The plight of Eastern Europe's Roma is one of the greatest challenges facing the continent Largely hidden this book offers an eye opening poignant and intriguing analysis of the diverse problems facing Central and Eastern Europe's gypsy populations including the largely unacknowledged legacy of the Roma Holocaust Engaging with a broad range of issues including racism stereotyping and political and economic transition in ex Communist states Istvan Pogany challenges the most common preconceptions about the Roma He looks at the specifics of individual Romani lives particularly in Hungary and Romania Highlighting the difficulties that all marginal peoples face Pogany explains how the Roma have been devastated by the economic transition from Communism to open markets since 1989 Poverty lack of education as well as widespread anti Roma discrimination and inadequate legal protection have left the Roma facing intense hardship since the collapse of welfare states However this book is not just a catalogue of the challenges that the Roma face it is also a celebration of Roma cultures and of the acceptance of difference something that is more important than ever in our multicultural societies

The Roma Café Istvan S. Pogany, 2004 Historical Dictionary of the Gypsies (Romanies)

Donald Kenrick, 2007-07-05 Originating in India the Gypsies arrived in Europe around the 14th century spreading not only across the entirety of the continent but also immigrating to the Americas The first Gypsy migration included farmworkers blacksmiths and mercenary soldiers as well as musicians fortune tellers and entertainers At first they were generally welcome as an interesting diversion to the dull routine of that period Soon however they attracted the antagonism of the governing powers as they have continually done throughout the following centuries The second edition of the *Historical Dictionary of the Gypsies Romanies* seeks to end such prejudice by clarifying the facts about this nomadic people Through a list of acronyms a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on

significant persons places events institutions and aspects of culture society economy and politics the history of the Gypsies and their culture is told **The to Z of the Gypsies (Romanies)** Donald Kenrick,2010-04-09 The A to Z of the Gypsies Romanies seeks to end such prejudice by clarifying the facts about this nomadic people Through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on significant persons places events institut **The Rights of the Roma** Celia Donert,2017-12-14 Explores the evolving human rights of Roma in Eastern Europe s recent history and the complex politics of Roma rights today **Writing the Roma** Cynthia Levine-Rasky,2016-09-13T00:00:00Z The culmination of four years of ethnographic research at the Roma Community Centre in Toronto Writing the Roma is the first book to provide an overview of the identities origins history and treatment of Roma refugees Cynthia Levine Rasky traces the historical and cultural roots of the Roma in Europe through their genocide in the Holocaust their persecution in Eastern Europe in the post Communist era to their settlement as refugees in Canada What emerges is a book that challenges the stereotypes surrounding this non territorial nation while exposing the ways that Canadian immigration policies have affected Roma populations *Encyclopedia of Modern Ethnic Conflicts* Joseph R. Rudolph Jr.,2015-12-07 An indispensable reference that will help students understand the major ethnic conflicts that dominate the headlines and shape the modern world Since World War II significant conflicts have most often taken the form of acts of violence between ethnic or national communities inside individual states This two volume work uses case studies to explore some four dozen of those conflicts making it an ideal first stop reference for students and others who wish to quickly gain an understanding of ethnic struggles Content from the first edition is updated and new entries on recent conflicts have been added The set s geographical range which encompasses nearly every continent is matched by the diversity of the conflicts explored These include internal conflicts such as those experienced by African Americans in the United States and Muslims in France as well as separatist movements of groups like the Chechens in Russia and Bosnians in Yugoslavia Headline making conflicts for example those in Mali and Syria are covered as well The book is organized alphabetically by country and region Each essay begins with a timeline and then explores the historical background evolution efforts to manage and significance of the conflict Suggestions for follow up research and appendices of relevant primary source materials are also included *The Impact of EU Law on Minority Rights* Tawhida Ahmed,2011-01-12 This book provides a critical evaluation of the ways in which EU law engages with minority rights protection at its core is an analysis of EU law and minority rights Unlike the UN or ECHR the EU has no competence to set standards on minority protection and this has been a point of disappointment for minority rights advocates Indeed this book will demonstrate that in EU law binding standards really only exist in the sphere of non discrimination and are at their strongest in the field of employment As such binding standards within EU law affect only a small proportion of the canon of minority rights However the EU does have competence to promote diversity and facilitate redistribution of power and resources across the EU According to a broad

