Pamphlets on the Venezuelan question, 1896 *International Norms and Local Politics in Myanmar* Yukiko Nishikawa, 2022-03-07 Nishikawa explores how international norms have been adopted in the local context in Myanmar to project a certain international image while in fact the authorities are exploiting these norms to protect their own interests In the liberal international world order promoted since the end of the Cold War democracy rule of law and human rights have become key components in state and peace building around the world Many donor governments and international organisations have promoted them in their aid and assistance However the promotion of these international norms is based on a flawed understanding of sovereignty and the world For this reason the enforcement of these international norms in Myanmar not only fails to protect vulnerable people but also in some instances exacerbates the situation thereby generating critical insecurity to the most vulnerable people A vital resource for scholars of Myanmar's politics as well as a valuable case study for International Relations scholars more broadly *India and China* Geeta Kochhar, Snehal Ajit Ulman, 2020-07-19 This book looks at the changing dynamics of diplomacy of the two emerging global powers India and China It examines trade relations cultural ties and economic engagements of both countries and their shifting influence in the region surrounding them This volume takes an in-depth look at the trade and economic strategies of India and China through the prism of soft power diplomacy It reflects on the challenges the two countries face over bilateral trade negotiations BRICS and China's Silk Road project along with other issues of foreign policy The book underlines the decisive role of the soft power approach and

Tailspin Aravind Yelery, Mrudul Nile, 2021-11-22. In recent decades Asia's ascent has been contextualized as the rise of two major neighboring countries in Asia, India and China. Besides voluminous work on the prospects and convergences between the two, currently they stand at an intersection of time where suspicion and mistrust veils the confidence. A degree of uncertainty arises from the more profound paradoxes and India has been falling short in escaping the tailspin China has created in the bilateral regional and global economic dynamics. India's China relations is not just about boundaries and boycott of Chinese products. The root of the relationship lies in deficiency of trust, knowledge and repository of experts on China. To deal with India's China Tailspin effectively, one must know and comprehend China thoroughly. This book brings out several aspects of India's political-economic relations with China on the table. The book underlines the fact that while leveraging China's inherent contradictions, India has to de-leverage from China's subtle global aspirational designs of domination. Besides analyses on leadership, state capitalism and geo-economics, the book describes special cases such as the Trade War, Structural Conflicts in Chinese Political Economy, Bangladesh-China-India-Myanmar Economic Corridor, WTO negotiations, Maritime trade, Belt and Road Initiative and Taiwan, to better elaborate the stakes involved in dealing with China. The recent boundary tension created a long tailspin which in turn set off a raucous debate over China's economic diplomacy and how India could comprehend it well. Please note Taylor Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka. **India in the Era of China's Belt and Road Initiative** Anil Sigdel, 2020-10-19. Anil Sigdel dives into some of the most interesting trends in international relations such as the rising influence of China and the instruments it uses to advance its interests worldwide, chiefly among them the Belt and Road Initiative (BRI) and the interplay between China and India and what means New Delhi employs to come after China in the wider world. To this end, Sigdel takes both a geographic view by analyzing China's and India's relations with key regions: South East to Central Asia, Indian Ocean Region and Africa, and a functional view scrutinizing issues of relevance to the main topic from cultural ties to infrastructure investment and maritime security. In his incisive analysis, Sigdel provides rich details on how India's partnership is shaping with the major stakeholders in the Indo-Pacific region such as the US, Japan and France, and how India is balancing these partnerships vis-à-vis the one with Russia. The conclusions point to interesting prospects for the future. China's challenge has in a way helped India further advance its own ambition of becoming a separate pole or leading power; therefore, India is likely to pursue that status by aligning issue-wise with all the powers. Chambers's Information for the People William Chambers, 1849. Competing Desires Debamita Banerjee, 2023-06-23. India's Look East policy opened up a new strategic dimension to Indian foreign policy. India had

significant cultural and diplomatic linkages with the Southeast Asian nations But India's non-aligned diplomatic position created a distance between India and Southeast Asia The adoption of the Look East Policy led to the establishment of economic and strategic ties with Southeast Asia The policy was revised in the form of the Act East Policy in 2015 in the face of China's increasing influence in South and Southeast Asia which posed a threat to India's security Moreover the Sino-Pakistan liaison necessitated the strengthening of India-Southeast Asia relations This book is an attempt to trace the development of the Look East Policy its transition into Act East Policy and its aftermath These changing parameters will show the decisive impacts on the transformative phases of India's foreign policy
