Russian/Soviet Military Psychiatry 1904-1945 Paul Wanke, 2005-07-08 Psychiatry

like most professional fields in Russia gained its legitimacy from its ability to serve the Tsar and later the Bolshevik party. The militarised nature of these governments meant that psychiatry would have to prove its worth to the military. This study will cover Russian Soviet military psychiatry from its first practical experience during the Russo Japanese war to its greatest test during the Great Patriotic War 1941-45. Throughout this study the continuity between Russian and Soviet military psychiatry will be emphasised. For example, psychiatry's materialist school dominated throughout this period and that Russia's acceptance that psychiatric casualties will occur allowed them to focus their resources on treatment rather than prevention.

Globalization, Displacement, and Psychiatry Sanaullah Khan, Elliott Schwebach, 2023-07-26. This book explores diasporic identities and lived experiences that emerge in global patterns of oppression and considers the consequences of treatment and cure when patients experience mental illness due to war displacement and surveillance. Going beyond psychiatric institutions and conventional psychiatric knowledge by focusing on informal networks, socially contingent value systems, and cultural sites of healing, this book considers how communities utilize trauma productively for healing. The chapters in this volume consider the detection of mental illness and its treatment through claims to citizenship and belonging as well as denials of social identity and psychic experiences by institutions of the state. A multidisciplinary team of contributors and international range of case studies explore topics such as colonial trauma, feminized trauma, reproductive violence, military mental health, and more. This book is an essential resource for psychologists, psychiatrists, political scientists, sociologists, and anthropologists as well as scholars and those involved in policymaking and practice.
