Real Is Unknowable The Knowable Is Unreal:

The Rhizome and the Flower James Olney, Voorhies Professor of English James Olney, 1980-01-01 **Idealism and Pragmatism** Robert Stern, 2019-10-23 This book explores the complex relationship between the philosophical schools of idealism and pragmatism Idealism is the older tradition with roots in Plato and Platonism and has been developed in a myriad of forms At heart it holds that reality is either mind like or is contained in the mind Pragmatism is a newer school traceable to the work of philosophers such as C S Peirce and William James in the mid nineteenth century It offers a distinctive account of meaning knowledge and metaphysics which stresses our place as agents within the world While these two schools have often been set at odds with one another it is increasingly recognized that idealism and pragmatism share some important common ground and that their respective histories have been intertwined The contributions to this volume by leading international scholars put these debates in a new light by studying the interrelation across a range of thinkers and issues including Kant Schelling Hegel Royce Renouvier and Collingwood on the one side and Peirce James Dewey and Brandom on the other This book was first published as a special issue of the British Journal for the History of Philosophy **Agnosticism** Robert Flint, 1903 *The Real Is Unknowable, The Knowable Is Unreal* Robert Powell, 2011-07-12 Wisdom is to reject conventional wisdom about almost everything Thus begins Robert Powell s inquiry into the nature of Totality and the unreality of all else This small but profound book is divided into three parts In the first Reflections Robert Powell comments on some of humankind s most timeless puzzles and questions Does the body actually exist What is man if not that bundle of concepts and images that comes upon him at birth The second Interchanges uses a dialogue format that recalls Plato s Allegory of the Cave in which a teacher and student questioner in a modern setting discuss non duality consciousness and reality The third part Essays is comprised of eight essays each only a few pages long but addressing overarching themes including consciousness fear of death the end of the search and the notion of the real as unknowable Readers will leave the book with a satisfying conclusion to a brief luminous work that can be read again and again **Modern Psychology and the Validity of Christian Experience** Cyril Henry Valentine, 1929 **The First Spring** Abraham Eraly, 2011 The principles of certitude. From the known to the unknown. Matter and force. Force and cause. The absolute in the correlations of feeling and motion. Appendix: Imaginary geometry and the truth of axioms. Lagrange and Hegel: the speculative method. Action at a distance George Henry Lewes, 1875 *Symbolism and Truth* Ralph Monroe Eaton, 1925 This is a new release of the original 1925 edition **Realistic Idealism in Philosophy Itself** Nathaniel Holmes, 1888 *Plato's Cosmology* Francis MacDonald Cornford, 2014-06-23 This is Volume IV of ten on a series of Ancient Philosophy Originally published in 1937 this text offers Plato s Timaeus translated with a running commentary discussing each problem of interpretation