understanding of minority rights protection acts of promotion and facilitation alongside those of standard setting constitute essential underpinnings for minority protection The EU s existing competences do therefore play a key role in minority protection In order to support these conclusions the book undertakes a comprehensive examination of the impact of EU law on minority rights protection The book examines a broad range of the EU s legal provisions and principles which may affect minority protection before undertaking in depth analyses of the examples of minority cultural rights and minority linguistic rights In addition the final substantive chapter of the book contextualises the impact of EU law within the perspective of the overall needs of a specific group the Roma minority The concluding chapter draws together the EU s contribution to minority rights In short the EU can be seen as a promoter but not a protector of minority rights Although not ideal especially from the perspective of minorities it is worth at least exploring such a view Such an exploration would enable the EU most easily to build upon its existing competences and regulatory capacities This book will be of interest to lawyers and activists concerned with minority rights and Roma rights protection within the EU It will also be of relevance to those interested in understanding the dynamics between the EU and the international law community in overlapping areas of rights protection and exploring how this informs our perception of the capacity of the EU to be a central actor in the field of rights protection

Balkan Legacies John Paul Newman, Balázs Apor, 2021-06-15 Balkan Legacies is a study of the aftermath of war and state socialism in the contemporary Balkans The authors look at the inescapable inheritances of the recent past and those that the present has to deal with The book s key theme is the interaction often subliminal of the experiences of war and socialism in contemporary society in the region Fifteen contributors approach this topic from a range of disciplinary backgrounds and through a variety of interpretive lenses collectively drawing a composite picture of the most enduring legacies of conflict and ideological transition in the region without neglecting national and local peculiarities The guiding questions addressed are what is the relationship between memories of war dictatorship communist or fascist and present day identity especially from the perspective of peripheral and minority groups and individuals How did these components interact with each other to produce the political and social culture of the Balkan Peninsula today The answers show the ways in which the experiences of the latter part of the twentieth century have defined and shaped the region in the twenty first century

New Soviet Gypsies Brigid O'Keeffe, 2013-12-06 As perceived icons of indifferent marginality disorder indolence and parasitism Gypsies threatened the Bolsheviks ideal of New Soviet Men and Women The early Soviet state feared that its Romani population suffered from an extraordinary and potentially insurmountable cultural backwardness and sought to sovietize Roma through a range of nation building projects Yet as Brigid O'Keeffe shows in this book Roma actively engaged with Bolshevik nationality policies thereby assimilating Soviet culture social customs and economic relations Roma proved the primary agents in the refashioning of so called backwards Gypsies into conscious Soviet citizens New Soviet Gypsies provides a unique history of Roma an overwhelmingly understudied and misunderstood diasporic people by focusing on their social and

political lives in the early Soviet Union O Keeffe illustrates how Roma mobilized and performed Gypsiness as a means of advancing themselves socially culturally and economically as Soviet citizens Exploring the intersection between nationality performance and self fashioning O Keeffe shows that Roma not only defy easy typecasting but also deserve study as agents of history

“Gypsies” in European Literature and Culture V. Glajar, D. Radulescu, 2008-04-28 This book traces representations of Gypsies that have become prevalent in the European imagination and culture and influenced the perceptions of Roma in Eastern and Western European societies Educating the Hungarian Roma Andria D. Timmer, 2016-12-13 This book is based on 18 months of ethnographic research with nongovernmental organizations NGOs that take the primary interventionist role in Roma education throughout Hungary Through the use of ethnographic interviews long term participant observation and textual analysis of NGO websites pamphlets and promotional materials Andria D. Timmer examines the nongovernmental sector as the locale in which the politicized Gypsy identity is constructed interpreted and contested Many NGOs uphold the provider beneficiary dichotomy which blames failures on cultural or ethnic differences rather than address the discrimination racism segregationist policies and outright violence against the Roma This policy has further exacerbated the residential isolation discrimination and manufactured sense of cultural differences that enables the continued practice of segregating Roma children into ethnically homogeneous schools or classrooms that commonly offer less quality education than that which their majority peers receive

