Foreign Relations,1972 **Centre and Province in the People's Republic of China** David S. G. Goodman,1986-10-09 According to common misconception the Chinese political system is highly centralized One result of this widely accepted view is that China specialists have often neglected the study of decision making as a process Concentrating upon the neighbouring but contrasting provinces of Sichuan and Guizhou during the decade before the Cultural Revolution this book examines the interaction between centre and province and without adopting a centralist or a pluralist viewpoint argues that a spatial dimension is of necessity part of the Chinese decision making process Particular attention is paid to the variability of this interaction over time **The Cambridge History of China: Volume 15, The People's Republic, Part 2, Revolutions Within the Chinese Revolution, 1966-1982** Roderick MacFarquhar,John K. convened a major conference to discuss the health and longevity of China's ruling system and to consider a fundamental question. After three decades of internal strife and turmoil followed by an era of reform, entrepreneurialism and internationalization is the PRC here for the dynastic long haul. Bringing together scholars and students of China from around the world, the gathering witnessed an energetic exchange of views on four interrelated themes: politics, social transformations, wealth and well-being, and culture, belief and practice. Edited and expanded from the original conference papers, the wide-ranging essays in this bilingual volume remain true to the conference's aim to promote open discussion of the past, present and future of the People's Republic of China. Beautiful China: 70 Years Since 1949 and 70 People's Views on

Eco-civilization Construction Jiahua Pan, Shiji Gao, Qingrui Li, Jinnan Wang, Dekai Wu, Chengliang Huang, 2021-03-01. This book discusses and studies the basic course of ecological civilization construction in the 70 years since the founding of the People's Republic of China and summarizes the experience and lessons. It contains 75 articles from 75 top experts and government officials in the field of ecological civilization policy making and basic theory research in China, including Xi Jinping Thought on Ecological Civilization, ecological culture, green industry, economy, environmental quality, legal system, ecological security, and so on, so as to provide reference for understanding and studying the progress of ecological environment protection since the founding of China. *Routledge Handbook of Revolutionary China* Alan Baumler, 2019-08-12. The Routledge Handbook of Revolutionary China covers the evolution of Chinese society from the roots of the Republic of China in the early 1900s until the end of the Cultural Revolution in 1976. The chapters in this volume explain aspects of the process of revolution and how people adapted to the demands of the revolutionary situation. Exploring changes in political leadership as well as transformation in culture, it compares the differences in experiences in urban and rural areas and contrasts rapid changes such as the war with Japan and Communist liberation with evolutionary developments such as the gradual redefinition of public space. Taking a comprehensive approach, the themes covered include War, occupation and liberation, Religion and gender, Education, cities and travel. This is an essential resource for students and scholars of Modern China. Republican China, Revolutionary China and Chinese Politics. The Criminal Process in the People's Republic of China, 1949-1963 Jerome Alan Cohen, 1968. This volume represents the fruits of a preliminary inquiry into one aspect of contemporary Chinese law: the criminal process. Investigating what he calls China's legal experiment, Mr. Cohen raises large questions about Chinese law: Is the People's Republic a lawless power arbitrarily disrupting the lives of its people? Has it sought to attain Marx's vision of the ultimate withering away of the state and the law? Has Mao Zedong preferred Soviet practice to Marxist preaching? If so, has he followed Stalin or Stalin's heirs? To what extent has it been possible to transplant a foreign legal system into the world's oldest legal tradition? Has the system changed since 1949? What has been the direction of that change and what are the prospects for the future? Today

immense difficulties impede the study of any aspect of China's legal system. Most foreign scholars are forbidden to enter the country and those who do visit China find solid data hard to come by. Much of the body of law is unpublished and available only to officialdom and what is publicly available offers an incomplete idealized or outdated version of Chinese legal processes. Moreover, popular publications and legal journals that told much about the regime's first decade have become increasingly scarce and uninformative. In order to obtain information for this study, Mr. Cohen spent 1963-64 in Hong Kong interviewing refugees from the mainland and searching out and translating material on Chinese criminal law. From the interviews and published works he has endeavored to piece together relevant data in order to see the system as a whole. The first of the three parts of the book is an introductory essay providing an overview of the evolution and operation of the criminal process from 1949 through 1963. The second part, constituting the bulk of the book, systematically presents primary source material including excerpts from legal documents, policy statements, and articles in Chinese periodicals. In order to show the law in action as well as the law on the books, the author has included selections from written and oral accounts by persons who have lived in or visited the People's Republic. Interspersed among these diverse materials are Mr. Cohen's own comments, questions, and notes. Part III contains an English-Chinese glossary of the major institutional and legal terms translated in Part II, a bibliography of sources, and a list of English language books and articles that are pertinent to an understanding of the criminal process in China.

Who was Who in the People's Republic of China Wolfgang Bartke, 2012-06-18. No detailed description available for *Who was Who in the People's Republic of China*. *Historical Dictionary of the People's Republic of China* Lawrence R. Sullivan, 2007-05-23. When the Chinese Communist Party (CCP) seized power in October 1949, China was one of the poorest nations in the world. In fact, it was so weak it had been conquered by Japan, a country one-tenth its size, a decade earlier. Now, more than fifty years later, the People's Republic of China (PRC) is an emerging economic, political, and military superpower with the world's fastest growing economy and largest population, 1.3 billion in 2005. A member of the United Nations Security Council since the early 1970s and a nuclear power, China wields enormous influence in the world community. The second edition of the *Historical Dictionary of the People's Republic of China* contains more than 400 cross-referenced dictionary entries on individual topics spanning China's political, economic, and social system, along with short biographies on important figures—from politicians to writers and movie directors—who have shaped Chinese history during the period of Communist rule from 1949 to 2006. Supplementing the entries are a chronology, an introduction, charts outlining the structure of the Chinese government, and a bibliography of works in English, making this a superb resource for college and high school students needing a quick reference on contemporary China.
