## Shelley And The Animals:

*Humans and Other Animals in Eighteenth-Century British Culture* Frank Palmeri, 2020-07-09 Combining historical and interpretive work this collection examines changing perceptions of and relations between human and nonhuman animals in Britain over the long eighteenth century Persistent questions concern modes of representing animals and animal human hybrids as well as the ethical issues raised by the human uses of other animals From the animal men of Thomas Rowlandson to the part animal part human creature of Victor Frankenstein hybridity serves less as a metaphor than as a metonym for the intersections of humans and other animals The contributors address such recurring questions as the implications of the Enlightenment project of naming and classifying animals the equating of non European races and nonhuman animals in early ethnographic texts and the desire to distinguish the purely human from the entirely nonhuman animal Gulliver s Travels and works by Mary and Percy Shelley emerge as key texts for this study The volume will be of interest to scholars and students who work in animal colonial gender and cultural studies and will appeal to general readers concerned with the representation of animals and their treatment by humans

*Animals and Society* Keith Tester, 2014-08-21 Animals and Society uses a variety of historical sources and a coherent social theory to tell the story of the invention of animal rights It moves from incidents like the medieval execution of pigs to a discussion of the politics and strategies of modern rights organisations The book also presents radical interpretations of nineteenth century animal welfare laws and the accounts of the Noble Savage The insights generated by social science are always at the core of the discussion and the author draws on the work of Michel Foucault Norbert Elias Claude Levi Strauss and Mary Douglas This wide ranging and accessible book provides a fascinating account of the relations between humans and animals It raises far reaching questions about the philosophy history and politics of animal rights

**Animal Sensibility and Inclusive Justice in the Age of Bernard Shaw** Rod Preece, 2011-10-25 In search of insight into late Victorian ideas about animals and the animal rights movement Rod Preece explores animal sensibility in the work of George Bernard Shaw Shaw s reformist thought particularly what Preece calls inclusive justice which aimed to eliminate the suffering of both humans and animals emerges in relation to that of fellow reformers such as Edward Carpenter Annie Besant and Henry Salt This fascinating account of the characters and crusades that shaped Shaw s philosophy sheds new light not only on modernist thought but also on the relationship between historical socialism and the ethical treatment of animals

**Romanticism and Animal Rights** David Perkins, 2003-10-23 Table of contents

*Animal Satire* Robert McKay, Susan McHugh, 2023-08-22 Animal Satire presents a cultural history of animal satire a critically neglected but persistent presence in the history of cultural production in which animals expose human folly while the strategies of satire expose the folly of human animal relations Highlighting the teeming animal presences across the history of satirical expression from Aristophanes to Twitter with chapters on key works of literature drama film and a plethora of satirical media Animal Satire reveals the rich rhetorical significance of animality in powering

the politics of satire from ancient and medieval through modern and contemporary times More pressingly the book makes the case for the significance of satire for understanding the real world implications of rhetoric about animals in ongoing struggles for justice By gathering both critical and creative examples from representative media forms historical periods and continents this volume aims to enrich scholarship on the history of satire as well as empower creative practitioners with ideas about its practical applications today Doing Animal Studies with Androids, Aliens, and Ghosts David P.

Rando,2023-04-06 Exploring what can be learnt when literary critics in the field of animal studies temporarily direct attention away from representations of nonhuman animals in literature and towards liminal figures like androids aliens and ghosts this book examines the boundaries of humanness Simultaneously it encourages the reader both to see nonhuman animals afresh and to reimagine the terms of our relationships with them Examining imaginative texts by writers such as Octavia Butler Philip K Dick Kazuo Ishiguro Jeanette Winterson and J M Coetzee this book looks at depictions of androids that redefine traditional humanist qualities such as hope and uniqueness It examines alien visions that unmask the racist and heteronormative roots of speciesism And it unpacks examples of ghosts and spirits who offer posthumous visions of having been human that decenter anthropocentrism In doing so it leaves open the potential for better relationships and futures with nonhuman animals **Shelley's Idols of the Cave** Peter H. Butter,1954 **Jane Austen and Animals** Barbara K.

