Shaping a Theological Mind Darren C. Marks, 2017-07-05 Rarely do theological thinkers have the opportunity to present their own self understanding of both their context and their methodology and the inter relation of the two This book gives leading theological minds from North America Great Britain and Europe an opportunity to explore the shaping of their theological minds in regard to context and methodology Asking why theology each contributor explores their sense of call to the Christian faith the purpose of their theological journey and reflects on his or her context and theology Cutting across denominational gender disciplinary international and generational boundaries to explore shifts in theology and methodology this book provides a diagnostic tool for examining where theology has come from and a compass to where theology is headed Contributors include James H Cone Edward Farley Colin E Gunton Alister E McGrath Wayne A Meeks John Milbank Jürgen Moltmann Gerald O Collins Rosemary Radford Ruether Kathryn Tanner Keith Ward and John Webster **Shaping a Global Theological Mind** Darren C. Marks, 2008 Theological thinkers are placed into contexts which inform their theological tasks but that context is usually limited to a European or North American centre usually ignoring minorities and lesser mainstream theologies even in that context This work focuses on the shift of Christian theological thinking from the North Atlantic to the Global South even within the North Atlantic Church and Academy It gives a Global perspective on theological work method and context Theologians from North America Great Britain and Europe Africa Asia Central and South America comment on how their specific context and methodology manifests organizes and is prioritized in their thought so as to make Christian theology relevant to their community By placing the Global South alongside the newly emerging presence of non traditional Western forms such as Pentecostal Aboriginal and Hispanic theologies and theologians a clearer picture of how Christian theology is both enculturated and still familial is offered Colin Gunton's Trinitarian Theology of Culture Andrew Picard, 2024-06-27 Whilst upholding some of the criticisms of Colin Gunton's work this incisive book argues that there is a Hauptbriefe in Gunton reception that assumes his early classic works *The One the Three and the Many* and *The Promise of Trinitarian Theology* 1st ed are definitive of his project and fail to engage adequately with the progressions in Gunton's later thought Instead this book offers a fresh reading of Gunton by giving greater prominence to his later writings which are centred in the mediation of the Son and the Spirit in creation Andrew Picard argues that Gunton's trinitarian theology of culture emerges from his later trinitarian theology of mediation

creation Christology pneumatology and ecclesiology Exploring these doctrinal foci enables an understanding of Gunton's account of faithful human culture as embodied worship a living sacrifice of praise which contributes to the divine redemption and perfection of creation It is the church's particular calling to embody such praise through its visible life in community The study concludes by intersecting Gunton's theology with the social sciences to critique ableism and consider the politics of the church's belonging in community

T&T Clark Handbook of Colin Gunton Andrew Picard, Murray Rae, Myk Habets, 2021-01-14 The T T Clark Handbook of Colin Gunton is a theological companion to the study of Gunton's theology and a resource for thinking about Gunton's importance in modern theology Each of the essays brings Gunton's depth to a broad range of contemporary theological concerns The volume unveils cutting edge Gunton scholarship for a new generation and at the same time enables readers to see the timely significance of Gunton today Each of the essays not only introduces readers to key themes in the Gunton corpus but also provides readers with fresh interpretations that are fully conversant with the contemporary theological problems facing the church Designed as both a guide for students and a reference point for scholars the companion seeks both to outline the frameworks of key Gunton debates while at all times pushing forward fresh interpretative strategies concerning his thought

Webster's theology might have unfolded had he lived longer and imagines the continuing influence of his work on the enterprise of Christian dogmatics. Readers hoping to understand the legacy of this great theologian and also those eager for fresh insights into the present state and future trajectories of contemporary Protestantism will find much to offer here.

The New Cambridge History of the Bible: Volume 4, From 1750 to the Present John Riches, 2015-04-13 This volume examines the Bible's role in the modern world beginning with a treatment of its production and distribution that discusses publishers, printers, text critics and translators and continuing with a presentation of new methods of studying the text that have emerged including historical, literary, social, scientific, feminist, postcolonial, liberal and fundamentalist readings. There is a full discussion of the changes in understandings of and approaches to the Bible in various faith communities. The dissemination of the Bible throughout the globe has also produced a host of new interpretations and this volume provides a comprehensive geographical survey of its reception. In the final chapters the authors offer a thematic overview of the Bible in relation to literature, art, film, science and other disciplines. They demonstrate that in spite of challenges to the Bible's authority in western Europe it remains highly relevant and influential, not least in the Americas, Africa and Asia.

Perspectives on Ecclesiology and Ethnography Pete Ward, 2012-03-15 Within the disciplines of religious studies, systematic theology and practical theology, there exists a divide between empirical and theological analyses of the church. Each volume in the cross-disciplinary series *Studies in Ecclesiology and Ethnography* attempts to address this gap by exploring the methodological and substantive issues that arise from both theological and empirical studies of the church's practices and social reality. *Perspectives on Ecclesiology and Ethnography*, the inaugural volume in the series, proposes that if theology is to regain its relevance to the church today, theologians must utilize ethnographical tools in order to provide more accurate, disciplined research that is situated in real contexts. Using ethnography in its broadest sense, encompassing any form of qualitative research, this volume proposes that the church is both theological and social/cultural, which implies the need for a methodological shift for researchers in theology. Contributions from twelve scholar-practitioners lead the way forward. Contributors: Luke Bretherton, Paul S. Fiddes, Nicholas M. Healy, Mary McClintock Fulkerson, Alister E. McGrath, Richard R. Osmer, Elizabeth Phillips, Christian Scharen, John Swinton, Pete Ward, Clare Watkins, John Webster. *T&T Clark Handbook of John Owen*, 2022-04-21 Evaluating the writings of one of the most significant religious figures in early modern England, this volume summarizes Owen's life, explores his various intellectual, literary and political contexts, and considers his roles as a preacher, administrator, polemicist and theologian. It explores the importance of Owen, reviews the state of scholarship and suggests new avenues for research. The first part of the volume offers brand new assessments of Owen's intellectual formation, pastoral ministry, educational reform at Oxford, political connections in the Cromwellian revolution, support of nonconformity during the Restoration, interaction with the scientific revolution and understanding of philosophy. The second part of the volume considers Owen's prolific literary output. A cross-section of well-known and frequently

