Reagan Years:

The Reagan Years Joseph Hogan, 1990 A collection of political commentaries published originally in the Wall Street Journal by a Reagan critic No index No bibliography Contributors from both Britain and the US but mostly Britain cover Reagan's management of institutions Congress the Supreme Court the Cabinet councils and the White House staff the mass media the political parties and assess his leadership in the arenas of economic policy and foreign affairs Generally oriented to the level of advanced undergraduate students and generally well done though an index is sorely lacking Distributed in the US and Canada by St Martins Press Annotation copyrighted by Book News Inc Portland OR

Perspectives on the Reagan Years John Logan Palmer, 1986 *Economic Policy in the Reagan Years* Charles F. Stone, Isabel V. Sawhill, 1984 The Economy in the Reagan Years Anthony S. Campagna, 1994-01-05 The arguments over the economic policies of the Reagan Administration will continue until sufficient time has elapsed for a consensus to be possible In the meantime it is necessary for contemporary scholars to record their opinions as a base for the consensus Campagna has recorded his conclusions based on considerable research on Reagan Administration policies He begins by describing what was planned by the government From there he discusses what actually happened and devotes the remainder of the work to his opinion of what has been left with which the future must deal Campagna concludes that the Reagan economic policies failed He establishes a position for others to attack or defend in their own publications in the continuing argument

Explaining the Reagan Years in Central America Jeremy M. Brown, 1995 In his analysis of the relations between the United States and Central America through the 1980s Brown seeks to broaden our view of events and historical processes by examining these relations in historical and global terms in lieu of the usual local or regional comparative focus By drawing on the central concepts of Immanuel Wallerstein's World System Theory the ideologically and strategically contorted policies of the Reagan years can be understood in the context of an evolving American society within the Modern World System This critical historical narrative follows the growth of an American state and nation and its relations with Central America from its origins as a collection of colonies on the periphery of the world system through eras of expansionism imperialism world wars and triumph as global hegemon and into ultimate crisis decline and conservative reaction through the 1980s Primary emphasis is placed on the internal ideological and global strategic polarizations of the Cold War and their influence on American society foreign relations with Central America and the conservative extremes of the Reagan years

US-West European Relations During the Reagan Years Steven K. Smith, Douglas A. Wertman, 1992-06-18 Using extensive survey data the authors examine the major issues which dominated US West European relations during the Reagan years These include security issues terrorism economic relations superpower relations and American and Soviet images

The Reagan Years: a Social History of the 1980'S Richard Stanley, 2017-12-15 Ronald Reagans legacy as president is nearly unparalleled in American history due to his domestic and foreign policy leadership Reagans contrarian insistence on advocating limited government

and supply side economics drew much bipartisan criticism causing the Great Communicator to take his argument that lowering taxes would encourage economic growth directly to the people. The result Congress granted 750 billion in tax cuts in 1981. The Reagan Revolution had begun. By mid 1983 the nation's economy was booming. On President Reagan's first day in office the Iran Hostage Crisis finally came to an end. Fifty two American embassy personnel held hostage by a defiant Iran during the last four hundred plus days of the Carter administration were freed. A definite win for all Americans. But Reagan soon was widely criticized for insulting Russia's leaders by calling the Soviet Union the evil empire. Later Reagan was criticized at home and abroad for challenging Soviet premier Gorbachev to tear down the Berlin Wall. Reagan's most criticized proposal of all however was his insistence on developing his Strategic Defense Initiative (SDI) space weapons to defend America from incoming Soviet nuclear missiles. Domestic critics dismissed his proposal as a Star Wars fantasy but the Soviets feared SDI. By December 1991 it was clear that Reagan's Star Wars fantasy helped cause the bankruptcy and total collapse of the Soviet Union bringing a peaceful end to the decades long Cold War.

Debating the Reagan Presidency John Ehrman, Michael W. Flamm, 2002-09-01. The presidency of Ronald Reagan has become a Rorschach Test for politicians and citizens alike. While many conservatives see the Reagan era of the 1980s as the high water mark for their movement and a time of national recovery from the difficulties of the 1970s many liberals maintain that the rosy Reagan legacy is based largely on myth and that in fact his eight years as president caused serious harm to the country. John Ehrman and Michael W. Flamm give due attention to the lasting controversies surrounding the Reagan record and provide a balanced view of the fortieth president's foreign and domestic policies. Students are encouraged to draw their own conclusions by reading key primary documents.

The Reagan Years A to Z Kenneth Franklin Kurz, 1996. A to Z format makes it easy to refer to particular people or events but the writing style makes it an interesting read from beginning to end.

The Reagan Presidency Dilys M. Hill, Raymond A. Moore, Phil Williams, 2016-07-27. The Reagan presidency has been both eulogised and reviled. Supporters have claimed that Ronald Reagan not only regenerated American power and restored American prestige but changed the direction of domestic policy in a way which marked the end of a twenty year period of expanding government. This book explores the Reagan policy style and substance. It considers the initial aspirations of the two Reagan administrations, examines the constraints with which they had to contend and assesses the legacy of achievement and failure.