Seeber,2016-05-06 The first full length study of animals in Jane Austen Barbara K Seeber s book situates the author s work within the serious debates about human animal relations that began in the eighteenth century and continued into Austen s lifetime Seeber shows that Austen s writings consistently align the objectification of nature with that of women and that Austen associates the hunting shooting racing and consuming of animals with the domination of women Austen s complicated depictions of the use and abuse of nature also challenge postcolonial readings that interpret for example Fanny Price s rejoicing in nature as a celebration of England s imperial power In Austen hunting and the owning of animals are markers of station and a prerogative of power over others while her representation of the hierarchy of food where meat occupies top position is identified with a human nature dualism that objectifies not only nature but also the women who are expected to serve food to men In placing Austen s texts in the context of animal rights arguments that arose in the late eighteenth and early nineteenth centuries Seeber expands our understanding of Austen s participation in significant societal concerns and makes an important contribution to animal gender food and empire studies in the nineteenth century **Thomas**

**Pynchon's Animal Tales** Keita Hatoooka,2022-08-29 Throughout his works Thomas Pynchon uses various animal characters to narrate fables that are vital to postmodernism and ecocriticism Thomas Pynchon s Animal Tales Fables for Ecocriticism examines case studies of animal representation in Pynchon s texts such as alligators in the sewer in V the alligator purse in Bleeding Edge dolphins in the Miami Seaquarium in The Crying of Lot 49 dodoes pigs and octopuses in Gravity s Rainbow Bigfoot and Godzilla in Vineland and Inherent Vice and preternatural dogs and mythical worms in Mason Dixon and Against

attached to the goal of progress and animals were merely resources to be used on the path towards human fulfilment. As the century comes to an end these relationships are increasingly being subjected to criticism. We are now urged to be more sensitive and compassionate to animal needs and interests. This book focuses on social change and animals; it is concerned with how humans relate to animals and how this has changed and why. Moreover, it highlights **The Bloodless**

**Revolution** Tristram Stuart, 2007. How Western Christianity and Eastern philosophy merged to spawn a political movement that had the prohibition of meat at its core. **Kindred Brutes: Animals in Romantic-Period Writing** Christine

Kenyon-Jones, 2017-03-02. Exploring the significance of animals in Romantic period writing, this new study shows how in this period they were seen as both newly different from humankind (subjects in their own right rather than simply humanity's tools or adjuncts) and also as newly similar (with the ability to feel and perhaps to think like human beings). Approaches to animals are reviewed in a wide range of the period's literary work, in particular that of Byron, Wordsworth, Coleridge, Keats, Southey, Clare, and Blake. Poetry and other literary work are discussed in relation to discourses about animals in various contemporary cultural contexts, including children's books, parliamentary debates, vegetarian theses, encyclopaedias, and early theories about evolution. The study introduces animals to the discussions about ecocriticism and environmentalism in Romantic period writing by complicating the concept of Nature, and it also contributes to the debates about politics and the body in this period. It demonstrates the rich variety of thinking about animals in the late eighteenth and early nineteenth centuries and challenges the exclusion of literary writing from some recent multi-disciplinary debates about animals by exploring the literary roots of many metaphors about and attitudes to animals in our current thinking. **Kindred Brutes** constitutes a genuinely original and substantial contribution both to Romantic period writing and to general debates about animals and the body. **Plutarch's Three Treatises on Animals** Stephen T. Newmyer, 2020-12-30. This volume offers a

new translation of Plutarch's three treatises on animals: *On the Cleverness of Animals*, *Whether Beasts Are Rational*, and *On Eating Meat*, accompanied by introductions and explanatory commentaries. The accompanying commentaries are designed not only to elucidate the meaning of the Greek text but to call attention to Plutarch's striking anticipations of arguments central to current philosophical and ethological discourse in defense of the position that non-human animals have intellectual and emotional dimensions that make them worthy of inclusion in the moral universe of human beings. *Plutarch's Three Treatises on Animals* will be of interest to students of ancient philosophy and natural science and to all readers who wish to explore the history of thought on human-non-human animal relations, in which the animal treatises of Plutarch hold a pivotal position.
