which are rooted in notions of hostility conflict and superiority and derive ultimately from Hobbes and Freud Instead Davies argues that humor merely plays with aggression and with rule breaking and that the form this play takes is determined by social structures and intellectual traditions It is not related to actual conflicts between groups In particular Davies convincingly argues that Jewish humor and jokes are neither uniquely nor overwhelmingly self mocking as many writers since Freud have suggested Rather Jewish jokes like Scottish humor and jokes are the product of a strong cultural tradition of analytical thinking and intelligent self awareness The volume shows that the forty year popularity of the Polish joke cycle in America was not a product of any special negative feeling towards Poles Jokes are not serious and are not a form of determined aggression against others or against one's own group The Mirth of Nations is readable as well as revisionist It is written with great clarity and puts forward difficult and complex arguments without jargon in an accessible manner Its rich use of examples of all kinds of humor entertains the reader who will enjoy a great variety of jokes while being enlightened by the author's careful explanations of why particular sets of jokes exist and are immensely popular The book will appeal to general readers as well as those in cultural studies

Professor Penguin Lloyd Spencer Davis, 2014-10-17 Meet Bill Bryson in Antarctica in this engaging book by one of the world's authority on penguins Part memoir partly the research of a field biologist Professor Penguin could be called How Penguins Shaped My Life Based on journals kept during Davis's years of working with penguins in the wild the story takes readers to remote locations Antarctica the Galapagos the deserts of Chile and Peru the Falkland Islands the wild coasts of Argentina and South Africa and New Zealand Davis a world authority on penguins reveals that these box office favourites are not the cute mate for life animals we've been led to believe He also reveals that penguins are a lot like humans sometimes disturbingly so when it comes to their basic needs sex food shelter marriage family and travel Over the years that Davis studies penguins he realises that they are far more complex and nuanced than he imagines at his first encounter They really don't deserve to be seen as so black and white He expertly marries scientific knowledge with his own anecdotes told with humour hard earned knowledge and insight He also includes stories about those who have helped advance our knowledge of penguins other Professor Penguins Implicit throughout is Davis's philosophy the more we learn about the natural world and specifically penguins the more we learn about ourselves And he asks Is the isolation of Antarctica sufficient to protect penguins from us
