**Shankara's Universal Philosophy of Religion** Yakub Masih, 1987 Description The contention of Shankara's Universal Philosophy of Religion is that man of his very nature has to be concerned with what he considers to be his supreme reality But the supreme reality is unknown and unknowable Hence man is thrown into a predicamental situation of knowing the unknowable This absurd situation has given rise to the doctrines of analogia entis St Thomas Aquinas symbolology Paul Tillich and picture theories of R B Braithwaite and Wittgenstein But the conclusion of the present author is that even now Shankara is ahead of the stalwart epoch making thinkers mentioned above

*A Comparative Study of Religions* Y. Masih, 2013-01-01 A Comparative Study of Religions has been written by a scholar who has occupied himself with the subject of religion for over fifty years But no finality can be claimed the reason is that religion deals with what is transcendent in the sense that it deals with what man is going to be Advaitism terms this futuristic end as becoming Brahman Jainism as regaining one's pristine glory theists as becoming good fit for heaven However Bergson and other evolutionists would say that religion is a collective and cooperative effort of men to become gods This simply means the divinising of man what Aurobindo calls supermind They refer to a state beyond human ills beyond human infatuation and beyond the befogging of human intellect This is known in Jainism as sarvajnata One thing is clear that fighting with other human beings in the name of religion is subhuman As religious men we are fellow travellers in the direction of the realm of spirit Here the nomenclature of Hindus Muslims Christians etc ceases to be meaningful Of course we have to go very far and we have not made any beginning yet However at present the advaitic principle of differences Brahman can serve the purpose of harmonizing all religions Here we have adopted this principle Secondly the key concepts of different religions have been shown to mingle with one another

*A Critical History of Western Philosophy* Y. Masih, 1999 This is the enlarged edition of a Critical History of Modern Philosophy In this new edition Greek and Medieval Philosophies have been added The book also includes a critical and comparative account of the major contributions of eight modern thinkers To this exposition the idealism of Hegel and Bradley has been introduced Recent discussions concerning Hume Kant Hegel and Bradley have also been incorporated

Whilst giving fully an analytic account of topics the author maintains that philosophy is a holistic enterprise of man as we find it in Spinoza Kant Hegel and Bradley The book has turned out to be a reliable and useful to the students of the subject throughout India This thoroughly revised and enlarged edition will prove to be all the more serviceable in general

Krsna and Christ Steven Tsoukalas,2011-09-01 This work compares the Krsnavatara Krsna in his avatara doctrines of Sankara and Ramanuja and the incarnation of Christ as represented by classical Christian orthodoxy and draws out comparative theological and soteriological implications It does so first by examining the epistemologies theologies and world views of Sankara and Ramanuja and the theology and world view of classical Christian orthodoxy so that second an adequate foundation and subsequent thorough representation of avatara and incarnation might be accomplished in order that third accurate comparisons may be drawn between avatara and incarnation The result of this study is a demonstration that many of the popularly held similarities between avatara and incarnation are superficial and that therefore careful consideration of epistemologies and ontologies should be undertaken when comparing theologies and soteriologies pertinent to avatara and incarnation

**The Role of Divine Grace in the Soteriology of Śaṅkarācārya** Malkovsky,2018-08-14 This volume examines the role of divine grace in the non dualist soteriology of a kara The author argues that grace is an essential but generally overlooked feature in a kara s enlightenment spirituality Introductory chapters summarize recent developments in a kara research a kara s epistemology and ontology ancient Ved ntic teachings on grace and modern scholarly disagreement about grace in a kara s Advaita system The heart of the book consists of two lengthy exegetical chapters examining a kara s key passages on grace from his dozen genuine works The final chapter presents for the first time a systematic summary of a kara s understanding of the operation and necessity of divine grace This book provides a useful summary of a kara s system as a whole besides offering a radical revision of the standard understanding of a kara s soteriology It also reveals that a kara was much more indebted in his thinking to his Vedantic predecessors than had hitherto been thought

Swami Vivekananda's History of Universal Religion and Its Potential for Global Reconciliation Sister Gayatriprana,2020-09-01 This book presents in the words of Swami Vivekananda 1863 1902 a history of Vedanta the deep exploration of the inner human world going back to the most ancient rishis or seers whose testimony is still revered in India He traces the tradition up to the beginning of the twentieth century showing how the

dynamics of social structures within Vedanta and the appearance from within Vedanta of traditions such as Jainism Buddhism Hinduism and Sikhism influenced and molded the tradition In addition he studies the impact of the Western Abrahamic invasions of India that began around the eleventh century CE These brought to bear on Vedanta a worldview which operated on the assumption that the physical world was the primary reality and that the kind of radical exploration of the inner world embraced by Vedanta was highly suspect and not valid The Vedantic tradition adapted in many different ways producing a variety of philosophical positions that are still extant today Along with these traditions went various forms of yoga or self transformation in Vedanta the key to experiencing the inner meaning of not only philosophy but also of our human condition and of reality itself This tradition presents four contexts of experience chatushpad suggesting the right brain mode of approach as described by Iain McGilchrist 2009 Under the influence of Shri Ramakrishna 1836 1886 Vivekananda gained access to vijnana or a knowledge higher than those classically described and known in the chatushpad Vijnana permitted the acceptance of not only the traditional deeply experiential truths of Vedanta but also of the validity of Western materialism when seen as related to each other on a continuum of consciousness to be traversed by contemporary forms of yoga I see the result as a resolution of right left brain conflict la McGilchrist and thereby a model for universal human understanding conciliation and co operation In my introduction I attempt to show how the whole picture can be related both experientially and conceptually to matrices of consciousness developed in India as far back as the early medieval period A large glossary and index cum concordance indicate the various contexts and depths of thought that emerge from Vivekananda s multi contextual vijnana
