Laub, Robert J. Sampson, 2006-03-31 This book analyzes newly collected data on crime and social development up to age 70 for 500 men who were remanded to reform school in the 1940s Born in Boston in the late 1920s and early 1930s these men were the subjects of the classic study

Unraveling Juvenile Delinquency by Sheldon and Eleanor Glueck 1950 Updating their lives at the close of the twentieth century and connecting their adult experiences to childhood this book is arguably the longest longitudinal study of age crime and the life course to date John Laub and Robert Sampson's long term data combined with in depth interviews defy the conventional wisdom that links individual traits such as poor verbal skills limited self control and difficult temperament to long term trajectories of offending The authors reject the idea of categorizing offenders to reveal etiologies of offending rather they connect variability in behavior to social context They find that men who desisted from crime were rooted in structural routines and had strong social ties to family and community By uniting life history narratives with rigorous data analysis the authors shed new light on long term trajectories of crime and current policies of crime control

Cullen, Cheryl Lero Jonson, Andrew J. Myer, Freda Adler, 2011 The essays contained in this book capture the stories behind the invention of criminology s major theoretical perspectives and preserves information from the generation that defined the field for the past decades that otherwise would have been lost This history shows criminology to be a human enterprise Its ideas were not driven primarily by data nor were the theories invented solely as part of the scientific process To the contrary American criminology s great theories most often preceded the collection of data they guided and produced empirical inquiry not vice versa This volume demonstrates that humanity is what makes theory possible in that diverse experiences allow individual scholars to see the world differently and thus shape theoretical paradigms based on their own unique life stories

guide these students to a guick one stop source In response SAGE Reference is publishing the two volume Encyclopedia of Criminological Theory available in both print and electronic formats This serves as a reference source for anyone interested in the roots of contemporary criminological theory Drawing together a team of international scholars it examines the global landscape of all the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and figures Coverage will include contexts and concepts in criminological theory the social construction of crime policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory Crime and the Lifecourse Michael L.
