Reading The Abc And Beyond:

ABC and Beyond Elaine Weitzman, 2010 The Hanen Centre's newest guidebook brings to life the most current research on promoting children's emergent literacy in early childhood classrooms. With the goal of preparing preschool children to learn to read and write successfully *ABC and Beyond* shows educators how they can build language and literacy learning naturally into everyday conversations and activities. By translating the most current research into user-friendly strategies for educators *ABC and Beyond* addresses the various prerequisites of literacy including vocabulary, story comprehension, decontextualized abstract language, print knowledge, and phonological awareness. More than 120 color photographs and many easy-to-follow charts with detailed practical examples beautifully illustrate how the strategies are applied in real-life contexts.

In reader-friendly terms, Susan E. Israel illustrates how to create rich learning environments, provide activities to engage young minds, and promote the important language, cognitive, and early reading skills necessary to encourage learners' self-confidence. Teachers will find proven practices, assessment tools, guidelines for meeting individual learning needs, examples, advice for professional development sessions, and connections to International Reading Association standards. Especially important is early literacy: what children know about reading and writing before they can actually read and write. In this book, experienced librarians Kathy Barco and Melanie Borski-Howard share hands-on techniques that they have used to successfully promote early literacy and encourage family involvement. *Storytime and Beyond* teaches readers how to use literacy doodads, inexpensive props that add excitement to storytimes and can be used outside the library or classroom to enhance the basic components of any early literacy program: talking, singing, reading, writing, and playing. Many of the doodads can be created as family do-it-yourself projects, and some can be adapted to work with non-readers of any age. Instruments
