Orientalism and Imperialism Andrew Wilcox, 2018-07-12 Using the work of Edward Said as a point of departure this book dissects the concept of Orientalism through the lens of 19th century missionary impressions of Kurdistan Wilcox argues that dominant interpretations of Said's work have a tendency to present Orientalism as an essentialist practice and instead offers an alternative manifestation in which the Oriental is perceived as the mutable product of cultural forces The relationship between missionaries and imperialism has long been a contentious issue with many scholars highlighting their apparent ambiguity This study reveals how Protestant missionaries can be identified as anti imperialist in their rhetoric of ecumenical independence yet through their preconceptions of Oriental inferiority they contributed to a more subtle undermining of local forms of knowledge and identity Wilcox argues that this apparent ambiguity is in part a consequence of the ways in which the term imperialism is frequently used to allude to diverse and even contradictory meanings therefore it is not so much the missionaries who are ambiguous as the ways in which they are judged by today's multivalent standards The analysis also makes clear the complex discursive processes which can undermine the actions of altruistic individuals By drawing threads from this 19th century example into the current

geopolitical foreground of Middle East West relations this book not only sheds light upon a little known historical case study but also illuminates larger questions of the present and future encouraging a more vigorous examination of contemporary Orientalist prejudices

**The Clergy and the Modern Middle East** Mohammad R.

Kalantari, 2021-09-23 The Shi i clergy are amongst the most influential political players in the Middle East For decades scholars and observers have tried to understand the balance of power between Shi i quietism and activism The book is based on exclusive interviews with high profile Shi i clerics in order to reveal how the Shi i clerical elite perceives its role and engages in politics today The book focuses on three ground breaking events in the modern Middle East the 1979 Islamic Revolution in Iran the 2003 Iraq War and the 2006 July war in Lebanon By examining the nature and evolution of a Shi i clerical network the book finds that far from there being strategic differences between quietest and activist clerics Shi i mujtahid statesmen matured from 1979 in Iran to 2003 Iraq by way of a pragmatism which led to a strong form of

transnational and associated whole in Lebanon in 2006 In doing so the book breaks down the established and misleading dichotomisation of the Shi'i clergy into quietists and activists and discovers that the decision of Shi'i clerical elites to become politically active or to stay out of politics are attributable to their ability to adapt to their political environments
