

Describing Personality

Bad Personalities: Read the descriptions of people below and [personalitytitle.jpg](#) to describe their personality.

rude arrogant lazy dishonest unreliable
shy cheap moody mean impatient

(1) Jack is _____.
He never spends money on anything. When friends come over to his house, he only offers them water because he thinks juice is too expensive. When it's his turn to pay for lunch, he buys everybody the cheapest thing on the menu.

(10) Mike is _____.
He brags all the time. He thinks he is better than everyone else. He looks down on other people.

(9) Tomoko is _____.
She is always late when she meets her friends. She breaks her promises all the time. She says she will help her friends with something, but then she doesn't.

(8) Gurjot is _____.
He never says 'please' or 'thank you'. He pushes people to get by and doesn't say 'excuse me'.

(2) Sara is _____.
She wakes up late every day. She doesn't clean her room or help her parents with any housework. She doesn't do her homework for school either. She just watches TV all day.

(6) MinSu is _____.
He gets angry or depressed easily. Two days ago he was mad. Yesterday he was upset. And today he is angry again.

(3) Tom is _____.
When he plays games with his friends, he cheats. He lies to his teachers and his parents. He copies his homework from other students. And, sometimes, he steals things when people aren't looking.

(4) Frank is _____.
He kicks dogs when he walks to school. He pushes smaller kids around and makes them cry for no reason. He swears at his classmates.

(5) Jenny is _____.
She hates talking to people or speaking in public. She never goes to parties or out with her friends.

(7) Sam is _____.
She wants everything done right away. She can't stand waiting for anything. If there is a lineup at the store, she goes somewhere else.

The Power of Face Reading Mac Fulfer, JD, 2019-06-15 Make stronger connections with anyone in the world by learning how to read faces *The Power of Face Reading* is the most comprehensive easy to use book on face reading available today Author Mac Fulfer makes face reading fun and easy for you to understand more about the people you encounter no matter who you meet or where you are in the world Face reading is our foundational international language and none of our seeming differences matter whether nationality gender race or culture because every person's face can be read in the exact same way For instance the lines on our faces don't reflect aging They're actually a roadmap showing where we have been

and what we've done. So this book is not about interpreting facial expressions; it's about learning to read the stories that a person's face can tell. Using a unique approach that combines both genetics (the face you are born with) and epigenetics (the way life events alter facial features over time), this book helps you understand others better. Discover how learning to interpret simple and easily recognized features such as ear size and eyebrow shape can allow you to make a better connection with anyone anywhere. Superbly illustrated and organized like an encyclopedia, *The Power of Face Reading* guides you through all you need to know about reading faces from top to bottom, detail to gestalt, gesture to metaphoric meaning. The approach shared in this book is so easy to learn that you can put this how-to guide to use and begin reading faces within minutes of opening it up. Everyday applications for face reading include: Improving both work and personal relationships, Interviewing and hiring the right people, Team building, Negotiating better, Coaching, counseling, Finding the right job, Increasing sales by identifying buy signals, Identifying better business partners, Reading your audience when presenting. *The Power of Face Reading* includes 275 illustrations, Clear explanations of what each facial feature means, Personality profiles to provide insight into every person you meet, Sample readings to learn Mac's step-by-step face reading approach, A useful checklist to help you read faces immediately, A fun face reading quiz to test yourself.

The Cultural Psyche Dinesh Sharma, 2021-04-01

As envisaged by Robert A. LeVine many years ago, the human development indicators have improved in many societies as income, healthcare, and educational opportunities have been enlarged. Global transformations have led to a significant decline in extreme poverty and an increase in working-class and middle-class families around the world in the emerging economies throughout Africa and Asia. As the technological and global influences continue to challenge the dominant narrative in academic psychology conflated with WEIRD data assumptions, interdisciplinary research will continue to increase in value and scope where LeVine's classical approach in psychological anthropology combined with psychoanalysis, developmental psychology, demography, language or area research, and population studies offers a path forward. The essays collected here, in addition to honoring LeVine's work, hold out the promise of a real convergence between psychology and anthropology or the development of a psychosocial science, a confluence between positivism and relativism, empiricism and ethnography, and social sciences and human sciences. The scientific search for universal laws and the ever-expanding search for cultural meanings in the diverse communities around the world must continue simultaneously and in conjunction with the transnational or global challenges we face today. Hybridity fostered by interdisciplinary researchers has stood the test of time as the social sciences have gradually outgrown the monolithic ways of looking at the world. The project of a psychosocial science represented by the work of Robert A. LeVine at the intersection of psychology, anthropology, demography, child development, and psychoanalysis maps out some of the challenges of a hybrid discipline. Hybridity impacts not only the humanities and social sciences but physical sciences in genetics and genomics or applied disciplines like biotechnology and life sciences. Thus, it is important that we not lose sight of LeVine's spirit of interdisciplinary research. Advocates for

universalism the psychologists or behavioral scientists pursuing universal laws of human nature must collaborate with the growing number of relativistic scientists anthropologists sociologists or cultural studies experts searching for local meanings in small scale village communities There will be a confluence of social and human sciences or what C P Snow the English literary critic called the two cultures of the scientific revolution the sciences and humanities Praise for *The Cultural Psyche* This edited collection by Dinesh Sharma of his mentor Robert LeVine s papers is uniquely positioned between psychology anthropology and human development As one surveys its wide ranging and fascinating papers one not only comes to understand the principal lines of work carried out over a half century by a remarkable scholar At the same time one gains a sense of the history of these lines of work by a person who has lived through it reflected on it and contributed significantly to its advances This exceptionally valuable volume not only surveys child and human development in depth and across cultures it also points out ways in which these lines of work ought to be pursued in the years to come Howard E Gardner Hobbs Professor of Cognition and Human Development Harvard University Cambridge MA This book offers an overview of the wide ranging contributions of one of the giants of thinking about human development parenting and culture of the last 50 years By bringing together a large body of Bob s writings some of them entirely new this volume represents only one important dimension of LeVine s enormous influence on the thinking of today s scholars but in addition it should be noted how much his scholarship has shaped the work and the thinking of his many students and collaborators in ways that will persist through several academic generations Catherine E Snow Patricia Albjerg Graham Professor of Education Harvard University Cambridge MA
