Combat Colours Bob Archer, Peter R. Foster, 1992 **Flying Colours** William Green, 1990 *Military Aircraft Insignia of the World* John Cochrane, Stuart Elliott, 2014

Once the flying machine was a practical proposition its military use became evident and governments needed to develop a way of marking their property Flying a flag was an obvious but ineffective and dangerous solution so painting the representation of the flag was the natural alternative The first known markings to identify nationality were used in the 1910 Bombing Competition in Vienna where each competing machine carried its national colors Formalized in 1912 precise shapes and colors of military markings were initially introduced by France closely followed by Romania Organized by country in 2 volumes *Military Aircraft Insignia of the World* brings together global markings from such countries as Abkhazia Afghanistan Chad and Iran through to Kenya and Kuwait Over 500 insignia combine with contemporary photographs and a brief history of the military air activity of that country to provide a wealth of information for the aviation historian and modeller alike
