Securing a Place for Reading in Composition Ellen C. Carillo, 2014-10-02 Securing a Place for Reading in Composition addresses the dissonance between the need to prepare students to read not just write complex texts and the lack of recent scholarship on reading writing connections Author Ellen C Carillo argues that including attention to reading practices is crucial for developing more comprehensive literacy pedagogies Students who can read actively and reflectively will be able to work successfully with the range of complex texts they will encounter throughout their post secondary academic careers and beyond Considering the role of reading within composition from both historical and contemporary perspectives Carillo makes recommendations for the productive integration of reading instruction into first year writing courses She details a mindful reading framework wherein instructors help students cultivate a repertoire of approaches upon which they consistently reflect as they apply them to various texts This metacognitive frame allows students to become knowledgeable and deliberate about how they read and gives them the opportunity to develop the skills useful for moving among reading approaches in mindful ways thus preparing them to actively and productively read in courses and contexts outside first year composition Securing a Place for Reading in Composition also explores how the field of composition might begin to effectively address reading including conducting research on reading revising outcome statements and revisiting the core courses in graduate programs It will be of great interest to writing program administrators and other compositionists and their graduate students

TAKS Reading in the Content Areas: Exploring Nonfiction Supplement Grade 5 Teacher's Guide, **Reading's in Sri Aurobindo's The Ideal of Human Unity** Santosh Krinsky, 2018-09-07 If we observe closely we can see and identify a slow but steady growth of a new consciousness, a consciousness that transcends the egoistic bonds of self, family, tribe, and community. This new consciousness sees a future for humanity that respects each individual and their social or religious background. This new consciousness works to bring about mutual benefit rather than egoistic fulfillment at the expense of others and takes care of the needs of planetary health as a basis for long-term human survival.
