come to life through the voices of remarkable individuals child laborers in Dickensian England visionary women on Parisian barricades gun toting railway strikers in America's Wild West and beer swilling German metalworkers who tried to stop World War I It is a story of urban slums self help cooperatives choirs and brass bands free love and self education by candlelight And as the author shows in the developing industrial economies of the world it is still with us *Live Working or Die Fighting* celebrates a common history of defiance idealism and self sacrifice one as alive and active today as it was two hundred years ago It is a unique and inspirational book Paul Mason is an award winning journalist who reports regularly on labor rights and social justice stories as economics editor for BBC World News America and BBC Newsnight In addition to *Live Working or Die Fighting* which was shortlisted as a 2007 Guardian First Book Award Mason is the author of *Meltdown The End of the Age of Greed* Verso Books
