Redrawing the Historical Past Martha J. Cutter, Cathy J. Schlund-Vials, 2018-04-01 Redrawing the Historical Past examines how multiethnic graphic novels portray and revise U S history This is the first collection to focus exclusively on the interplay of history and memory in multiethnic graphic novels Such interplay enables a new understanding of the past The twelve essays explore Mat Johnson and Warren Pleece's Incognegro Gene Luen Yang's Boxers and Saints GB Tran's Vietnamera Scott McCloud's The New Adventures of Abraham Lincoln Art Spiegelman's post Maus work and G Neri and Randy DuBurke's Yummy The Last Days of a Southside Shorty among many others The collection represents an original body of criticism about recently published works that have received scant scholarly attention The chapters confront issues of

history and memory in contemporary multiethnic graphic novels employing diverse methodologies and approaches while adhering to three main guidelines First using a global lens contributors reconsider the concept of history and how it is manifest in their chosen texts Second contributors consider the ways in which graphic novels as a distinct genre can formally renovate or intervene in notions of the historical past Third contributors take seriously the possibilities and limitations of these historical revisions with regard to envisioning new different or even more positive versions of both the present and future As a whole the volume demonstrates that graphic novelists use the open and flexible space of the graphic narrative page in which readers can move not only forward but also backward upward downward and in several other directions to present history as an open realm of struggle that is continually being revised Contributors Frederick Luis Aldama Julie Buckner Armstrong Katharine Capshaw Monica Chiu Jennifer Glaser Taylor Hagood Caroline Kyungah Hong Angela Lafien Catherine H Nguyen Jeffrey Santa Ana and Jorge Santos

U.S. Militarism and the Terrain of Memory John Bechtold, 2024-08-01 This book analyzes how the Iraqi city of Fallujah became registered as a setting for military heroics in American memory In 2004 the U S military conducted two disastrous assaults in Fallujah Iraq More than 1 000 citizens were killed and according to the military s own estimate upwards of 200 000 people were displaced because of the violence Yet despite this human catastrophe the kind of information that emerged in the public domain during the battle foregrounded the soldier s experience in war while effacing the destruction of Iraqi bodies This tendency to foreground the soldier body is a direct result of the military s intervention in what they conceptualize as the information environment This book draws from the second assault in Fallujah as a case study

to explicate the military's investment in this perspectival space which is a consequence both of the mediatization of contemporary war and of the need to influence knowledge considered unfavorable to military operations. In short, the military enlists the media in their targeting process to produce information that is then deployed as persuasive force to modify the beliefs of specific target populations. When the cultural texts produced by the media are remediated in the public domain after war, they can be thought of as martial constructs because they originated during war through the military's systemized attempt to influence knowledge. That is, these texts trace to a specific battlefield objective. This book reframes the notion of propaganda as a generalized public relations strategy into a more acute and coordinated attempt to decontextualize specific knowledge in the information environment. This book will be of much interest to students of media and communication studies, war studies, memory studies, and international relations.

True Believer: The Rise and Fall of Stan Lee Abraham Riesman, 2022-03-01. The definitive revelatory biography of Marvel Comics icon Stan Lee, a writer and entrepreneur who reshaped global pop culture at a steep personal cost. HUGO AWARD FINALIST, EISNER AWARD NOMINEE. *True Believer* is in every imaginable way the biography that Stan Lee deserves: ambitious, audacious, daring, and unflinchingly clear-eyed about the man's significance, his shortcomings, his transgressions, his accomplishments, and his astonishing legacy. Robert Kolker, author of *Hidden Valley Road*. Stan Lee was one of the most famous and beloved entertainers to emerge from the twentieth century. He served as head editor of Marvel Comics for three decades and in that time became known as the creator of more pieces of internationally recognizable intellectual property than nearly anyone: Spider-Man, the Avengers, the X-Men, Black Panther, the Incredible Hulk, the list goes on. His carnival barker marketing prowess helped save the comic book industry and superhero fiction. His cameos in Marvel movies have charmed billions. When he died in 2018, grief poured in from around the world, further cementing his legacy. But what if Stan Lee wasn't who he said he was? To craft the definitive biography of Lee, Abraham Riesman conducted more than 150 interviews and investigated thousands of pages of private documents, turning up never-before-published revelations about Lee's life and work. *True Believer* tackles tough questions: Did Lee actually create the characters he gained fame for creating? Was he complicit in millions of dollars worth of fraud in his post-Marvel life? Which members of the cavalcade of grifters who surrounded him were most responsible for the misery of his final days? And above all, what drove this man to achieve so much yet always boast of more.
