Psychopolitics Byung-Chul Han, 2025-06-24 Exploring how neoliberalism has discovered the productive force of the psyche Byung Chul Han a star of German philosophy continues his passionate critique of neoliberalism trenchantly describing a regime of technological domination that in contrast to Foucault's biopower has discovered the productive force of the psyche In the course of discussing all the facets of neoliberal psychopolitics fueling our contemporary crisis of freedom Han elaborates an analytical framework that provides an original theory of Big Data and a lucid phenomenology of emotion But this provocative essay proposes counter models too presenting a wealth of ideas and surprising alternatives at every turn

PsychoPolitics Peter Sedgwick, 2022-08-20 A powerful and impassioned defence of psychiatry urging the Left to confront the harsh realities of mental illness William Davis author of *The Happiness Industry* A new edition of one of the most significant and credible critiques of the anti psychiatry movement As relevant today as it was when first published in 1982 the book changed the conversation on mental health and illness demanding that we assess its relationship to the wider decay of social institutions Dissecting the work of popular anti psychiatric thinkers Erving Goffman R D Laing Michel Foucault and Thomas Szasz Sedgwick exposed the conservative undercurrents and false hopes represented by the alternative psychiatry of the sixties and seventies challenging the very real impact it had on our collective responsibility to look after the mentally ill With a new introduction that highlights the relevance of Sedgwick's demands for modern mental health movements the practice of psychiatry and for left wing activists this new edition further cements PsychoPolitics' cult classic status Fanon, Psychoanalysis, and Critical Decolonial Psychology Derek Hook, 2025-04-08 This groundbreaking book examines the psychological dimension of decolonial thought in reference to foundational texts Previously published as *A Critical*

[A People's History of Psychoanalysis](#) Daniel José Gaztambide, 2019-12-09 As inequality widens in all sectors of contemporary society we must ask is psychoanalysis too white and well to do to be relevant to social economic and racial justice struggles Are its ideas and practices too alien for people of color Can it help us understand why systems of oppression are so stable and how oppression becomes internalized In *A People's History of Psychoanalysis From Freud to Liberation Psychology* Daniel Jos Gaztambide reviews the oft forgotten history of social justice in psychoanalysis Starting with the work of Sigmund Freud and the first generation of left leaning psychoanalysts Gaztambide traces a series of interrelated psychoanalytic ideas and social justice movements that culminated in the work of Frantz Fanon Paulo Freire and Ignacio Martín Bar Through this intellectual genealogy Gaztambide presents a psychoanalytically informed theory of race class and internalized oppression that resulted from the intertwined efforts of psychoanalysts and racial justice advocates over the course of generations and gave rise to liberation psychology This book is recommended for students and scholars engaged in political activism critical pedagogy and clinical work

century onward the concept of drive started to play an important role in emerging disciplines such as biology anthropology and psychology In these fields the concept of drive was used to describe the inner forces of organic nature or more particularly human urges and desires But it was in the period of classical German philosophy that this concept developed into an important philosophical concept crucial to Kant s and post Kantian idealistic systems Reflecting the complexity of this concept the volume first discusses historical sources of drive theories in Leibniz Reimarus and Blumenbach Afterwards the volume presents the philosophical accounts of drives in Kant Fichte Schelling and Hegel and also gives a systematic overview of other important drive theories that were formed around 1800 by Herder Goethe Jacobi Novalis Reinhold Schiller and Schopenhauer

Perversions of Fascism Antonios Vadolas,2018-04-17 Contemporary versions of evil demonise modern fascists totalitarian threats and Hitlers As if not obscure enough fascist evil has been equivocally linked with perversion This book reveals that both fascism and perversion implicate the non symbolisable kernel in politics which becomes the source of their mystification It argues that the fascist does not take the same discursive position as the pervert does regarding this symbolic gap The author develops a new rhetoric de pathologised and de ideologised regarding the structure of the so called pervert introducing new vocabularies and directions for psychoanalytic research that further distance the pervert or whom he calls the extra ordinary subject from fascist politics and instead exposes his diachronic fascist isolation from the social edifice This reveals the fruitful alternatives that can stem from a return to Freud cum Lacan which supports a flexible on going reformulation of psychoanalytic knowledge

Psychoanalysis in Hong Kong Diego Busiol, 2016-10-04 How is it possible that a phenomenon like psychoanalysis which has dominated the cultural and intellectual life of the last century in Europe North and South America has seemingly had little to no resonance in Hong Kong This book attempts to explain this phenomenon Addressing the subject from an East to West approach this book proposes an experience of displacement as it is argued that the opportunity for psychoanalysis today is not just to be exported to the East but rather to be re-invented after an encounter with a radically different culture This encounter allows the Western practitioner to question their experience and highlights the assumptions of Western thought and knowledge Following this what remains of psychoanalysis as we know it How can psychoanalysis be re-thought and re-formed today in a format independent of different theoretical orientations and schools The book addresses key issues such as Is there psychoanalysis in Hong Kong How does one do research on psychoanalysis in Hong Kong Why was the Freudian Unconscious not discovered in China How can we describe the core of psychoanalysis and how can this description be understood in different cultural contexts Can psychoanalytic research be led by adopting a quantitative or statistical methodology Founded on the belief that psychoanalysis should be re-invented in light of its encounter with non-Western