neglected works are reviewed and situated in their historical and theological contexts The volume concludes by evaluating ways that Owen scholarship can benefit historians theologians biblical scholars ministers and Christian readers **John Webster** Jordan Senner,2021-12-16 Jordan Senner captures the systematic shape logic and development of his thought from the vantage point of the God creature relation Webster s development is depicted in terms of three phases Christocentric Trinitarian and Theocentric culminating in a conceptual analysis of three key aspects of his mature theology his doctrine of divine perfection theory of mixed relations and concept of dual causality Senner illustrates this heuristic framework for interpreting Webster s theology through an exploration of different aspects of his account of the God creature relation Christology hypostatic relation ecclesiology redemptive relation bibliology communicative relation and theological theology rational relation This volume not only provides a dynamic introduction to Webster s theology as a whole but it also includes fascinating forays into the complexities of Webster s engagement with Barth and Aquinas raising interesting questions for constructive theological dialogue that is neither straightforwardly Protestant nor Catholic *Trinity and Humanity* Uche Anizor,2018-02-27 Colin Gunton is regarded by many as one of the most important English theologians of the twentieth century A prolific writer and creative thinker Gunton taught at King s College London for over thirty years until his untimely death in 2003 In this first single authored introduction to Gunton s theology Uche Anizor traces the key theological themes major contributors and criticisms of his work Each chapter provides a synthesis and overview of Gunton s thought on a particular doctrine or set of doctrines calling attention to the Trinitarian shape of his theology In *Trinity and Humanity* Anizor provides a handy entr e into the corpus of this major thinker *How to Read Theology for All Its Worth* Karin Stetina,2020-09-15 The Guide You Need to Read Theology Well Too many Christians avoid reading theology for fear they won t understand it or out of a misconception that it s only meant for the academic elite Similarly students in introductory theology classes can feel overwhelmed by the concepts and terminology they encounter Yet theology can be read with enjoyment and discernment In *How to Read Theology for All Its Worth* professor author and devoted reader Karin Stetina introduces students to the basic skills of intelligent reading applied especially to theological works Anyone who d like to read theology well whether a formal student or interested layperson will benefit from the simple steps Stetina outlines Steps include Identifying genre Becoming acquainted with the author and the context out of which he or she wrote Determining a thesis and main arguments *How to Read Theology for All Its Worth* will equip readers not only to understand theology but also to insightfully engage authors ideas With the basic tools in hand everyone can read with confidence and enjoy conversations with theological works **Comparative Philosophy Today and Tomorrow** Geoff Ashton,Joshua P. Kimber,Sarah A. Mattice,2009-03-26 Whether it be the China of Confucius or the Germany of Jurgen Moltmann premodern India or the World Trade Organization philosophy has brought us face to face with the pressing issues of our times More often than not these inquiries have stimulated creative responses to the opportunities and problems that shape our

experiences But the responsiveness of inquiry to its respective concerns can only grow according to the dimensions of the conversation underwriting the inquiry itself With its comparative and interdisciplinary approach *Comparative Philosophy Today and Tomorrow* Proceedings from the 2007 Uehiro CrossCurrents Philosophy Conference creates a space for juxtaposing philosophical views on shared themes thereby stimulating fresh insight into issues of contemporary significance From self cultivation to global justice from environmental ethics to the interrelation of religion and science this collection of essays highlights the central role of philosophy and comparative philosophy in particular for understanding and appreciating the connections and discontinuities of East and West if you will of past present and future ***Witness to Dispossession*** Tom Beaudoin, 2008 Tom Beaudoin's first book *Virtual Faith* celebrated the spiritual quest of Generation X and established his reputation as one of the most astute critics of contemporary faith and culture In this collection of essays he reflects on the task and purpose of theology in a postmodern age From the enterprise of teaching to a critical engagement with popular culture and an exploration of the meaning of Christian life Beaudoin explores his own vocation and the struggle to keep the faith ***The Culture of Theology*** John Webster, 2019-10-15 John Webster one of the world's leading systematic theologians published extensively on the nature and practice of Christian theology This work marked a turning point in Webster's theological development and is his most substantial statement on the task of theology It shows why theology matters and why its pursuit is a demanding but exhilarating venture Previously unavailable in book form this magisterial statement now edited and critically introduced for the first time presents Webster's legendary lectures to a wider readership It contains an extensive introductory essay by Ivor Davidson ***Human Being and Vulnerability*** Joseph Sverker, 2020-11-24 Joseph Sverker explores the division between social constructivism and a biologist essentialism by means of Christian theology For this Sverker uses a fascinating approach He lets critical theorist Judith Butler psycholinguist Steven Pinker and systematic theologian Colin Gunton interact While theology plays a central part to make the interaction possible the context is also that of the school and the effect of institutions on the pupil as a human being and learner In order to understand what underlies the division between nature and nurture or biology and the social in school Sverker develops new central concepts such as a kenotic personalism a weak ontology of relationality and a relational and performative reading of evolution He argues that most fundamental for what it is to be human is the person vulnerability bodiliness openness to the other and dependence Sverker concludes that the division between constructivism and essentialism discloses a deeper divide namely that between fundamentally vulnerable persons on the one hand and constructed independent individuals on the other
