experts at ABC CLIO US Special Forces and Counterinsurgency in Vietnam Christopher K. Ives, 2007-01-24 This volume examines US Army Special Forces efforts to mobilize and train indigenous minorities in Vietnam Christopher K Ives shows how before the Second Indochina War the Republic of Vietnam had begun to falter under the burden of an increasingly successful insurgency The dominant American military culture could not conform to President Kennedy's guidance to wage small wars while President Diem's provincial and military structures provided neither assistance nor security The Green Berets developed and executed effective counterinsurgency tactics and operations with strategic implications while living training and finally fighting with the Montagnard peoples in the Central Highlands Special Forces soldiers developed and executed what needed to be done to mobilize indigenous minorities having assessed what needed to be known Combining Clausewitz business theory and strategic insight this book provides an important starting point for thinking about how the US military should be approaching the problems of today's small wars US Special Forces and Counterinsurgency in Vietnam will be of much interest to students of the Vietnam War Special Forces operations military innovation and strategic theory in general *Missions and Conversions* T. Pearson, 2009-06-22 This study offers a fresh reading of religious conversion by analyzing a variety of missionaries that sought to influence the Montagnard Dega refugee Thomas Pearson uses ethnographic and archival research to tell the story of cross cultural contact in the highlands during the Vietnam War Christian conversion refugee exile and the formation of the Dega refugee community in the United States His insightful study considers not just evangelicals and Catholics but humanitarian workers in the highlands refugee resettlement volunteers in the United States and the American Special Forces soldiers This book makes the case that the Dega have appropriated the anthropological and religious discourses of this disparate group of missionaries to recreate themselves through a multivalent conversion

Mon-Khmer: Peoples of the Mekong Region Ronald D. Renard, Kr. Anchalee Singhanetra Renard, 2015-03-01 The Mon Khmer project took a long journey before it was turned into a final product the first comprehensive collection of articles on Mon Khmer peoples of the Mekong Region The project was started in 2001 by the first editor of the book Dr Ronald D Renard who unfortunately did not see the final product of his valuable work During 1995 1996 Dr Ron Renard as the manager of the UNDP Highland People project and I travelled to Northeast Cambodia Vietnam and Laos to explain to representatives of ethnic communities the aim of the project and how the ethnic minorities many of whom are Mon Khmer could be involved and benefit from it It may well be that this encounter with these ethnic groups made him expand his intellectual interest to study them in addition to the Karen in Thailand whose history of integration into the Siamese state he had studied for his dissertation completed in 1980 According to my last conversation with Ron it was during the time when he worked for the Journal of Siam Society in the late 1990s that he decided to embark upon the Mon Khmer project which preoccupied the last part of his academic life *Doing "Gong Culture"* Hoai Tran, 2022 This book shows how the efforts of various actors in doing Gong culture contribute to preserving the intangible heritage of ethnic minorities in the Central Highlands of Vietnam Tran's

research challenges the conventional perspective that views heritagization as a process of cultural appropriation in which local heritage practitioners become cultural proprietors who in UNESCO's view differ from culture carriers. He shows that local artists actively engage with other actors in the heritage community thus contributing to the performance of a living image of the Space of Gong Culture on the heritage stage. In this intangible cultural heritage practically all actors are culture carriers. Drawing on long term fieldwork and placing the focus on human interaction, Hoai Tran paints a very subtle and sophisticated picture of the heritage community and its actors in Vietnam's central highlands. By investigating who is acting in and on the space of gong culture with what motivations, interests, intents or desires, how they are doing so and how effectively, this book arrives at new ways of thinking about heritagization in Vietnam. Window on a War Gerald Cannon Hickey, 2002. When Gerald Hickey went to Vietnam in 1956 to complete his Ph.D. in anthropology, he didn't realize he would be there for most of the next eighteen years through the entire Vietnam War. After working with the country folk of the Mekong Delta for several years, in 1963 Hickey was recruited by the Rand Corporation which was contracted by the U.S. government to study and report on the highland tribes. From the buildup to war when mountain tribespeople still lived in longhouses and cut and burned brush to clear fields for rice to near the end of the conflict when he sailed away from Vietnam on the S.S. Idaho, Gerald Hickey experienced it all. He lived through the horrible Viet Cong night attack on the Nam Dong Special Forces Camp in July 1964 and he survived the full scale battle at Ban Me Thuot during Tet 1968. Worst, he witnessed the decline of the mountain people from proud highlanders to refugees from a war none of them wanted and few understood. Hickey became respected by all parties as a fair intermediary between the highlanders, the American mission and to some extent the Saigon government. His understanding of the montagnards and his representation of their interests helped to resolve their conflict with Saigon in 1965 and assured their alliance with U.S. forces through the rest of the war. These are his experiences told with the calm yet deep emotion of a man who invested a major portion of his life and career in the events of the war and with the people among whom he lived and worked. His is a unique viewpoint and one to which we should attend. Hickey's studies of these independent, brave and misunderstood people provide the scholarly record. This fine book expresses his devotion and his despair at their inevitable and often cruel assimilation. Douglas Pike.

Frontier Livelihoods Sarah Turner, Christine Bonnin, Jean Michaud, 2015-05-01. Do ethnic minorities have the power to alter the course of their fortune when living within a socialist state? In *Frontier Livelihoods*, the authors focus their study on the Hmong known in China as the Miao in the Sino-Vietnamese borderlands, contending that individuals and households create livelihoods about which governments often know little. The product of wide-ranging research over many years, *Frontier Livelihoods* bridges the traditional divide between studies of China and peninsular Southeast Asia by examining the agency, dynamics and resilience of livelihoods adopted by Hmong communities in Vietnam and in China's Yunnan Province. It covers the reactions to state modernization projects among this ethnic group in two

separate national jurisdictions and contributes to a growing body of literature on cross border relationships between ethnic minorities in the borderlands of China and its neighbors and in Southeast Asia more broadly