From Mediation to Nation-Building Joseph R. Rudolph Jr., William J. Lahneman, 2013-05-16 The eruption in the early 1990s of highly visible humanitarian crises and exceedingly bloody civil wars in the Horn of Africa imploding Yugoslavia and Rwanda set in motion a trend towards third party intervention in communal conflict in areas as far apart as the Balkans and East Timor However haltingly and selectively that trend towards extra systemic means of managing ethnic and national conflict is still discernible motivated as it was in the 1990s by the inability of in house accommodation methods to resolve ethno political conflicts peacefully and the tendency of such conflicts to spill into the international system in the form of massive refugee flows regional instability and failed states hosting criminal and terrorist elements In its various forms third party intervention has become a fixed part of the current international system Our book examines the various forms in which that intervention occurs from the least intrusive and costly forms of third party activity to the most intrusive and expensive endeavors More specifically organized in the form of overview essays followed by case studies that explore the utility and limitations successes and failures of various forms of third party activity in managing conflict the book begins by examining diplomatic intervention and then proceeds to cover in turn legal economic and military instruments of conflict management before concluding with a section on political tutelage arrangements and nation capacity building operations The chapters themselves are authored by a mix of contributors drawn from relevant disciplines both senior and younger scholars academics and practitioners and North Americans and Europeans All treat a common theme but no attempt was made to solicit work from contributors with a common orientation towards the

value of third party intervention Nor were the authors straight jacketed with heavy content guidelines from the editors Their essays validate the value of this approach Far from being chaotic in nature they generally supplement one another while offering opposing viewpoints on the overall topic for example our Italian contributor who specializes in non government organizations offers a chapter illustrating their utility under certain conditions whereas the chapter from an Afghan practitioner notes the downside of too much reliance on NGOs in nation building operations The essays also cover topics not often treated and are written from the viewpoint of those on the ground The chapter on creating a police force in post Dayton Bosnia Herzegovina for example reads much like a diary from the American colonel who was sent to Bosnia in early 1996 charged with that task

Multicultural Jurisprudence Marie-Claire Foblets, Alison Dundes Renteln, 2009-01-16 As individuals travel across borders societies have become more and more pluralistic The result of increased migration is the interaction among cultural communities and inevitably clashes between state law and customary law These cultural conflicts have given rise to a new multicultural jurisprudence In this volume scholars grapple with the immense challenges judges are currently experiencing everywhere To what extent can and should courts accommodate litigants requests by taking their cultural backgrounds into account This collection brings together powerful examples of the cultural defense in many countries in Western Europe North America and elsewhere It shows the ubiquity of this defense contrary to the mistaken impression that it has been invoked principally in the United States This book makes the case for undertaking studies of the use of the cultural defense in jurisdictions all over the world where this has not been previously documented Many of the chapters concentrate on criminal cases including homicide in the context of honour crimes provocation based on loss of face or witchcraft killings Some deal with other areas of law such as asylum jurisprudence family law and housing policy They show in concrete cases how cultural claims have arisen and how legal systems wrestle with these arguments It is clear that judges have had considerable difficulty handling many of the cultural claims The authors demonstrate persuasively the need to reconsider the proper use of cultural evidence in legal proceedings Those interested in the ways in which expertise influences the disposition of cases will find this book compelling

Racial Cities Giovanni Picker, 2017-02-24 Going beyond race blind approaches to spatial segregation in Europe *Racial Cities* argues that race is the logic through which stigmatized and segregated Gypsy urban areas have emerged and persisted after World War II Building on nearly a decade of ethnographic and historical research in Romania Italy France and the UK Giovanni Picker casts a series of case studies into the historical framework of circulations and borrowings between colony and metropole since the late nineteenth century By focusing on socio economic transformations and social dynamics in contemporary Cluj Napoca Pescara Montreuil Florence and Salford Picker detects four local segregating mechanisms and comparatively investigates resemblances between each of them and segregation in French Rabat Italian Addis Ababa and British New Delhi These multiple global associations across space and time serve as an empirical basis for establishing a solid bridge between race critical theories and urban studies

