

Shattered Assumptions (Janoff-Bullman)

The experience of trauma shatters two basic assumptions about the self and the world:

- *The belief in personal invulnerability or immortality*
- *The belief that the world is a meaningful and orderly place, and that events happen for a reason*
- Violence, shatters a third belief: the trust that other human beings are fundamentally benign.

These 3 assumptions (or illusions) allow people to function effectively & to relate to others. After trauma, individuals are left feeling vulnerable, helpless and out of control in a world that is no longer predictable.

Shattered Assumptions:

Shattered Assumptions Ronnie Janoff-Bulman, 2010-06-15 This book investigates the psychology of victimization. It shows how fundamental assumptions about the world's meaningfulness and benevolence are shattered by traumatic events and how victims become subject to self-blame in an attempt to accommodate brutality. The book is aimed at all those who for personal or professional reasons seek to understand what psychological trauma is and how to recover from it. **Trauma and Its Wake: The study and treatment of post-traumatic stress disorder** Charles R. Figley, 1985 **Loss of the Assumptive World** Jeffrey Kauffman, 2013-05-13 The assumptive world concept is a psychological principle of the conservation of human reality or culture; it is a lens for seeing the psychological disturbances that occur in times of change. In this collection, the authors examine the assumptive world from diverse theoretical perspectives, providing the reader with an array of different viewpoints illuminating the concept and its clinical usefulness. *Shattered Assumptions* Ronnie Janoff-Bulman, 1990 *Sites of Violence, Sites of Grace* Cynthia Hess, 2008-12-16 Cynthia Hess offers a thoughtful reconstruction of Christian nonviolence through an examination of both theological and theoretical works. She shows how contemporary understandings of violence and the human person challenge traditional views of nonviolence as pacifism and the refusal of military violence. Hess begins with an analysis of the extensive writings on nonviolence by John Howard Yoder, one of the foremost twentieth-century thinkers on this subject. She then seeks to deepen his view by probing the insights of trauma scholars who explore the powerful and lasting effects of traumatic violence on individuals and communities. These scholars often maintain that many survivors continue to hold the reality of traumatic violence within their bodies and minds so that it becomes part of them as they move through time. In light of this claim, Hess argues that Christian nonviolence must move beyond pacifism to directly address the problem of internalized violence. In conversation with resources in Yoder's work as well as feminist theory and trauma studies, she analyzes an often overlooked dimension of religious nonviolence: the creation of communities in which traumatized persons can survive and flourish. With its highly interdisciplinary character, this book presents a fresh perspective on Christian nonviolence that not only challenges traditional views but also reclaims the centrality of nonviolence for contemporary Christian theology and practice. *Give Sorrow Words* John H. Harvey, 2016-03-23 Throughout our lives, we are influenced by the sensation of loss. Whether implicit or obvious, the impact of this sense of loss affects our daily thinking and behavior. This new text provides a comprehensive introduction to the study of loss via exploration into three major types of loss: loss of important relationships (divorce or perhaps the dissolution of important relationships and friendships), losses that damage who we are (our self-esteem), loss of employment and losses resulting from victimization (being the target of violence or prejudice), loss of home in a natural disaster. Students of sociology, theology, and family studies will find this text of key interest. Moreover, professionals in these fields, including the fields of trauma and loss, will appreciate the thorough literature review, practical language, clinical interventions, and case highlights.

The Language of Battered Women Carol L. Winkelmann,2012-02-01 Winner of the 2005 Outstanding Book Award presented by the Organization for the Study of Communication Language and Gender OSCLG This study of battered women living in a shelter offers a rhetorical analysis of survivors personal theologies Author Carol L Winkelmann holds that while it is virtually ignored in the domestic violence literature the Christian heritage of many battered women plays a significant if complicated role in their language thoughts and lives The women s religious faith serves not only to sustain them through periods of profound suffering but also to develop solidarity with other culturally different women in the shelter Designed to assist women to greater independence the shelter actually functions as a culture of surveillance where women turn to one another and to their faith to cope with the trauma of violence To heal the women engage in dialogue that is dense in religious imagery talking about the relationship of God and the church to suffering and evil At the same time these women also acknowledge that organized religion is very much involved in the maintenance of patriarchal marriage and its attendant abuses in their own lives Together battered women are sometimes able to construct creative theological responses to the problem of suffering and evil A mix of religious and secular languages compels them to devise new ways of thinking about their role in family church and society