Racial Cities is the first comprehensive analysis of the segregation of Romani people in Europe providing a fine tuned and in depth explanation of this phenomenon While inequalities increase globally and poverty is ever more concentrated this book is a key contribution to debates and actions addressing social marginality inequalities racist exclusions and governance Thanks to its dense yet thoroughly accessible narration the book will appeal to scholars undergraduate and postgraduate students postdoctoral researchers and equally to activists and policy makers who are interested in areas including Race and Racism Urban Studies Governance Inequalities Colonialism and Postcolonialism and European Studies

The International Convention on the Elimination of All Forms of Racial Discrimination Patrick Thornberry, 2016-07-14 The Convention on the Elimination of All Forms of Racial Discrimination is the centrepiece of international efforts to address racial discrimination defined in broad terms to include discrimination based on skin colour descent ethnic and national origin Victims of discrimination within the scope of the Convention include minorities indigenous peoples non citizens and caste or descent groups Virtually all national societies are diverse in terms of ethnicity or race and none is free from discrimination making it one of the great issues of our time Against the background of international human rights standards and mechanisms to counter racial and ethnic discrimination this book provides the first comprehensive legal analysis of the provisions of the Convention on an article by article basis The book addresses the place of the Convention within the broader framework of United Nations action against discrimination The different chapters analyse and discuss broad topics of race ethnicity and international law the genesis and drafting of the Convention the aims and objectives of the Convention in light of its preamble and principles of non discrimination and equality In particular the book includes a critical appraisal of the contribution of the Convention to the eradication of racial discrimination It also reflects on whether there is scope for modification of the substance or procedures of the Convention in light of challenges arising from enhanced transnational population movements the intersection between discrimination on the ground of race and discrimination against religious communities and the intersection of racial and gender based discrimination

Migration and Multi-ethnic Communities Maija Ojala-Fulwood, 2018-02-19 This book aims to shed light on a global and complex phenomenon migration In order to grasp this vast and ambiguous issue the book offers ten multi layered case studies each focussing on one aspect of migration With this selection of articles this collected volume builds a bridge between the past and the present and highlight the many sides of migration The chapters will demonstrate how the questions of controlled migration movement of labour improvement of one s life and interaction of people of different origin have puzzled us in the course of the last five hundred years

Levinas, Ethics and Law Matthew Stone, 2016-01-11 Emmanuel Levinas s philosophy of ethics has frequently attracted attention amongst legal scholars but he remains a divisive and often enigmatic contributor to this field He has been read within contexts as varied as human rights private law refugee law and on the nature of judicial reasoning This book explores what unites such apparently diverse applications of his ideas and in doing so considers the challenge of law s ethical

relationship with the other In addition to asking how Levinas's ethics can inform legal problems the book also examines how the modern legal edifice has a deceptive tendency to close itself off from the ethical experience In particular literatures on biopolitics suggest that law is increasingly complicit in reductive determinations of how we understand ourselves and others Levinas's most penetrating insight might not therefore lie in the law's instrumentalisation of his ethics but instead in the way his ethics trace a human encounter that escapes law

Hidden Genocides Alexander Laban Hinton, Thomas La
Pointe, Douglas Irvin-Erickson, 2013-12-18 Why are some genocides prominently remembered while others are ignored hidden or denied Consider the Turkish campaign denying the Armenian genocide followed by the Armenian movement to recognize the violence Similar movements are building to acknowledge other genocides that have long remained out of sight in the media such as those against the Circassians Greeks Assyrians the indigenous peoples in the Americas and Australia and the violence that was the precursor to and the aftermath of the Holocaust The contributors to this collection look at these cases and others from a variety of perspectives These essays cover the extent to which our biases our ways of knowing our patterns of definition our assumptions about truth and our processes of remembering and forgetting as well as the characteristics of generational transmission the structures of power and state ideology and diaspora have played a role in hiding some events and not others Noteworthy among the collection's coverage is whether the trade in African slaves was a form of genocide and a discussion not only of Hutu brutalizing Tutsi victims in Rwanda but of the execution of moderate Hutus as well Hidden Genocides is a significant contribution in terms of both descriptive narratives and interpretations to the emerging subfield of critical genocide studies Contributors Daniel Feierstein Donna Lee Frieze Krista Hegburg Alexander Laban Hinton Adam Jones A Dirk Moses Chris M Nunpa Walter Richmond Hannibal Travis and Elisa von Joeden Forgey
